Eureka Forbes Glory

Aquaguard Glory RO+UV+UF+TA Water Purifier

User Manual - Model: GWPDGRUVM03B00

Brand: Eureka Forbes

1. Introduction

Thank you for choosing the Aquaguard Glory RO+UV+UF+TA water purifier by Eureka Forbes. This manual provides essential information for the safe and efficient operation, installation, and maintenance of your water purifier. Please read it thoroughly before using the appliance and retain it for future reference.

2. Product Overview

2.1 Key Features

- **Active Copper Zinc Booster Technology:** Infuses copper and zinc ions along with other essential minerals into the purified water.
- **Advanced Purification:** Certified to remove new-age contaminants such as lead, mercury, and arsenic, while eliminating viruses and bacteria.
- **UV E-Boiling Technology:** Ensures water is as safe and pure as water boiled for over 20 minutes.
- **Taste Adjuster (MTDS):** Allows adjustment of water taste based on the source water quality, ensuring consistently sweet-tasting water.
- **Multi-Source Compatibility:** Suitable for purifying water from various sources including municipal taps, borewells, and tankers.
- **6-Liter Storage Capacity:** Provides a convenient supply of purified water.

2.2 Components Included

- Aquaguard Glory Water Purifier Unit
- User Manual
- Adapter Bracket

2.3 Product Visuals

Figure 1: Front view of the Aquaguard Glory Water Purifier. This image displays the sleek black design with a rose gold accent panel, featuring indicator lights and the water dispensing tap.

Figure 2: Illustration of the Active Copper with Zinc Booster Technology. This diagram shows the internal cartridge structure, highlighting the copper and zinc components responsible for mineral infusion and taste enhancement.

Figure 3: Representation of the Ultra Filtration (UF) process. This image depicts the UF cartridge, emphasizing its role in imparting crystal clear clarity to drinking water and safeguarding against viral and bacterial contamination.

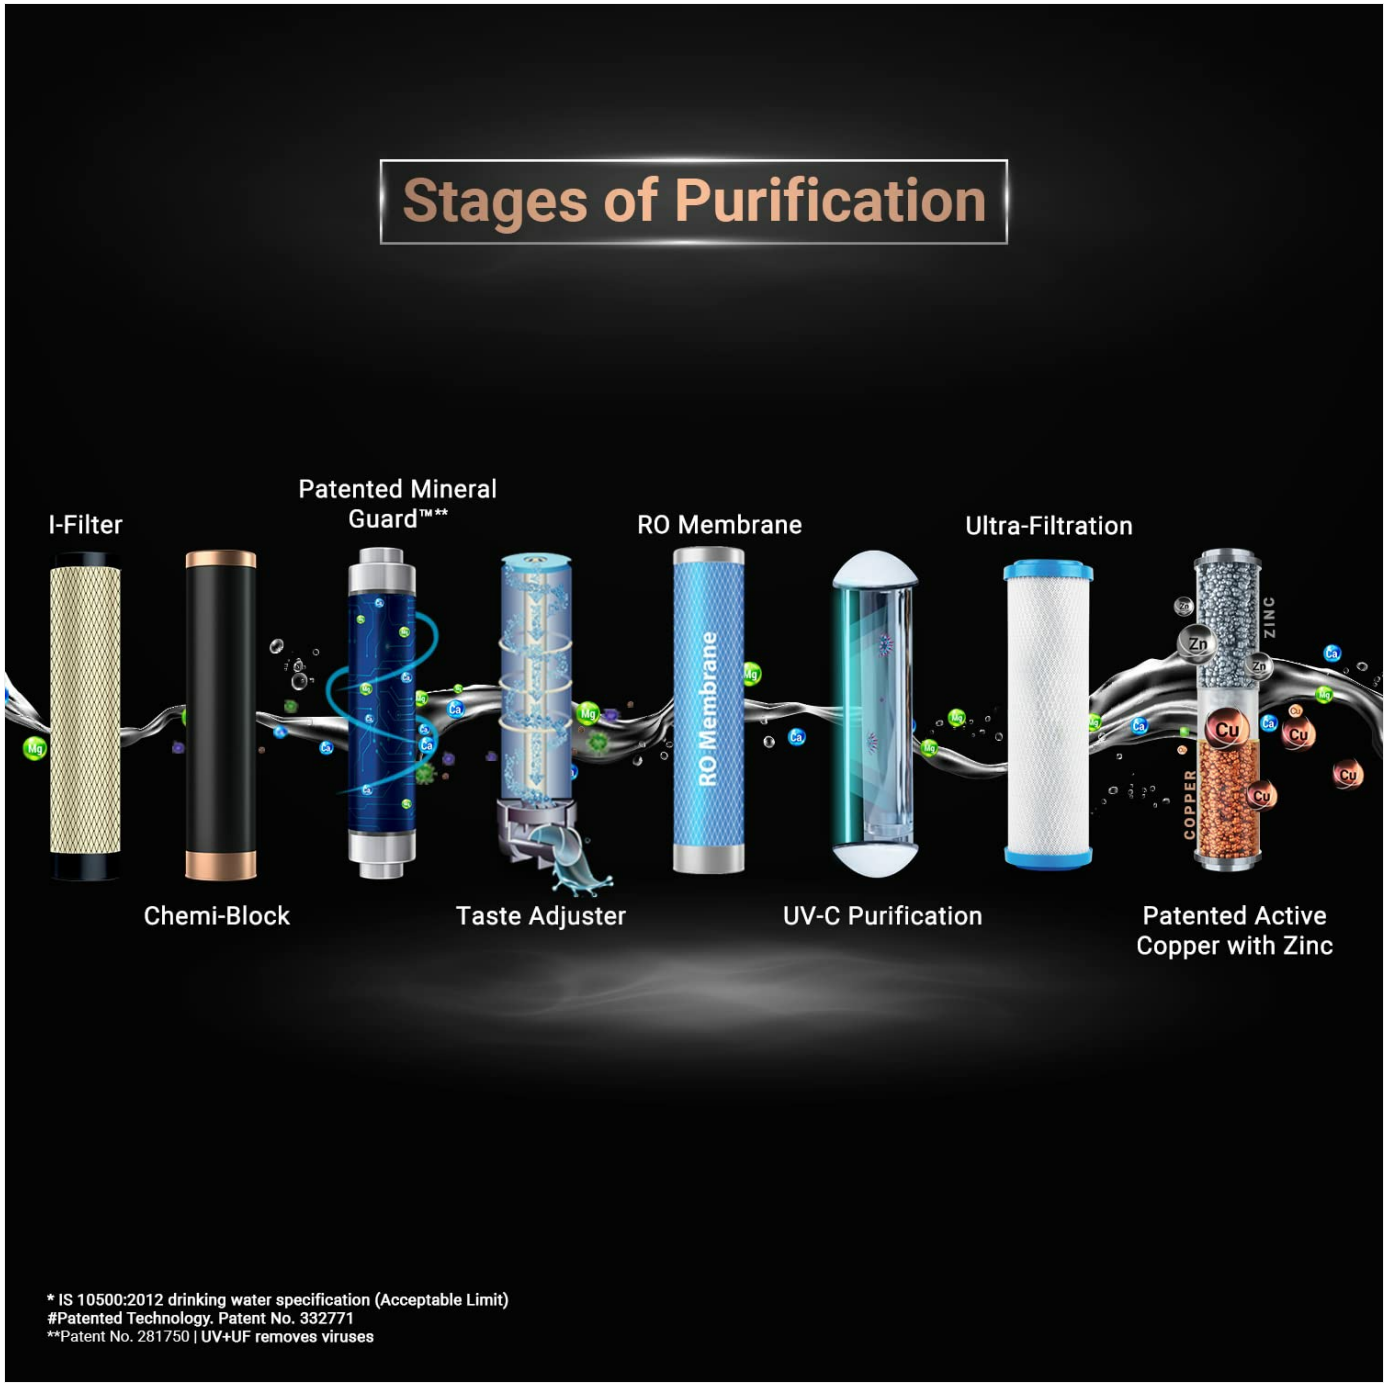

Figure 4: Detailed diagram of the Stages of Purification. This visual outlines the complete purification sequence, including I-Filter, Chemi-Block, Patented Mineral Guard, Taste Adjuster, RO Membrane, UV-C Purification, and Patented Active Copper with Zinc stages.

3. Setup and Installation

The Aquaguard Glory water purifier is designed for countertop installation. For optimal performance and to ensure proper functioning, professional installation by an authorized service technician is highly recommended. Please contact Eureka Forbes customer service to schedule an installation appointment.

3.1 Pre-Installation Checks

- Ensure the installation area is clean, dry, and away from direct sunlight or heat sources.
- Verify that a suitable electrical outlet (230V AC, 50Hz) is available within reach of the purifier's power cord.
- Confirm access to a potable water supply line with adequate pressure.

3.2 Product Dimensions

Figure 5: Dimensions of the Aquaguard Glory Water Purifier. The unit measures approximately 290mm (Length) x 320mm (Width) x 480mm (Height).

4. Operating Instructions

4.1 Initial Start-up

1. After professional installation, ensure the water supply valve to the purifier is open.
2. Plug the power cord into a grounded electrical outlet. The purifier will initiate its self-check and purification cycle.
3. Allow the storage tank to fill completely. For the first use, it is recommended to drain the first two full tanks of purified water to flush out any residual manufacturing impurities.

4.2 Dispensing Purified Water

To dispense water, place a clean container under the tap and turn the tap handle. Close the tap once the desired amount of water is collected.

4.3 Indicator Lights

The purifier features indicator lights on the front panel to communicate its status:

- **Power Indicator:** Illuminates when the unit is powered on.
- **Purification In Progress:** Indicates when the purification process is active.
- **Tank Full:** Lights up when the purified water storage tank is full.
- **Filter Change Indicator:** Alerts the user when filters require replacement. Refer to the Maintenance section for details.

5. Maintenance

Regular maintenance is crucial for the longevity and efficient performance of your Aquaguard Glory water purifier. Always disconnect the power supply before performing any maintenance.

5.1 Filter Replacement

The purifier is equipped with a 'Change Filter Indicator' to alert you when filter replacement is due. Filter life depends on the quality of input water and consumption. It is recommended to replace filters as indicated or at least once a year, whichever comes first. Contact an authorized Eureka Forbes service technician for filter replacement to ensure genuine parts and proper installation.

5.2 Cleaning the Unit

- Wipe the exterior of the purifier with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- Clean the water dispensing tap regularly to prevent accumulation of dust or residue.
- Do not attempt to open the unit for internal cleaning. This should only be done by a qualified service technician.

5.3 Storage Tank Cleaning

The internal storage tank should be cleaned periodically by an authorized service technician during routine maintenance visits.

6. Troubleshooting

If you encounter any issues with your water purifier, refer to the table below for common problems and their solutions. If the problem persists, contact Eureka Forbes customer service.

Problem	Possible Cause	Solution
No water dispensing	• No power supply • Water supply valve closed • Storage tank empty • Blocked filters	• Check power connection • Open water supply valve • Wait for tank to fill • Contact service for filter check
Slow water flow	• Low input water pressure • Clogged filters	• Check household water pressure • Contact service for filter check/replacement
Unusual taste/odor	• New filters (initial flush needed) • Expired filters • Contaminated storage tank	• Drain and refill tank a few times • Contact service for filter replacement/tank cleaning

Problem	Possible Cause	Solution
Leakage from unit	• Loose connections • Damaged components	• Immediately turn off water supply and power. Contact service.

7. Specifications

Feature	Specification
Brand	Eureka Forbes
Model Name	Glory
Item Model Number	GWPDGRUVM03B00
Purification Technology	RO+UV+UF+TA (Taste Adjuster) with Active Copper Zinc Booster
Storage Capacity	6 Liters
Installation Type	Countertop
Product Dimensions (L x W x H)	29 cm x 32 cm x 48 cm
