Kawada NBPM_079, NBPM-001

Kawada Nanoblock Pokémon Pochama NBPM_079 and Pikachu NBPM-001 Assembly Instructions

Model Numbers: NBPM_079 (Pochama), NBPM-001 (Pikachu)

Introduction

Thank you for purchasing the Kawada Nanoblock Pokémon Pochama (NBPM_079) and Pikachu (NBPM-001) building block sets. These sets allow you to construct detailed miniature models of your favorite Pokémon using nanoblocks. Please read these instructions carefully before beginning assembly to ensure a smooth and enjoyable building experience.

Package Contents

Each Nanoblock set (NBPM_079 and NBPM-001) includes:

- Nanoblock pieces required for the specific Pokémon model.
- Detailed instruction sheet for assembly.
- One base plate (may vary by model).

Please verify all pieces are present before starting. If any pieces are missing, please contact customer support.

Setup and Assembly

Follow the step-by-step instructions provided in each individual Nanoblock set's instruction sheet. The general process involves:

1. **Unpacking:** Carefully open the packaging and separate the nanoblock pieces by color or type if desired.
2. **Reviewing Instructions:** Familiarize yourself with the instruction sheet for your specific Pokémon model (Pochama NBPM_079 or Pikachu NBPM-001).
3. **Starting Assembly:** Begin building from the base upwards, following the diagrams precisely. Nanoblocks are small, so precision is key.
4. **Connecting Blocks:** Press blocks firmly together to ensure a secure connection. A pair of tweezers (not included) can be helpful for placing very small pieces.
5. **Completing the Model:** Continue until all steps are completed and your Pokémon model is fully assembled.

Image: An example of nanoblock pieces and the assembly process, demonstrating the small size and precision required for construction.

Operating (Display and Play)

Once assembled, your Nanoblock Pokémon models are ready for display or gentle play.

- **Display:** Place your finished models on a stable surface. They are excellent for decorating desks, shelves, or

display cases.

- **Gentle Play:** While durable, nanoblock models are not designed for rough play. Avoid dropping or applying excessive force, as small pieces may detach.
- **Articulation:** Some models may have limited articulation in certain parts (e.g., head, limbs). Refer to the individual model's design for specific movable parts.

Maintenance

- **Cleaning:** To clean your Nanoblock models, gently wipe them with a dry, soft cloth. For stubborn dust, a soft brush or compressed air can be used. Avoid using water or chemical cleaners, as these may damage the blocks or cause discoloration.
- **Storage:** Store disassembled blocks in a secure container to prevent loss. Assembled models should be kept in a stable environment away from direct sunlight and extreme temperatures to prevent warping or fading.
- **Disassembly:** If you need to disassemble a model, do so carefully to avoid damaging the blocks. A block separator tool (not included) can be helpful.

Troubleshooting

Missing Pieces:

If you find that pieces are missing from your set, please contact Kawada customer support with your product model number (NBPM_079 or NBPM-001) and a description of the missing parts. Keep your proof of purchase handy.

Difficulty Connecting Blocks:

Ensure blocks are aligned correctly before pressing them together. Apply firm, even pressure. If blocks are consistently difficult to connect, check for any debris or manufacturing imperfections. Do not force blocks, as this may cause damage.

Model Instability:

Verify that all blocks are securely connected according to the instructions. Loose connections can lead to an unstable model. Re-examine the base and critical connection points.

Specifications

Feature	Detail
Brand	Kawada
Product Name	Nanoblock Pokémon Pochama & Pikachu Set
Model Numbers	NBPM_079 (Pochama), NBPM-001 (Pikachu)
Material	ABS Plastic
Recommended Age	Kids (typically 12+ for Nanoblocks due to small parts)
Theme	Anime (Pokémon)
