

Yaheetech Bathroom Floor Cabinet

Yaheetech Bathroom Floor Cabinet Instruction Manual

Model: Bathroom Floor Cabinet

Brand: Yaheetech

1. INTRODUCTION

Thank you for choosing the Yaheetech Bathroom Floor Cabinet. This versatile storage unit is designed to enhance organization in your bathroom, living room, kitchen, or entryway. Featuring a large drawer, three small drawers, and a two-door cabinet with an adjustable shelf, it provides ample space for various items. This manual provides essential information for safe assembly, operation, and maintenance of your new cabinet.

Image 1.2: The cabinet integrated into a living room environment, showcasing its aesthetic appeal and functionality.

2. SAFETY INFORMATION

Please read all safety warnings and instructions carefully before assembly and use. Keep this manual for future reference.

- **Do not exceed the maximum weight capacity for each shelf and drawer** to ensure safety and prevent damage. The tabletop supports up to 20 kg (44.1 lb), the large drawer up to 8 kg (17.6 lb), small drawers up to 2.5 kg (5.5 lb) each, and each shelf up to 10 kg (22 lb).
- Always use the provided anti-toppling kits to secure the cabinet to a wall, especially if children or pets are present. This prevents accidental tipping and potential injury.
- Assemble the cabinet on a soft, clean surface to prevent scratches.
- Ensure all screws and fasteners are securely tightened before use. Periodically check and re-tighten as needed.
- Keep small parts and packaging materials away from children during assembly.

Two anti-toppling kits for greater stability and safety

Image 2.1: Illustration of the anti-toppling kits, showing how they secure the cabinet to the wall for enhanced stability and safety.

Image 2.2: A detailed view of the anti-toppling kit components, essential for securing the cabinet.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all parts are present and undamaged. Refer to the included assembly diagram for a complete list of components and hardware.

Typical Components Include:

- Top Panel
- Side Panels (Left and Right)
- Bottom Panel
- Back Panels
- Large Drawer Components (Front, Sides, Back, Bottom)
- Small Drawer Components (Front, Sides, Back, Bottom)
- Cabinet Doors
- Adjustable Shelf
- Fixed Shelf
- Hardware Pack (Screws, Dowels, Hinges, Knobs, Magnetic Catches, Anti-toppling Kits)

4. SETUP AND ASSEMBLY

Assembly typically requires two people and approximately 1-2 hours. Follow the step-by-step diagrams provided in your package. A Phillips head screwdriver and a hammer (for dowels) are generally required.

Assembly Steps:

1. **Unpack and Identify Parts:** Lay out all components on a clean, soft surface. Match each part to the corresponding label in the assembly instructions.
2. **Assemble the Base Frame:** Connect the side panels to the bottom panel using the designated screws and dowels. Ensure all connections are snug.
3. **Install Back Panels:** Slide the back panels into the grooves on the frame. Secure them using the provided small nails or screws.
4. **Assemble Drawers:** For each drawer, attach the side and back panels to the front panel. Insert the bottom panel into the grooves. Secure with screws. Attach drawer pulls/knobs.
5. **Install Drawer Slides/Tracks:** Attach the plastic drawer tracks to the cabinet frame as indicated in the instructions.
6. **Insert Drawers:** Carefully slide the assembled drawers into their respective compartments.
7. **Install Fixed and Adjustable Shelves:** Place the fixed shelf into its designated position. For the adjustable shelf, insert the shelf pins into the desired height holes and then place the shelf on top.
8. **Attach Cabinet Doors:** Secure the hinges to the cabinet doors and then attach the doors to the cabinet frame. Ensure the doors align properly and open/close smoothly. Install magnetic catches for secure closure.
9. **Attach Top Panel:** Secure the top panel to the assembled frame.
10. **Install Anti-Toppling Kits:** Attach the anti-toppling straps to the back of the cabinet and then secure them to a wall stud using appropriate wall anchors and screws.

Four Corner Braces

Back panel fixtures
for additional stability

Image 4.2: A close-up demonstrating the installation of a corner brace, highlighting the fixture for additional stability.

5. OPERATING INSTRUCTIONS

Using the Drawers:

The cabinet features one large top drawer and three smaller vertical drawers. Pull the knobs or use the arch drawer opening to slide the drawers open. Push them back in until they are fully closed. Avoid forcing drawers if they feel stuck; check for obstructions.

Image 5.1: Detail of the arch drawer opening, designed for easy access to the small drawers.

Adjusting the Shelf:

The upper shelf behind the double doors is adjustable to three different heights (25.4 cm / 10"; 19 cm / 7.5"; 12.6 cm / 5"). To adjust, remove items from the shelf, lift the shelf, remove the shelf pins, reposition the pins into the desired holes, and then place the shelf back on the pins.

Image 5.3: A diagram illustrating the three adjustable height positions for the upper shelf.

6. MAINTENANCE

To keep your Yaheetech Bathroom Floor Cabinet in optimal condition, follow these simple maintenance guidelines:

- **Cleaning:** The cabinet features a durable MDF construction with a spray-painted finish, making it water-resistant. To clean, simply wipe the surfaces with a dry or slightly damp cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the finish.
- **Spills:** Promptly wipe up any spills to prevent water damage, especially in humid environments like bathrooms.
- **Hardware Check:** Periodically check all screws, hinges, and drawer slides to ensure they are tight. Re-tighten if necessary to maintain stability and functionality.

Image 6.1: Demonstrating the water-resistant surface, which allows for easy cleaning of spills.

7. TROUBLESHOOTING

If you encounter any issues with your cabinet, refer to the following common problems and solutions:

- **Cabinet is Wobbly/Unstable:**
 - Ensure all screws and fasteners are fully tightened.
 - Verify that the cabinet is placed on a flat, level surface. Use shims if necessary to stabilize.
 - Confirm that the anti-toppling kits are securely installed to the wall.
- **Drawers Do Not Slide Smoothly:**
 - Check for any obstructions inside the drawer or on the tracks.
 - Ensure the drawer components are assembled correctly and are not misaligned.
 - Verify that the drawer tracks are securely attached to the cabinet frame.
- **Doors Do Not Close Properly:**
 - Check the alignment of the hinges. Adjust if needed.
 - Ensure the magnetic catches are properly installed and aligned with the door.

- Verify that the cabinet itself is level and square.
- **Chemical Odor:**
 - It is normal for new furniture to have a slight odor. Air out the room by opening windows and doors for a few days. The odor should dissipate over time.

8. SPECIFICATIONS

Feature	Detail
Brand	Yaheetech
Model Number	Bathroom Floor Cabinet
Color	White
Product Dimensions	12"D x 32"W x 32"H (30.5 cm D x 81.3 cm W x 81.3 cm H)
