› Aheaplus Corner Bar Cabinet with Power Outlet and LED Strip (Model YHWC-01B) - Instruction Manual

## Aheaplus YHWC-01B

# Aheaplus Corner Bar Cabinet with Power Outlet and LED Strip

Model: YHWC-01B

---

## 1. INTRODUCTION

---

Thank you for choosing the Aheaplus Corner Bar Cabinet. This manual provides essential information for the safe assembly, setup, operation, and maintenance of your new cabinet. Please read these instructions thoroughly before beginning assembly and retain them for future reference.

## 2. SAFETY INFORMATION

---

Adhere to the following safety guidelines during assembly, installation, and use to prevent injury or damage:

- **General Safety:** Always follow general safety guidelines for furniture assembly. Ensure all components are securely fastened.
- **Electrical Components:** Exercise caution when handling the power outlet and LED strip. Ensure the power cord is not pinched or damaged. Do not expose electrical components to moisture.
- **Stability:** The cabinet must be securely installed. Utilize the provided anti-toppling fittings to anchor the cabinet to a wall, especially in households with children or pets.
- **Weight Capacity:** Do not overload shelves. Distribute weight evenly. Refer to the specifications for individual shelf weight limits.
- **Glassware:** Handle glassware with care to avoid breakage and injury.
- **Ventilation:** Ensure adequate ventilation around the cabinet, especially if placing heat-generating appliances on it.

## 3. PACKAGE CONTENTS

---

Before assembly, verify that all parts are present and undamaged. If any parts are missing or damaged, contact customer support.

- MDF Board Panels (various sizes for shelves, top, bottom, doors)
- Metal Frame Components
- LED Strip Light Kit (with remote/controller)
- Power Outlet Unit (with 3 AC outlets and 2 USB ports)
- Hanging Glass Holders
- Assembly Hardware (screws, bolts, cam locks, dowels, Allen wrench)
- Adjustable Leg Pads
- Anti-Toppling Fittings
- Instruction Manual

## 4. ASSEMBLY INSTRUCTIONS

---

Assembly typically requires two adults. Follow the step-by-step diagrams provided in the separate assembly guide included with your product. Ensure you have a clear, spacious area for assembly.

1. **Unpack and Identify:** Carefully unpack all components and lay them out. Identify each part using the provided parts list.
2. **Assemble Frame:** Begin by assembling the main metal frame structure according to the diagrams. Do not overtighten screws until all parts are aligned.
3. **Attach Panels:** Secure the MDF board panels to the frame, starting with the base and working upwards.
4. **Install Glass Holders:** Attach the hanging glass holders to the designated upper shelf.
5. **Install Power Outlet:** Integrate the power outlet unit into its designated slot on the middle shelf.

Ensure the power cord is routed safely.

6. **Attach Doors:** Install the mesh doors to the bottom cabinet section. Adjust hinges for proper alignment.
7. **Install LED Strip:** Adhere the LED strip lights to the interior edges of the cabinet shelves as indicated in the diagrams. Connect the LED strip to its controller.
8. **Final Tightening:** Once all components are in place and aligned, fully tighten all screws and bolts.
9. **Attach Anti-Toppling Kit:** Securely attach the anti-toppling fittings to the top rear of the cabinet and to a wall stud.
10. **Adjust Leg Pads:** Adjust the leg pads at the bottom of the cabinet to ensure stability on uneven floors.

## 5. SETUP

---

### 5.1 Power Outlet Setup

The cabinet features a built-in power strip with 3 AC outlets and 2 USB ports. The power cord is approximately 6.56 feet long.

- **Placement:** Position the cabinet near a wall outlet.
- **Connection:** Plug the cabinet's power cord into a standard 120V AC wall outlet.
- **Usage:** You can now plug in small appliances, chargers, or other electronic devices into the AC outlets and USB ports.

## 5.2 LED Strip Light Setup

The LED strip lights provide customizable illumination for your cabinet.

- **Connection:** Ensure the LED strip is properly connected to its controller and power source (usually via a USB plug or directly to the cabinet's power outlet).
- **Remote Control:** If a remote control is included, insert the battery (if not pre-installed) and point it towards the LED controller to operate.
- **App Control:** If app control is supported, download the recommended app (refer to the LED kit's specific instructions) and follow the pairing process.

## 6. OPERATING INSTRUCTIONS

### 6.1 LED Light Operation

The LED lights offer a variety of colors and modes:

- **Power On/Off:** Use the remote control or app to turn the lights on or off.
- **Color Selection:** Choose from over 60,000 colors to match your ambiance.
- **Flashing Modes:** Select from multiple flashing modes for dynamic lighting effects.
- **Music Sync:** Activate the music sync function to change light colors with the rhythm of sound and music.
- **Timing Function:** Set timers for the lights to turn on or off automatically.

## 6.2 General Use

- **Storage:** Utilize the five tiers for storing bottles, glassware, coffee makers, fruit trays, and other bar accessories. The bottom cabinet with mesh doors provides enclosed storage.
- **Display:** The open shelves are ideal for displaying decorative items or frequently used bottles.
- **Charging:** Use the integrated power outlet to charge devices or power small appliances.

## 7. MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Dusting:** Regularly dust the cabinet to maintain its appearance.
- **Hardware Check:** Periodically check all screws and bolts to ensure they remain tight. Retighten if necessary.
- **Electrical Components:** Ensure the power cord and LED strip connections are secure and free from damage. Do not attempt to repair electrical components yourself.

## 8. TROUBLESHOOTING

- **LED Lights Not Working:**

- Check if the LED strip is securely connected to the controller and power source.
- Ensure the cabinet's main power cord is plugged into a live outlet.
- Replace the remote control battery if applicable.

- **Power Outlets Not Functioning:**

- Verify the cabinet's main power cord is firmly plugged into a working wall outlet.
- Check if the device you are trying to power is working correctly.
- Avoid overloading the outlets; ensure the total wattage does not exceed the specified limit.

- **Cabinet Wobbles:**

- Adjust the leg pads at the bottom of the cabinet to level it on uneven surfaces.
- Ensure all assembly screws and bolts are fully tightened.
- Confirm the anti-toppling fittings are properly installed and secured to the wall.

## 9. SPECIFICATIONS

Feature	Detail
Brand	Aheaplus
Model Name	Corner Bar Cabinet (YHWC-01B)
Color	Rustic Brown
Product Dimensions	17.5"D x 17.5"W x 64.2"H
Item Weight	44.6 pounds
Material	Engineered Wood (MDF), Metal Frame
Number of Shelves	5
Special Features	Adjustable Feet, Built-In USB Outlet, LED Light
Power Outlet	3 AC Outlets, 2 USB Ports (120V/12A, 5V/2A)
Power Cord Length	6.56 FT
Assembly Required	Yes
