› YITAHOME LED Television Stands w/Power Outlets for 70/65 inch, Modern Industrial TV Stand, Entertainment Center w/Open Storage, Entertainment Center for 360lbs for Living Room, Retro Brown - Instruction Manual

## YITAHOME tv stand

# YITAHOME LED Television Stand Instruction Manual

Brand: YITAHOME | Model: tv stand

## 1. INTRODUCTION

---

Thank you for choosing the YITAHOME LED Television Stand. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new entertainment center. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

## 2. SAFETY INFORMATION

---

For your safety and to prevent damage to the product, please adhere to the following guidelines:

- **Always assemble the TV stand with care, ensuring all parts are securely fastened.** Loose connections can lead to instability and potential hazards.
- **Do not exceed the weight limit of 360 lbs (163 kg) to prevent structural damage or injury.** Distribute weight evenly across the surfaces.
- **Be cautious when handling the tempered glass shelves to avoid breakage or injury.** Tempered glass, while strong, can shatter if impacted at the edges.
- Keep all small parts and packaging materials away from children and pets to prevent choking hazards.
- Ensure the stand is placed on a level, stable surface to prevent tipping.
- Do not allow children to climb or play on the TV stand.

## 3. PACKAGE CONTENTS

---

Before beginning assembly, verify that all components and hardware are present and undamaged. While a detailed list is not provided here, the package typically includes:

- Engineered wood panels (top, bottom, side, and shelf pieces)
- Metal frame components
- LED light strip with power adapter
- Power outlet unit with USB ports
- Adjustable feet
- All necessary assembly hardware (screws, dowels, cam locks, etc.)
- Assembly tools (e.g., Allen wrench)

*Note: The manufacturer provides well-organized instructions and typically includes one extra screw/fastener for each assembly step.*

## 4. ASSEMBLY INSTRUCTIONS

---

Assembly of the YITAHOME LED Television Stand is designed to be straightforward. Follow the detailed diagrams and instructions provided in your product's physical assembly manual. Below are general steps and key considerations:

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface (e.g., carpet or blanket) to prevent scratches. Identify each part using the labels or diagrams in your manual.
2. **Assemble the Frame:** Begin by connecting the main metal frame components according to the instructions. Ensure all screws are tightened securely but do not overtighten.
3. **Attach Wood Panels:** Secure the engineered wood panels to the frame. Pay attention to the orientation of each panel, especially those with pre-drilled holes for the power outlet or cable management.
4. **Install Shelves:** Insert the adjustable shelves into the designated slots. The shelves are 3-level adjustable, allowing you to customize storage space.

Figure 4.1: Adjustable shelf levels for customized storage.

5. **Install Power Outlets:** Integrate the power outlet unit into its designated slot on the top shelf. Ensure it is flush and secure.

Figure 4.2: Integrated power outlets and USB ports.

6. **Attach Adjustable Feet:** Screw the adjustable feet into the bottom of the stand. These can be adjusted to level the stand on uneven floors.

Figure 4.3: Adjustable leveling feet for stability.

7. **Apply LED Strip:** Carefully attach the LED light strip to the designated area, typically along the underside of the top shelf. Ensure the surface is clean and dry before applying the adhesive.
8. **Final Check:** Once assembled, gently lift and move the stand to its desired location. Ensure all connections are tight and the stand is stable.

## 5. SETUP

---

After assembly, follow these steps for proper setup:

- **Placement:** Position the TV stand on a flat, stable surface in your desired room. Ensure there is adequate space around it for ventilation of electronic devices.
- **Leveling:** Use the adjustable feet to ensure the stand is perfectly level, preventing wobbling and ensuring stability for your television and other devices.
- **Cable Management:** Utilize the two cable management holes located on the back of the stand to organize and hide wires from your TV, gaming consoles, and other media devices.
- **Power Connection:** Plug the power cord from the integrated power outlet unit into a standard wall outlet.

## 6. OPERATING INSTRUCTIONS

---

Your YITAHOME LED Television Stand features an RGB LED system and convenient power outlets:

### 6.1. RGB LED System

The LED lighting system offers customizable ambiance for your living space:

- **Color Options:** The LED system is equipped with 16 static colors.
- **Flashing Modes:** Choose from 4 dynamic color flashing modes to suit your mood or occasion.
- **APP Control:** You can DIY the color and mode settings as you like using a compatible mobile application. Refer to the LED light kit's specific instructions for app download and pairing.
- **Activation:** Use the included remote control or the mobile app to turn the LED lights on/off, change colors, and select modes.

## 6.2. Power Outlets and USB Ports

The integrated power strip provides convenient access to power for your electronics:

- **AC Outlets:** The unit includes 4 standard AC outlets for powering your television, soundbar, gaming consoles, and other electrical appliances.
- **USB Ports:** Two USB ports are available for charging mobile devices, tablets, or other USB-powered accessories.
- **Usage:** Simply plug your devices into the available outlets or USB ports. Ensure the main power cord of the TV stand is plugged into a live wall outlet.

## 7. MAINTENANCE

---

Proper care will extend the life and appearance of your TV stand:

- **Cleaning:** To clean the engineered wood surfaces, wipe with a damp cloth. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the finish.
- **Dusting:** Regularly dust all surfaces with a soft, dry cloth.
- **Spills:** Immediately wipe up any spills to prevent staining or damage to the wood.
- **Tempered Glass:** Clean tempered glass shelves with a glass cleaner and a soft cloth.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.

## 8. TROUBLESHOOTING

---

This section addresses common issues you might encounter:

### 8.1. LED Lights Not Working or Falling Down

- **Check Power:** Ensure the LED light strip is properly connected to its power adapter and the adapter is plugged into a working outlet (either the integrated one or a wall outlet).
- **Remote/App:** Verify that the remote control has working batteries and is pointed correctly, or that the mobile app is properly paired and functioning.
- **Adhesive Issues:** If the LED strip's adhesive is not holding, clean the surface thoroughly before re-applying. For a more secure attachment, consider using additional adhesive tape or small clips (not included) designed for LED strips.
- **Strip Damage:** Inspect the LED strip for any visible damage or breaks. If damaged, contact customer support for a replacement.

### 8.2. USB Ports Not Functioning

- **Main Power:** Confirm that the TV stand's main power cord is securely plugged into a live wall outlet. The USB ports draw power from this connection.
- **Device Compatibility:** Ensure the device you are trying to charge is compatible with standard USB charging.
- **Cable Check:** Try a different USB cable to rule out a faulty cable.
- **Overload:** Avoid connecting too many high-power devices simultaneously, which could trip an internal safety

mechanism. Unplug all devices, wait a few minutes, and try again.

## 9. SPECIFICATIONS

Detailed specifications for your YITAHOME LED Television Stand:

|                        |                                                         |
