SETUP INSTRUCTIONS

Your WLIVE dresser is designed for easy assembly. Please follow the included step-by-step instructions provided in the packaging. All necessary tools are supplied. It is recommended to assemble the dresser on a soft, clean surface to prevent scratches.

Key Assembly Steps:

1. Unpack all components and verify against the parts list in your physical manual.
2. Assemble the steel frame according to the diagrams. Ensure all connections are secure.
3. Attach the water-resistant wood top to the assembled frame.
4. Insert the fabric drawers into their respective slots. Ensure they slide smoothly.
5. Install the arch handles onto each fabric drawer.
6. Adjust the four leveling feet at the bottom of the dresser to ensure stability on your floor.

7. **Install the Anti-Tipping Device:** For safety, it is crucial to secure the dresser to a wall using the provided anti-tipping accessories. This prevents accidental tip-overs.

OPERATING INSTRUCTIONS

The WLIVE 6-Drawer Double Dresser is designed for straightforward use. Simply pull the arch handles to open the fabric drawers and push to close them. The drawers are lightweight and easy to operate.

Maximizing Storage:

Utilize the full depth and width of each drawer for optimal storage. While the fabric drawers are sturdy, avoid overloading them beyond their 10 lbs capacity to maintain their shape and functionality. The top surface can hold up to 35 lbs, suitable for lamps, books, or decorative items.

MAINTENANCE AND CARE

Proper care will extend the life and appearance of your WLIVE dresser.

- **Cleaning:** Wipe the wood top and steel frame with a dry cloth. For the fabric drawers, spot clean with a damp cloth and mild detergent if necessary, then air dry completely. Avoid harsh chemicals or abrasive cleaners.
- **Dusting:** Regularly dust all surfaces to prevent buildup.
- **Spills:** Immediately wipe any spills on the wood top to prevent staining or damage.
- **Drawer Care:** Ensure drawers are not overstuffed to maintain their shape and ease of movement.
- **Stability Check:** Periodically check the adjustable feet and anti-tipping device to ensure they are secure and the dresser remains stable.

TROUBLESHOOTING

If you encounter any issues with your dresser, refer to the following common solutions:

Problem	Possible Cause	Solution
Dresser is wobbly or unstable.	Uneven floor or feet not properly adjusted.	Adjust the four leveling feet at the bottom of the dresser until it is stable. Ensure the anti-tipping device is securely installed.
Drawers do not slide smoothly.	Drawer is overloaded or not inserted correctly.	Remove some items from the drawer if it's overloaded. Ensure the drawer is fully and correctly seated in its slot within the frame.
Handles are loose.	Screws may have loosened over time.	Tighten the screws on the arch handles using a Phillips head screwdriver.

Safety Information

Your safety is paramount. Please adhere to the following safety guidelines:

- **Anti-Tipping Device:** Always install and properly use the provided anti-tipping device to secure the dresser to a wall. This is critical to prevent serious injury from tip-overs, especially for children.
- **Weight Limits:** Do not exceed the maximum weight capacity for each drawer (10 lbs) or the top surface (35 lbs). Overloading can compromise stability and structural integrity.
- **No Climbing:** Do not allow children to climb on the dresser or hang from the drawers.
- **TV Placement:** **DO NOT place a television or other heavy electronic devices on top of this dresser.** This dresser is not designed to support the weight or stability requirements of a television and doing so may result in injury or damage.
- **Relocation:** When moving the dresser, empty all drawers first to reduce weight and prevent damage. Lift the unit rather than dragging it.
