2. SAFETY INSTRUCTIONS

- Always place the bathtub on a flat, stable, and non-slip surface. Ensure the floor can support the weight of the bathtub filled with water and a person.
- Do not fill the bathtub with water hotter than 45°C (113°F) to prevent burns. Always test water temperature before entering.
- Never leave children unattended in or near the bathtub, even for a short period. Drowning can occur quickly and silently.
- Keep electrical appliances away from the bathtub to avoid electric shock.
- Do not use abrasive cleaners or sharp objects on the bathtub surface, as this may damage the material.
- Ensure the drain hose is securely connected and directed to a suitable drain before filling the bathtub.
- Avoid overfilling the bathtub to prevent water spillage and potential slipping hazards.

- This product is made from BPA-free plastic, ensuring it is safe for skin contact.

4. SETUP AND ASSEMBLY

The FLINQ Foldable Bathtub is designed for quick and easy setup. Follow these steps to prepare your bathtub for use:

1. **Unfold the Bathtub:** Place the folded bathtub on a flat, stable surface. Gently pull the sides outwards until the bathtub fully expands and the support legs lock into place. Ensure all four support legs are firmly extended and stable.
2. **Attach the Drain Hose:** Locate the drain outlet at the bottom of the bathtub. Connect the provided drain hose securely to the outlet. Direct the other end of the hose towards a suitable drain (e.g., shower drain, floor drain).
3. **Install Accessories:** Place the headrest at one end of the bathtub for added comfort. If desired, attach the shower head holder to the side of the bathtub.

5. OPERATING INSTRUCTIONS

Once the bathtub is set up, you can begin your relaxing experience:

1. **Fill with Water:** Begin filling the bathtub with water. Ensure the drain hose is properly positioned to prevent leaks. Monitor the water level to avoid overfilling.
2. **Adjust Temperature:** Use a thermometer to check the water temperature. Adjust to your preferred comfort level, ensuring it is not too hot.
3. **Utilize the Lid/Tray:** The insulated lid helps retain water temperature. It can also serve as a convenient tray for a book, tablet, or beverage.
4. **Foot Massage Function:** The bathtub includes a foot massage function. Position your feet over the designated area for a gentle massage.
5. **Relax:** Enjoy your bath. The spacious design allows you to stretch out comfortably.

6. MAINTENANCE AND CLEANING

Proper maintenance ensures the longevity and hygiene of your foldable bathtub.

1. **Draining:** After use, remove the sealing cap from the drain outlet and ensure the drain hose is directed to a suitable drain. Allow all water to empty completely.
2. **Cleaning:** Rinse the bathtub thoroughly with clean water. Use a soft cloth and mild, non-abrasive soap to clean the interior and exterior surfaces. Avoid harsh chemicals or scrubbing pads that could damage the material.
3. **Drying:** Wipe the bathtub dry with a clean cloth or allow it to air dry completely before folding and storing. This prevents mold and mildew growth.

7. STORAGE

The foldable design allows for convenient storage:

1. **Fold the Bathtub:** Once clean and dry, gently push the sides inwards to collapse the bathtub. Ensure the support legs fold neatly.
2. **Compact Size:** When folded, the bathtub has a height of only 22 cm, making it easy to store in small spaces, such as behind a door, in a closet, or under a bed.
3. **Storage Location:** Store the bathtub in a cool, dry place away from direct sunlight and extreme temperatures.

8. TROUBLESHOOTING

- **Bathtub not unfolding/folding easily:** Ensure all locking mechanisms for the legs are disengaged/engaged correctly. Apply gentle, even pressure. Do not force.
- **Water leakage from drain:** Check that the drain hose is securely attached to the outlet and that the sealing cap is properly in place when not draining.
- **Bathtub unstable:** Verify that the bathtub is placed on a completely flat and level surface and that all support legs are fully extended and locked.
- **Slow drainage:** Check the drain hose for kinks or blockages. Ensure the receiving drain is not clogged.
