Mous Phone Lanyard Crossbody with Detachable Wrist Strap Instruction Manual

Model: SHI-A0677-BLKNYL-PSL-W1

INTRODUCTION

This manual provides instructions for the proper use and care of your Mous Phone Lanyard Crossbody with Detachable Wrist Strap. This accessory is designed to keep your phone secure and accessible, offering versatility in how you carry your device.

- **Hands-Free Convenience:** Offers nearly 1 meter of adjustability and a detachable wrist strap for versatile carrying options.
- **Durable Construction:** Made from soft, sleek nylon and features scratch-resistant metal hardware for long-lasting use.
- **Multiple Wearing Styles:** Can be used as a wrist strap, worn across the body, around the neck, or adjusted to various lengths.
- **Compatibility:** Designed for Mous cases with double wrist strap eyelets (e.g., Limitless 5.0, Clarity 2.0, Clarity Evolution, Clarity and Evolution for iPhone 14, Pixel 7, S23 and later). Also compatible with Mous cases with single wrist strap eyelets (e.g., iPhone 12, Note 20, Pixel 5 and later), including AirPods cases, and other well-made items with eyelets.

1. SETUP INSTRUCTIONS

Follow these steps to properly attach the Mous Phone Lanyard to your compatible phone case.

1. **Prepare Your Phone Case:** Ensure your phone case has the necessary eyelets or attachment points. The lanyard is designed for Mous cases with double or single wrist strap eyelets.
2. **Remove Phone from Case:** For easier installation, remove your phone from its case.
3. **Thread the Loops:** Locate the small attachment loops on the lanyard. Carefully thread these loops through the designated eyelets on your phone case.

Image: A person wearing the phone lanyard crossbody style, demonstrating how the phone case is attached to the strap. The phone case is black with white speckles, and the lanyard is black with white accents.

4. **Secure the Lanyard:** Once the loops are threaded, re-insert your phone into the case. Attach the main lanyard strap to the loops using the integrated clips. Ensure the clips are securely fastened.

5. **Attach Wrist Strap (Optional):** If using the detachable wrist strap, connect it to the designated attachment point on the main lanyard or directly to a single eyelet on your case, if applicable.

2. OPERATING INSTRUCTIONS

The Mous Phone Lanyard offers multiple ways to carry your device, providing flexibility and convenience.

1. **Adjusting Lanyard Length:** The lanyard features an adjustable mechanism. Slide the adjuster along the strap to achieve your desired length, whether for crossbody, neck, or chest wear. Ensure the strap is comfortably snug but not restrictive.

2. **Crossbody Wear:** For hands-free use, wear the lanyard across your body, positioning your phone securely at your hip or chest level.
3. **Neck Wear:** Adjust the lanyard to a shorter length to wear your phone around your neck.
4. **Detachable Wrist Strap:** The wrist strap can be used independently or attached to the main lanyard. To use as a wrist strap, detach it from the main lanyard and secure it around your wrist.

3. MAINTENANCE

To ensure the longevity and appearance of your Mous Phone Lanyard, follow these maintenance guidelines:

- **Cleaning:** Wipe the nylon strap with a damp cloth and mild soap if necessary. Avoid harsh chemicals or abrasive cleaners.
- **Drying:** Allow the strap to air dry completely before reattaching your phone.
- **Hardware Care:** The metal hardware is scratch-resistant. However, avoid unnecessary impact or abrasion to maintain its finish.
- **Storage:** When not in use, store the lanyard in a clean, dry place away from direct sunlight.

4. TROUBLESHOOTING

If you encounter any issues with your Mous Phone Lanyard, refer to the following common solutions:

Lanyard Length Adjustment Issues

Problem: The lanyard does not stay at the desired length or slips.

Solution: Ensure the adjustment buckle is properly threaded and secured. The design relies on friction to hold the length. If it consistently slips, double-check the threading of the strap through the buckle. Over time, wear may reduce friction; ensure the strap is not damaged.

Difficulty Attaching to Case

Problem: The small loops are difficult to thread through the case eyelets.

Solution: Remove your phone from the case to provide more flexibility. Use a small, pointed tool (like a toothpick or a small pair of tweezers) to guide the loops through the eyelets. Ensure the loops are fully through before attempting to attach the main strap clips.

Compatibility Issues

Problem: The lanyard does not fit my phone case.

Solution: Verify that your phone case has dedicated eyelets or attachment points for a lanyard. This Mous lanyard is specifically designed for Mous cases with eyelets (e.g., Limitless 5.0, Clarity series, and later models for iPhone 14, Pixel 7, S23). It may not be compatible with all third-party cases or older Mous cases without eyelets.

5. SPECIFICATIONS

Feature	Detail
Brand	Mous
Model Number	SHI-A0677-BLKNYL-PSL-W1
Material Type	Nylon
Fastener Type	Buckle
Length	Approximately 1 meter (adjustable)
