color, ensuring a vivid visual experience.

## MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your Enclave Eclipse system, follow these simple maintenance guidelines:

- Keep the soundbar and subwoofer clean by wiping them with a soft, dry cloth. Avoid using liquid cleaners or abrasive materials.
- Avoid exposing the units to excessive moisture, heat, or direct sunlight, which can damage internal components.
- Ensure proper ventilation around the units to prevent overheating, especially during extended use.

## TROUBLESHOOTING

If you encounter any issues with your Enclave Eclipse system, refer to the following common troubleshooting steps. For more detailed solutions, consult the full user manual.

- **No Power:** Check if the power cables are securely connected to both the soundbar, subwoofer, and a working power outlet.
- **No Sound:** Verify that the correct input source is selected on the soundbar. Ensure the volume is not muted or set too low. Check all audio cables for secure connections.
- **Subwoofer Not Connecting:** The subwoofer should pair automatically. If not, ensure both units are powered on and within range. Refer to the full user manual for manual pairing instructions if needed.
- **Distorted Audio:** Check the audio source quality. Try adjusting EQ settings or reducing the volume. Ensure cables are not damaged.
