Yebicola 4D 9-Floating Head Shaver LK-9300 Instruction Manual

Model: LK-9300

INTRODUCTION

Thank you for choosing the Yebicola 4D 9-Floating Head Shaver. This device is designed to provide a comfortable and efficient shaving experience for bald men, offering versatility with its 6-in-1 grooming kit. Please read this manual thoroughly before using the product to ensure safe operation and optimal performance. Keep this manual for future reference.

IMPORTANT SAFETY INFORMATION

To reduce the risk of electric shock, injury, or damage, please observe the following safety precautions:

- Do not immerse the charging base or power adapter in water or other liquids.
- Keep the device away from children. This is not a toy.
- Do not use the shaver if it is damaged or malfunctioning. Contact customer support for assistance.
- Only use the provided charging cable and adapter.
- Ensure your hands are dry when plugging or unplugging the charger.
- Do not attempt to disassemble or repair the shaver yourself.
- Avoid using the shaver on irritated, damaged, or infected skin.
- For external use only.

360° Floating Shaving

Increase the Shaving Area

The main shaver unit with its 9 floating heads, designed for a smooth and close shave.

4D Floating Head Shaver

Features sharp blades that provide deep clean shave, reduce irritation on skin or missing any spots. 9-blade shaving head enlarge the shaving area, reduce head shaving time and can perfectly match the contours of your head.

SETUP AND INITIAL USE

1. Charging the Shaver

Before first use, fully charge the shaver. Connect the USB charging cable to the shaver's charging port and plug the other end into a USB power source (e.g., computer, power bank, or wall adapter). The LED display will indicate the charging status.

- Charging Time: Approximately 2 hours for a full charge.
- Operating Time: Up to 90 minutes on a full charge.

The shaver being charged via a USB connection, illustrating its compatibility with various USB power sources.

2. Attaching/Detaching Accessories

To attach an accessory, align the accessory with the shaver body and push it firmly until it clicks into place. To detach, pull

the head horizontally away from the shaver body.

Easy to Change

Pull the head out horizontally, match the slot and insert till you hear the click sound.

Easy to Clean

Release the outer blades first, and then turn the central blade counterclockwise and pull it up to release it.

OPERATING INSTRUCTIONS

1. Shaving Your Head or Face

- Ensure the shaver is fully charged.
- Attach the 9-floating head shaver attachment.
- **Dry Shave:** For a quick shave, use the shaver on dry skin.
- **Wet Shave:** For a smoother shave, apply shaving cream or gel to your skin. The shaver is IPX5 waterproof and can be used in the shower.
- Press the power button to turn on the shaver.
- Gently move the shaver in circular motions over the area you wish to shave. Do not press too hard.
- After shaving, turn off the shaver and clean it as described in the Maintenance section.

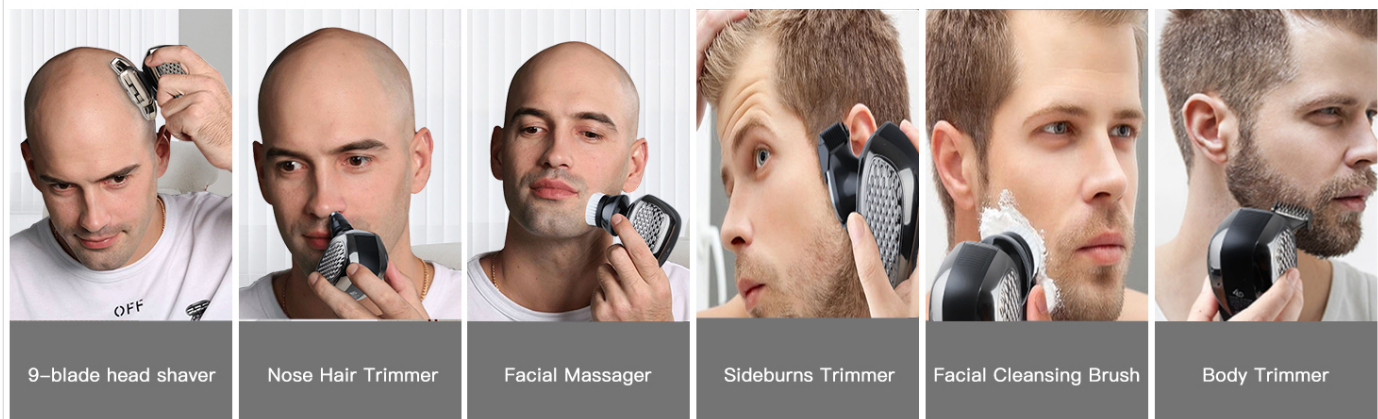

2. Using Other Attachments (6-in-1 Grooming Kit)

Each attachment is designed for specific grooming needs:

- **Nose Hair Trimmer:** Gently insert the trimmer into your nostril or ear and move it in a circular motion to trim unwanted hair.
- **Sideburns Trimmer:** Use this attachment to define sideburns, beard lines, or trim longer hair before shaving.
- **Body Trimmer:** Ideal for trimming body hair.
- **Facial Cleansing Brush:** Attach the brush head, wet your face, apply cleanser, and gently move the brush in circular motions to cleanse your skin.
- **Facial Massager:** Use this attachment to gently massage your face, promoting circulation and relaxation.

MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and extends the life of your shaver.

1. Cleaning the Shaver Head

- After each use, turn off the shaver.
- Detach the shaver head by pulling it horizontally.
- Rinse the shaver head and the main body under running water. The shaver is IPX5 waterproof.
- For a deeper clean, release the outer blades by turning the central blade counterclockwise and pulling it up. Rinse all parts thoroughly.
- Allow all parts to air dry completely before reassembling or storing.

IPX5 Waterproof

Easy to clean with running water

Easy Cleaning

The electric razor for men head shaver is easy to clean with running water thanks to the IPX5 waterproof design, perfect for using in the shower or wet dry with foam and complete your trimming task efficiently.

Detailed view of the shaver head being opened for thorough cleaning, highlighting the ease of maintenance.

2. Replacing Blades

The shaver comes with an extra replacement blade. It is recommended to replace the shaver head every 6-12 months, depending on usage, to maintain optimal shaving performance. Follow the instructions for detaching and attaching heads when replacing.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Shaver does not turn on.	Battery is low or depleted.	Charge the shaver for at least 2 hours.
Poor shaving performance.	Blades are dull or clogged with hair.	Clean the shaver head thoroughly. Replace the shaver head if blades are dull.
Shaver makes unusual noise.	Hair or debris caught in the blades.	Clean the shaver head. Ensure all parts are correctly assembled.
Skin irritation after shaving.	Pressing too hard, dry shaving sensitive skin, or dull blades.	Use lighter pressure. Try wet shaving with shaving cream. Ensure blades are sharp.
