› LUDOMIDE Modern Dimmable LED Ceiling Fan User Manual

LUDOMIDE Y1095-WH-ELE

LUDOMIDE Modern Dimmable LED Ceiling Fan User Manual

Model: Y1095-WH-ELE

1. INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your LUDOMIDE Modern Dimmable LED Ceiling Fan. Please read this manual thoroughly before installation and use to ensure safe and efficient operation.

The LUDOMIDE ceiling fan features an elegant and modern design, crafted from high-quality iron, ABS, and acrylic materials. It offers stepless dimmable LED brightness (10% - 100%), three color temperatures (3000K to 6000K), a light memory function, night light mode, natural wind function, six wind speeds, and a sleep timer setting. Its low-profile flush mount design makes it suitable for various rooms, including bedrooms, kids' rooms, living rooms, and home offices.

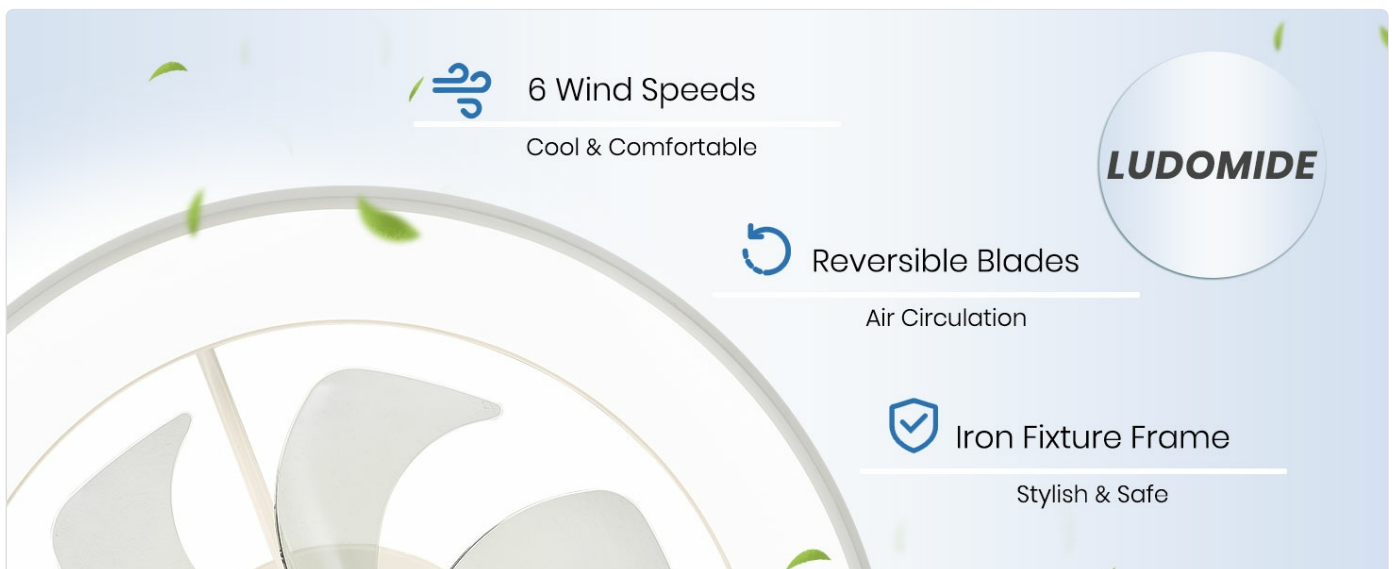

Image 1.2: Overview of key features: 6 wind speeds, reversible blades, app & remote control, acrylic lampshade, and copper DC motor.

2. SAFETY INFORMATION

- Always turn off power at the circuit breaker before installation or servicing.
- Installation must be performed by a qualified electrician or a person with sufficient electrical knowledge.
- Ensure the mounting structure can support the weight of the fan.
- Do not bend fan blades during installation or cleaning.
- Keep hands and objects clear of the fan blades when the fan is operating.
- This product is designed for indoor use only.
- Do not use this fan with a dimmer switch not specifically designed for ceiling fans.

3. PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- 1 x Ceiling Fan with Lights
- 1 x Remote Control
- Mounting Hardware
- Instruction Manual

4. SETUP AND INSTALLATION

Installation of the LUDOMIDE ceiling fan is designed to be straightforward, typically taking approximately 30 minutes.

Follow these general steps:

1. **Prepare for Installation:** Turn off power at the main circuit breaker. Ensure the electrical box is securely mounted and capable of supporting the fan's weight.
2. **Mounting Bracket Installation:** Unscrew the mounting bracket from the fan unit. Attach this bracket to your ceiling electrical box using the provided mounting hardware. An S-hook is included to assist in temporarily hanging the fan during wiring.
3. **Wiring Connections:** Connect the fan's electrical wires to your household wiring according to local electrical codes. Typically, this involves connecting live, neutral, and ground wires.
4. **Attach Fan to Bracket:** Once wiring is complete, carefully lift the fan unit and secure it to the mounted bracket using the designated screws.
5. **Final Checks:** Ensure all connections are secure and the fan is firmly attached to the ceiling. Restore power at the circuit breaker.

PARAMETER

WATTAGE :	49W	DIMMABLE :	Yes
FAN BLADE :	7 Blades	LIGHT :	29W LED
ROOM SIZE :	95 -218 sqft	CONTROL :	Remote/App/Wall

5. OPERATING INSTRUCTIONS

Your LUDOMIDE ceiling fan can be controlled via the included remote control or a dedicated smartphone application.

5.1 Remote Control Operation

The remote control provides full functionality for the fan and light. Refer to the diagram below for button functions:

HOW TO USE REMOTE & APP CONTROL?

Image 5.1: Remote control functions.

- **Light ON/OFF:** Toggles the light on or off.
- **Brightness +/-:** Adjusts light brightness from 10% to 100%.
- **Fan ON/OFF:** Toggles the fan on or off.
- **6 Wind Speeds:** Selects fan speed from 1 (lowest) to 6 (highest).
- **Forward/Reverse Rotations:** Changes fan direction for summer (downward airflow) or winter (upward airflow for air circulation).
- **All OFF (Fan & Light):** Turns off both the fan and light.
- **3 Light Temperatures (Quick Switch):** Cycles through 3000K (Warm), 4500K (Natural), and 6000K (White) color temperatures.
- **Light Memory Function:** The fan will auto-save the last brightness and color temperature settings when turned off by remote or app.
- **Night Light Mode:** Activates a dim natural daylight setting.
- **Natural Wind Mode:** Simulates natural breeze by varying fan speeds.
- **1H / 2H Timing:** Sets a sleep timer for 1 or 2 hours.

CEILING FAN WITH LED LIGHT

Image 5.3: Reverse function and wind speed descriptions.

5.2 App Control Operation

The fan can also be controlled via a smartphone application. Follow these steps to connect:

1. **Download App:** Scan the QR code provided in the product packaging or search for "FanLampPro" in your app store (Works with iOS/Android system). A relevant link for the app is <http://www.jasonghost.com/fanlamppro/>.
2. **Enable Bluetooth:** Turn on Bluetooth on your mobile device.
3. **Pair Device:** Keep your wall switch off. Open the app, choose your room, and click to add a device. Turn on the wall switch and click "pair" within 5 seconds in the app.

Image 5.4: App connection instructions.

Note on Power Cycling: If the light/fan is turned off at the main power switch, when turned back on, it will cycle through four preset light settings: maximum brightness in cool, warm, and natural daylight, and a dim natural daylight (night light) setting. To get to your desired setting, simply turn the light off and on again until the preferred preset is reached.

6. MAINTENANCE

- **Cleaning:** To clean the fan, wipe with a soft, damp cloth. Do not use abrasive cleaners or solvents. Ensure power is off before cleaning.
- **Blade Cleaning:** The ABS fan blades can be wiped clean. Avoid bending them.
- **General Check:** Periodically check all connections and mounting screws to ensure they remain secure.
- The LED light source is integrated and not user-replaceable.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Fan does not operate / Light does not turn on.	No power supply; Loose wiring; Remote control battery low/dead; App not paired.	Check circuit breaker. Ensure all wiring connections are secure. Replace remote control batteries. Re-pair the fan with the app following section 5.2.
Fan makes excessive noise or wobbles.	Loose mounting screws; Unbalanced blades (unlikely with this design); Obstruction.	Ensure mounting bracket and fan screws are tightened. Check for any objects interfering with the fan blades. The DC motor is designed for ultra-quiet operation (<35dB).
Light color/brightness changes unexpectedly when turning on via wall switch.	This is a built-in feature.	The fan cycles through preset light modes (max brightness cool, warm, natural; dim night light) when power is cycled via the wall switch. Turn the light off and on again until your desired preset is reached.
App control not working / Fan disconnects from app.	Bluetooth interference; App pairing issue; Firmware issue.	Ensure Bluetooth is enabled on your device and you are within range. Try re-pairing the device as per section 5.2. If issues persist, contact customer support.

8. SPECIFICATIONS

Brand	LUDOMIDE
Model Name	Y1095-WH-ELE
Color	White-Y1095
Material	Iron, Acrylonitrile Butadiene Styrene (ABS), Acrylic
Product Dimensions	20"L x 20"W x 5.5"H
Item Weight	5.61 pounds
Power Source	AC
Voltage	120 Volts
Wattage	58 watts (Total), 49W (Fan), 29W (LED Light)
Light Source Type	Integrated LED
Light Color Temperature	3000K to 6000K (Adjustable)
Brightness	10% to 100% (Stepless Dimmable)
Fan Speeds	6 Wind Speeds
Control Method	Remote Control, App Control
Mounting Type	Flush Mount
Recommended Room Size	95 - 218 sqft (Small rooms, up to 100 sqft for optimal air movement)
Special Features	APP Control, Remote Control, Stepless Brightness Dimmable & 3 Light Temperatures, Light Memory & Natural Wind & Night Light Mode, Reversible Blades, Ultra Quiet DC Motor (<35dB)
Indoor/Outdoor Usage	Indoor
UPC	718687339527
