Setup and Assembly

Unpacking and Component Check

Carefully unpack all components from the box. Verify that all 579 pieces, including the LED light components, are present. Refer to the included parts list in the separate printed instruction booklet to confirm all items are accounted for.

Assembly Instructions

Follow the step-by-step diagrams provided in the separate printed instruction booklet. Sort pieces by numbered bags as indicated in the manual to streamline the building process. Some connections may require firm pressure to ensure stability.

Operating the LED Lights

The SEMKY Flower House features integrated LED lighting. Once the assembly is complete and the wiring is connected as per the instruction booklet, activate the lights by connecting the power source (not included, typically a battery box or USB power supply). The lights are designed to illuminate the interior and exterior of the flower house, enhancing its display.

Care and Maintenance

To maintain the appearance and integrity of your building set, follow these guidelines:

- **Cleaning:** Use a soft, dry cloth to gently wipe away dust. For stubborn dirt, a slightly damp cloth can be used, but ensure no water enters the electrical components.
- **Storage:** Store the assembled model or disassembled pieces in a cool, dry place away from direct sunlight to prevent discoloration or warping.
- **Handling:** Handle the model with care, especially when moving it, to prevent pieces from detaching.

Troubleshooting

- **Missing Pieces:** All pieces are sorted and packaged by machine. If you find any missing pieces upon inspection, please contact SEMKY customer support for assistance.
- **Loose Connections:** If certain pieces, particularly decorative elements like flowers, do not stay attached firmly, ensure they are pressed down completely onto the studs. Some pieces may require additional pressure.
- **LED Lights Not Working:** Check the battery connection or USB power supply. Ensure all wiring is correctly routed and securely connected as shown in the instruction manual.
