## SETUP

### 1. Charging the Batteries

The Stealth Pro headset uses a swappable dual battery system. Insert one battery pack into the charging station and the other into the headset. Connect the charging station to a USB power source using the provided USB-C cable. A quick 15-minute charge provides approximately three hours of battery life.

## OPERATING INSTRUCTIONS

### Power On/Off

Press and hold the Power button on the headset for a few seconds to turn it on or off.

### Audio Controls

- **Volume Wheel:** Adjusts overall headset volume. This wheel can be remapped via the Audio Hub app.
- **Game/Chat Mix:** Balance game audio and chat volume (functionality may vary by platform).

### Microphone Usage

- **TruSpeak Boom Microphone:** Attach the removable boom mic for clear communication. Swing the mic down to activate, swing up to mute.
- **Concealed Microphones:** For a more discrete look or on-the-go use, the headset features two built-in S.M.A.R.T. noise-cancelling microphones.

## Turtle Beach Audio Hub App

Download the Turtle Beach Audio Hub app for iOS/Android or Audio Hub V2 for Windows PCs/Mac to customize your audio experience. This app allows you to:

- Adjust 10-band EQ settings for game audio, Bluetooth audio, and microphone.
- Set noise cancellation levels.
- Program the mappable wheel and mode button for distinct functions.
- Adjust microphone sensitivity, noise gate, and monitoring levels.
- Enable and adjust Advanced Superhuman Hearing.

- **Remappable Wheel & Mode Button:** Customize controls for ANC levels, game/chat mix, mic monitoring, Superhuman Hearing volume, Bluetooth volume, EQ presets, and more via the Audio Hub app.
- **Lag-Free Wireless Connection:** Proprietary 2.4GHz wireless technology provides a reliable, low-latency connection up to 50ft / 15m.
- **Superior Comfort:** Plush leatherette material wrapped around ultra-soft memory foam cushions with patented ProSpecs glasses-friendly technology ensures all-day comfort and enhanced noise isolation.
- **Durable Design:** Features a steel-reinforced headband and frame for long-lasting use.
- **Advanced Superhuman Hearing:** Provides a battlefield advantage by enhancing critical in-game sounds, with adjustable intensity via the Audio Hub app.
- **Variable Mic Monitoring:** Hear and adjust your own voice through the headset to avoid shouting.
- **Travel-Friendly Design:** Lay-flat design, removable mic, and included velvet carrying pouch for easy transport and storage.

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the headset and transmitter. Avoid abrasive cleaners or solvents.
- **Storage:** Store the headset in the included carrying pouch when not in use to protect it from dust and damage.
- **Battery Care:** To prolong battery life, avoid fully discharging the batteries frequently. Store in a cool, dry place.

## TROUBLESHOOTING

- **No Audio / Microphone Not Working:**

- Ensure the headset is powered on and fully charged.
- Verify the transmitter is securely connected to your device.
- Check your system's sound settings to confirm the Stealth Pro is selected as the default input/output device.
- For the boom mic, ensure it is fully inserted and swung down to activate.
- Restart your console/PC and the headset.

- **Connection Issues:**

- Ensure the headset and transmitter are within range (up to 50ft / 15m).
- Avoid obstructions or other wireless devices that may cause interference.
- For Bluetooth, ensure the headset is in pairing mode and visible to your mobile device.

- **Firmware Updates:** Regularly check for firmware updates via the Turtle Beach Audio Hub app to ensure optimal performance and access to the latest features.
