3. SETUP

The Lecoo DS102 speaker is designed for easy setup. It receives power via a USB connection and offers both AUX and Bluetooth for audio input.

3.1 Power Connection

1. Connect the USB cable from the speaker to a powered USB port (e.g., computer, USB wall adapter).

2. The speaker will power on automatically.

3.2 Audio Connection Options

The DS102 offers two primary ways to connect for audio playback:

Bluetooth Connection

1. Ensure the speaker is powered on.
2. On your device (smartphone, tablet, computer), enable Bluetooth and search for available devices.
3. Select "Lecoo DS102" from the list to pair. A confirmation sound will indicate successful pairing.

AUX Connection

1. Connect one end of a 3.5mm audio cable (not included) to the AUX input port on the speaker.
2. Connect the other end of the 3.5mm audio cable to the audio output jack of your device.
3. The speaker will automatically switch to AUX mode when a cable is detected.

7. MAINTENANCE

To ensure the longevity and optimal performance of your Lecoo DS102 speaker, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the speaker's surface. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the speaker in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping the speaker or subjecting it to strong impacts.
- **Water Exposure:** This product is not waterproof. Avoid exposure to water or high humidity.

8. TROUBLESHOOTING

If you encounter any issues with your Lecoo DS102 speaker, please refer to the following common problems and solutions:

- **No Sound:**
 - Ensure the speaker is powered on and the USB cable is securely connected.
 - Check the volume level on both the speaker and your connected device.
 - If using Bluetooth, ensure the speaker is paired correctly and within range. Try re-pairing.
 - If using AUX, ensure the 3.5mm audio cable is fully inserted into both the speaker and your device.
 - Verify that the correct audio output is selected on your source device.
- **Bluetooth Connection Issues:**
 - Ensure the speaker is not already connected to another device.
 - Move your device closer to the speaker to ensure it is within the 10-30 meter range.

- Turn off and on Bluetooth on your device, then try pairing again.
- Some users have noted that the Bluetooth feature is always active. Ensure no unintended devices are connected.
- **Sound Distortion at High Volume:**
 - Reduce the volume level on both the speaker and your source device.
 - For optimal sound quality, it is recommended to use the speaker at around 80% of its maximum volume.
- **No Power On/Off Button:**
 - The Lecoo DS102 does not feature a dedicated power on/off button. To power off the device, disconnect the USB power cable.

9. WARRANTY AND SUPPORT

The Lecoo DS102 speaker comes with an Official Distributor Warranty in Turkey. For warranty claims, technical support, or further assistance, please contact your local Lecoo distributor or authorized service center.

Please retain your proof of purchase for warranty purposes.
