5. TROUBLESHOOTING

If you encounter issues with your device, consider the following basic troubleshooting steps:

- **Restart Device:** A simple restart can resolve many minor software glitches.
- **Check Connections:** Ensure Wi-Fi, Bluetooth, and cellular data are enabled and connected correctly.
- **Software Updates:** Verify that your device is running the latest software version. Updates often include bug fixes and performance improvements.
- **Clear Cache:** Clearing the cache of problematic apps or the system cache partition can resolve performance issues.
- **Battery Drain:** Check battery usage in settings to identify apps consuming excessive power. Adjust screen brightness and disable unnecessary features.
- **Charging Issues:** Ensure you are using a compatible charger and cable. Check the charging port for debris.
- **Performance Lag:** Close background applications, free up storage space, or consider a factory reset as a last resort (back up data first).
