### Devoko DVCH-240093-0

# Devoko 85 Gallon Lockable Resin Outdoor Storage Deck Box Instruction Manual

Model: DVCH-240093-0

## PRODUCT OVERVIEW

The Devoko 85 Gallon Lockable Resin Outdoor Storage Deck Box is designed for convenient and secure outdoor storage. Constructed from durable, weather-resistant resin, this deck box offers ample space for patio cushions, garden tools, pool gear, and other outdoor essentials. Its imitation wood surface provides an aesthetic appeal that complements various outdoor settings. Key features include a lockable lid for security, double hydraulic gas rods for smooth opening and slow closing, and integrated side handles for easy repositioning. The sturdy design also allows it to function as additional seating, supporting up to 350 pounds.

## Key Features

- **Ideal Storage Capacity:** 85 gallons (46" L x 21.3" W x 23.3" H) suitable for furniture cushions, garden tools, and more.
- **Durable Resin Material:** Made from weather-resistant resin with excellent UV protection and waterproof capabilities, ensuring longevity without fading, peeling, or rusting.
- **Imitation Wood Surface:** Stylish design that blends seamlessly with outdoor decor.
- **Secure & Convenient Design:** Features a lockable lid for item safety and double hydraulic gas rods for easy, slow-closing operation. Side handles facilitate movement.
- **Extra Seating:** The robust construction supports up to 350 pounds, allowing it to be used as a bench for up to two adults.

## SPECIFICATIONS

Feature	Detail
Brand	Devoko
Model Number	DVCH-240093-0
Color	Black

Feature	Detail
Material	Resin
Capacity	85 Gallons (321.76 Liters)
Product Dimensions	46.06"L x 21.3"W x 23.3"H
Item Weight	30 Pounds
Special Features	Lockable, Waterproof
Closure Type	Buckle
Opening Mechanism	Hinge with Hydraulic Gas Rods
Shape	Rectangular
Recommended Uses	Outdoor storage for cushions, garden tools, pool gear

## ASSEMBLY INSTRUCTIONS

The Devoko 85 Gallon Deck Box is designed for straightforward assembly. Follow these steps for quick and easy setup. A Phillips head screwdriver is the only tool required.

### Step 1: Unpack and Identify Components

Carefully unpack all components from the box. Each panel is typically labeled with a letter for easy identification, corresponding to the instructions. Ensure all parts, including the side panels, front/back panels, bottom panel, lid, hydraulic air lift hinges, and screws, are present.

## Step 2: Assemble Side and Base Panels

- Begin by connecting the long front and back panels with the side panels. These pieces are designed to snap together securely. Apply firm, even pressure to ensure all tabs click into place.
- Once the four side walls are connected, carefully flip the structure over and snap the bottom panel into place. Ensure all connections are secure.

## Step 3: Attach the Lid

- Position the lid on top of the assembled base, ensuring the front of the lid aligns with the front panel of the box.
- The lid will snap into place along the top edges of the side panels. Apply gentle pressure to secure it.

## Step 4: Install Hydraulic Air Lift Hinges

- Attach the hydraulic air lift hinges to the designated points on the inside of the lid and the back panel of the box using the provided screws and a Phillips head screwdriver.
- Ensure the hinges are correctly oriented as shown in the instructions to allow for smooth opening and slow closing.
- These hinges are crucial for the soft-close feature and to keep the lid open safely.

# ARC ANGLE DESIGN

Smooth edges and corners to prevent accidents

## OPERATING INSTRUCTIONS

---

### Opening the Lid

- Gently lift the front edge of the lid. The hydraulic gas rods will assist in lifting the lid smoothly and holding it open.

## Closing the Lid

- Gently push down on the lid. The hydraulic gas rods will ensure a slow and controlled closing, preventing slamming.

## Locking the Box

- To secure your items, align the padlock hole on the lid with the corresponding hole on the front panel. Insert a standard padlock (not included) through the aligned holes.

# LOCKABLE DECK BOX

Ensure that items are not damaged or lost

## MAINTENANCE

To ensure the longevity and appearance of your Devoko 85 Gallon Deck Box, follow these simple maintenance guidelines:

- **Cleaning:** Wipe down the exterior with a damp cloth and mild soap as needed. Avoid abrasive cleaners or harsh chemicals that could damage the resin surface.
- **Water Drainage:** While waterproof, ensure the box is placed on a level surface to prevent water accumulation around the base, which could lead to moisture issues over time.

- **UV Protection:** The resin material is UV-resistant, but prolonged exposure to intense sunlight can still affect its color over many years. Consider placing it in a shaded area or using a protective cover during extreme weather conditions if desired.
- **Hinge Care:** Periodically check the hydraulic gas rods and hinges for smooth operation. Apply a silicone-based lubricant if any stiffness is observed.

## TROUBLESHOOTING

---

- **Lid Not Closing Properly:** Ensure the box is on a level surface. Check for any obstructions inside or along the edges of the lid that might prevent it from closing completely. Verify that the hydraulic gas rods are correctly installed and not damaged.
- **Water Inside the Box:** Confirm that the lid is fully closed and sealed. Check for any cracks or damage to the resin panels. Ensure the box is not sitting in standing water. While waterproof, extreme conditions or improper assembly can sometimes lead to minor leaks.
- **Difficulty Moving the Box:** If the box is full, empty some contents to reduce weight. Utilize the built-in side handles for easier lifting and repositioning.

## WARRANTY AND SUPPORT

---

For warranty information, product support, or to purchase replacement parts, please contact Devoko customer service. Refer to your purchase documentation for specific warranty terms and contact details.
