3. SETUP & ASSEMBLY

The LITFAD California King Wood Lift-Up Storage Bed Frame is designed for straightforward assembly. A detailed assembly instruction with clear illustrations is provided within the packaging. Please follow these steps carefully.

- 1. Unpack Components:** Lay out all parts on a clean, soft surface (e.g., a rug or blanket) to prevent scratches. Identify each component using the parts list in the separate assembly guide.
- 2. Assemble the Frame:** Connect the side rails to the headboard and footboard using the provided hardware and assembly tool. Ensure all connections are secure but do not overtighten until the frame is fully assembled.
- 3. Install Lift-Up Mechanism:** Attach the lift-up storage mechanism to the bed frame according to the specific instructions. This mechanism includes hydraulics for easy lifting.
- 4. Place Wooden Slats:** Secure the wooden slats onto the bed frame. These slats provide robust support for your mattress and eliminate the need for a box spring.
- 5. Final Tightening:** Once the entire frame is assembled, go back and securely tighten all bolts and screws.

4. OPERATION (LIFT-UP STORAGE)

This bed frame features a convenient lift-up storage system, providing ample space underneath for various items.

- Accessing Storage:** To access the storage area, locate the pull strap (if applicable) or the designated lifting point at the foot of the bed.
- Lifting the Mattress Platform:** Gently lift the mattress platform upwards. The integrated hydraulic mechanism will assist in lifting and holding the platform securely in the open position, allowing easy access to the storage space below.
- Closing the Platform:** To close, gently pull the mattress platform downwards. The hydraulics will smoothly guide it back into the closed position. Ensure no items are obstructing the closing mechanism.

- **Spills:** Blot spills immediately with a clean, dry cloth.
