Logitech 960-001589

Logitech Brio 101 Full HD 1080p Webcam

MODEL: 960-001589

Brand: Logitech

INTRODUCTION

The Logitech Brio 101 is a Full HD 1080p webcam designed for clear and bright video calls, streaming, and general desktop use. It features RightLight technology for automatic brightness adjustment, an integrated privacy shutter, and a built-in microphone, making it a versatile and user-friendly solution for various communication needs. Compatible with popular video conferencing platforms, the Brio 101 offers reliable performance and a stylish design.

KEY FEATURES

- **Full HD 1080p Resolution:** Provides clear image quality for video calls and streaming.

- **RightLight Auto-Light Balance:** Boosts brightness by up to 50% and reduces shadows, ensuring you look your best in various lighting conditions.

- **Integrated Privacy Shutter:** Offers peace of mind by allowing you to physically cover the lens when not in use.

- **Built-In Microphone:** Ensures clear audio capture during video calls without the need for an external mic.

- **Easy Plug-And-Play:** Works seamlessly with most video conferencing platforms like Microsoft Teams, Zoom, and Google Meet via USB-A.

- **Sustainable Design:** Made with a minimum of 34% post-consumer recycled plastic.

Figure 1: The Logitech Brio 101 webcam provides Full HD 1080p resolution for clear video calls.

Figure 2: RightLight technology automatically adjusts brightness for optimal appearance.

Figure 3: The integrated privacy shutter offers physical security when the webcam is not in use.

BUILT-IN MIC

Figure 4: The webcam features a built-in microphone for clear audio communication.

Figure 5: The Brio 101 is compatible with most popular video conferencing platforms.

Figure 6: The webcam is designed with sustainability in mind, using recycled materials.

SETUP

The Logitech Brio 101 is designed for quick and easy setup. Simply follow these steps:

1. **Connect the Webcam:** Plug the USB-A cable from the webcam into an available USB-A port on your computer (desktop or laptop).

2. **Placement:** Securely attach the webcam to the top of your monitor or laptop screen using its integrated clip. Ensure it is stable and positioned to capture your desired view.

3. **Automatic Recognition:** Your computer should automatically recognize the webcam. No additional drivers are typically required for basic functionality.

4. **Select in Application:** Open your preferred video conferencing application (e.g., Microsoft Teams, Zoom, Google Meet). In the application's settings, select 'Logitech Brio 101' as your camera and microphone input device.

OPERATING INSTRUCTIONS

- **Video Calls:** Once connected and selected in your application, the webcam will automatically provide video. Ensure adequate lighting for the best image quality.

- **RightLight Technology:** The webcam's RightLight feature automatically adjusts brightness and reduces shadows. For optimal performance, try to avoid strong backlighting directly behind you.

- **Privacy Shutter:** To ensure privacy when the webcam is not in use, simply slide the integrated cover over the lens. Slide it back to open the lens when you are ready to use the camera.

- **Built-in Microphone:** The integrated microphone is designed to capture your voice clearly. For best audio, ensure the webcam is positioned relatively close to you and minimize background noise.

- **Field of View:** The Brio 101 has a 58-degree field of view, which provides a focused perspective on the user. This is ideal for individual video calls where you want to minimize background distractions.

MAINTENANCE

To ensure the longevity and optimal performance of your Logitech Brio 101 webcam, follow these simple maintenance guidelines:

- **Cleaning the Lens:** Gently wipe the webcam lens with a soft, lint-free cloth. Avoid using abrasive materials or harsh cleaning chemicals, as these can scratch or damage the lens.

- **Cleaning the Body:** Use a soft, damp cloth to clean the body of the webcam. Do not submerge the webcam in water or any other liquid.

- **Privacy Shutter Care:** Ensure the privacy shutter slides smoothly. Avoid forcing it or applying excessive pressure, which could damage the mechanism.

- **Cable Care:** Avoid bending or crimping the USB cable excessively. Store the cable neatly when not in use to prevent damage.

- **Storage:** When not in use for extended periods, store the webcam in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Problem	Possible Solution
Low Microphone Volume / Unclear Audio	Ensure the Logitech Brio 101 is selected as the primary microphone in your computer's sound settings and within your video conferencing application. Check microphone levels in your system settings and increase if necessary. Minimize background noise.
Image Appears Too Pink / Incorrect Colors	Adjust your room's lighting to be more neutral. Avoid strong colored lights. If your application allows, check for color balance or white balance settings and adjust them.

Problem	Possible Solution
Webcam Appears Too Zoomed In	The Logitech Brio 101 has a fixed 58-degree field of view. This is not adjustable. To appear less 'zoomed in', position yourself further away from the webcam.
Webcam Not Recognized / No Video	Ensure the USB-A cable is securely plugged into a working USB port. Try a different USB port. Restart your computer. Check your operating system's privacy settings to ensure camera access is allowed for your applications.
Webcam Mount Feels Unstable	Ensure the webcam's integrated clip is fully extended and securely gripping the top edge of your monitor. For increased stability, consider placing the webcam on a flat surface or using a compatible tripod (not included).

SPECIFICATIONS

Feature	Detail
Product Dimensions	1.26 x 2.87 x 2.62 inches
Item Weight	4.9 ounces
Item Model Number	960-001589
Video Capture Resolution	1080p
Photo Sensor Technology	Fluid crystal
Maximum Focal Length	4 Millimeters
Maximum Aperture	2 f
Video Capture Format	H.264
Supported Audio Format	Mono
Connectivity Technology	USB-A
Color	Black
Manufacturer	Logitech
Country of Origin	Vietnam
