Redsack PB-001

Redsack Portable Bidet User Manual

Model: PB-001

For Travel & Camping, Feminine Hygiene, and Personal Cleaning

1. INTRODUCTION

This manual provides comprehensive instructions for the safe and effective use of your Redsack Portable Bidet. Designed for personal hygiene, this manual squeeze handheld peri bottle offers a convenient and hygienic cleaning solution for various situations, including travel, camping, and daily use.

Key Features:

- **Personal Hygiene Clean:** Innovative flow rinsing technology for thorough front and back cleaning.
- **Manual Water Flow Adjustment:** Flexible water pressure control by gentle or strong squeezing.
- **Environmentally Friendly & Health Material:** Made of high-quality, BPA-free plastic for safe use.
- **Easy to Carry and Store:** Unique telescopic structure shrinks to a compact size, ideal for portability.
- **Leak-Proof Design:** Features 3 leak-proof seals and a secure sealing cap.
- **Extendable Sprayer with Rotating Nozzle:** Provides optimal reach and angle for effective cleaning.

2. SETUP AND PREPARATION

Before first use, please familiarize yourself with the components and follow these steps to prepare your bidet.

Components:

- Bidet Bottle (main body)
- Telescoping Nozzle Assembly

- Sealing Cap

Initial Setup Steps:

1. **Open the Cover:** Gently rotate the top cover in one direction to unlock and remove it.
2. **Extend the Nozzle:** Pull the telescoping tube upwards until it is fully extended and locked into place.
3. **Unscrew Cap:** Unscrew the cap counter-clockwise to access the water reservoir.
4. **Fill with Water:** Fill the bidet bottle with clean water. The capacity is approximately 380ml (12.85oz).
5. **Tighten Cap:** Screw the cap clockwise firmly to ensure a leak-proof seal.
6. **Open Sealed Switch:** Before use, rotate the nozzle to open the sealed switch, indicated by an arrow.

3. OPERATING INSTRUCTIONS

The Redsack Portable Bidet is designed for ease of use and effective cleaning.

1. **Positioning:** Hold the bidet upside down, aligning the nozzle with the area to be cleaned. The ergonomic 65° long neck nozzle design helps reach desired areas without discomfort.
2. **Adjust Water Flow:** Gently squeeze the bottle to initiate a gentle water flow. For a stronger stream, apply more pressure. The manual squeeze allows for personalized water pressure adjustment.

3. **Cleaning:** Use the directed water stream to clean the desired area. The precision porous nozzle ensures effective spray.
4. **Post-Use:** After cleaning, release pressure on the bottle. Rotate the nozzle to close the sealed switch.
5. **Storage:** Press the telescoping tube back into the bottle until it is fully retracted. Close the sealing cap securely to prevent any water leakage during storage or transport.

Strong cleaning power

Easy to squeeze
Soft bottle, easy to spray and wash

4. CARE AND MAINTENANCE

Proper care ensures the longevity and hygiene of your Redsack Portable Bidet.

- **Cleaning:** After each use, empty any remaining water. Rinse the bottle and nozzle thoroughly with clean, cool water. The flat surface of the bidet is easy to clean.
- **Temperature Warning:** **DO NOT** rinse with hot water higher than 60°C (140°F). The product cannot be boiled or washed with boiling water.
- **Drying:** Allow all components to air dry completely before reassembling and storing to prevent mold or mildew growth.
- **Storage:** Store the bidet in its retracted, compact form with the sealing cap securely closed in a clean, dry place.

Image: Important warning: Do not rinse with hot water above 60°C. The product cannot be boiled or washed with boiling water.

5. TROUBLESHOOTING

If you encounter any issues with your Redsack Portable Bidet, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Weak Water Flow	Insufficient squeeze pressure; nozzle blockage; low water level.	Squeeze the bottle more firmly. Check the nozzle for any debris and clear if necessary. Refill the bottle with water.
Water Leakage	Cap not tightened properly; sealed switch not closed; damaged seal.	Ensure the cap is screwed on tightly. Confirm the sealed switch is closed after use. Inspect seals for damage; if damaged, contact support for replacement.

Problem	Possible Cause	Solution
Nozzle Does Not Extend/Retract Smoothly	Debris in mechanism; misalignment.	Ensure no foreign objects are obstructing the mechanism. Gently align and try extending/retracting again. Do not force.

6. PRODUCT SPECIFICATIONS

Feature	Detail
Model Number	PB-001
Capacity	380 Milliliters (12.85 oz)
Material	Plastic (BPA-free)
