KingPavonini Bed Rail for Elderly Adults Safety - Model 1

User Instruction Manual

Introduction Safety Information Setup Operating Instructions Maintenance Troubleshooting Specifications Warranty & Support

1. Introduction

Thank you for choosing the KingPavonini Bed Rail, Model 1. This adjustable bed rail is designed to provide sturdy and stable support for individuals needing assistance getting in and out of bed, including seniors, post-surgery patients, and those with limited mobility. It is ASTM compliant and reinforced to support up to 400 lbs. The bed rail features a non-slip ergonomic handle and a convenient storage pocket for personal items. Its tool-free assembly and portable design make it a practical solution for enhanced bed safety.

2. Safety Information

WARNING: ENTRAPMENT, STRANGULATION, SUFFOCATION AND FALL HAZARDS

- Gaps in and around this product can entrap and kill.
- People with Alzheimer's disease or dementia, or those who are sedated, confused, or frail, are at increased risk of entrapment and strangulation.
- People attempting to climb over this product are at increased risk of injury or death from falls.
- Always make sure this product is properly secured to the bed. If the product can move away from the bed or mattress, it can lead to entrapment and death.

This bed rail is designed to fit mattress heights from 3 to 12 inches. It is not compatible with adjustable beds.

Image: The KingPavonini Bed Rail is reinforced to support up to 400 lbs, featuring anti-slip foam on the frame and extra reinforcement bars for stability.

3. Setup Instructions

The KingPavonini Bed Rail features a tool-free assembly process. Follow these steps for quick and easy installation:

1. Unpack all components from the box. Ensure all parts are present: the L-shaped handle, the base bars, and the safety strap.
2. Connect the L-shaped handle to the vertical support bars. These parts click into place securely.
3. Attach the horizontal base bars to the vertical supports. These also click into place.
4. Adjust the height of the handle by pressing the pins and sliding the upper section to your desired

height (17.7 to 20.9 inches). Ensure the pins lock securely into the adjustment holes.

5. Adjust the width of the base by pressing the pins and sliding the horizontal bars to extend from 28.7 to 34.7 inches for a customized fit under your mattress.
6. Place the assembled bed rail on your bed, sliding the horizontal base section between the mattress and the box spring/bed frame.
7. For enhanced security, thread the included safety strap around the bed frame or box spring and secure it tightly to the bed rail. This prevents movement and ensures maximum stability.

4. Operating Instructions

Once properly installed, the KingPavonini Bed Rail provides reliable support for daily use.

- **Getting In and Out of Bed:** Use the padded, non-slip ergonomic handle to push up or lower yourself down safely. The sturdy construction ensures stable support.
- **Storage Pocket:** Utilize the attached storage pouch to keep essential items like remote controls, cell phones, glasses, or books within easy reach.

5. Maintenance

To ensure the longevity and safe operation of your KingPavonini Bed Rail, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the metal frame and handle with a dry cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish or materials.
- **Inspection:** Regularly check all connection points and adjustment pins to ensure they are securely locked. Verify that the safety strap (if used) remains tight and properly attached.
- **Storage:** The bed rail's portable design allows for easy disassembly and storage when not in use. Simply unclip the sections and store them in a dry place.

6. Troubleshooting

If you encounter any issues with your KingPavonini Bed Rail, consider the following common solutions:

- **Instability:** Ensure the horizontal base is fully inserted between the mattress and box spring/bed

frame. Double-check that all adjustment pins are securely locked into place. If applicable, tighten the safety strap around the bed frame.

- **Difficulty Adjusting Height/Width:** Make sure the adjustment pins are fully depressed before attempting to slide the sections. If there is resistance, check for any obstructions.
- **Missing Parts:** If any parts are missing upon arrival, please contact KingPavonini customer support immediately.
