4. Setup and Installation

The installation size of this single DIN car radio is 178mm (L) x 50mm (H) x 68mm (W). Please compare these dimensions with your car's center console opening before beginning installation. Professional installation is recommended.

4.1 Wiring Connections

Refer to the wiring diagram provided in Figure 2.1 for detailed connection instructions. Ensure all connections are secure and properly insulated to prevent short circuits.

- **ISO Power Cable Interface:** Connect the main power harness.
- **Fuse (10A):** Ensure the fuse is correctly installed.
- **Microphone:** Connect the external microphone for clear hands-free calls.
- **Left Audio Output:** For connecting to external amplifiers or speakers.
- **Video Output 1 & 2:** For connecting to external monitors.
- **Rear View Camera Input:** Connect the included backup camera.
- **Right Audio Output:** For connecting to external amplifiers or speakers.
- **Video Input:** For connecting external video sources.

- **Radio Antenna:** Connect your car's FM/AM antenna.

5. Operating Instructions

5.1 Apple CarPlay & Android Auto

Connect your smartphone to the car stereo via a USB data cable. The system will automatically detect and launch Apple CarPlay or Android Auto. This allows you to access navigation, make calls, send messages, and listen to music directly from the stereo's touchscreen while keeping your focus on the road.

Your browser does not support the video tag.

Video 5.1: Demonstration of Apple CarPlay, Android Auto, and Mirror Link connection steps.

5.2 Bluetooth Function

The built-in Bluetooth allows for hands-free calling and wireless music streaming. Pair your phone with the stereo through the Bluetooth settings menu. Once paired, you can dial numbers, answer calls, and play audio from your device directly through the car's speakers. The external microphone ensures clear voice transmission during calls.

5.3 FM/AM Radio

Access the FM/AM radio function to listen to your favorite stations. The stereo provides 18 preset stations (FM 87.50-108.0 MHz). Use the touchscreen to scan for stations, save presets, and switch between FM and AM bands.

5.4 Mirror Link

The Mirror Link feature allows you to display your smartphone's screen content directly on the car stereo. Connect your phone via USB. This is useful for viewing navigation apps, videos, or photos from your phone on the larger stereo display. For Android phones, ensure USB debugging is enabled.

5.5 EQ Function

Customize your audio experience using the Equalizer (EQ) function. Select from various preset sound styles (e.g., Jazz, Pop, Classical) or adjust individual frequency bands to achieve your preferred sound quality.

5.6 Steering Wheel Control (SWC)

If your vehicle supports steering wheel controls, you can configure them to operate the car stereo. This allows you to conveniently switch songs, adjust volume, and answer calls without taking your hands off the steering wheel, enhancing driving safety.

5.7 Backup Camera

The included AHD backup camera automatically displays the rear view on the stereo screen when the vehicle is put into reverse. This feature provides a clear view of obstacles behind your car, making parking and reversing safer and easier.

6. Specifications

Feature	Specification

7. Troubleshooting

- If you encounter any issues with your SIXWIN car stereo, please refer to the following common troubleshooting tips:
- **No Power:** Check the power cable connections and the 10A fuse. Ensure your car's ignition is on.
 - **No Sound:** Verify speaker connections. Check volume levels and EQ settings. Ensure the correct audio source is selected.
 - **CarPlay/Android Auto Not Connecting:** Ensure your USB cable is functional and properly connected. For Android Auto, confirm USB debugging is enabled on your phone. For iOS, ensure you trust the device when prompted.
 - **Poor Radio Reception:** Check the antenna connection. Ensure the antenna is fully extended if applicable.
 - **Backup Camera Not Displaying:** Verify the camera's power and video input connections. Ensure the reverse gear signal wire is correctly connected.
 - **Touchscreen Unresponsive:** Try restarting the unit. If the issue persists, contact customer support.

8. Warranty and Support

SIXWIN provides customer support for this product. If you encounter difficulties during installation or use that are not resolved by the troubleshooting section, please contact us directly. We aim to reply within 24 hours and provide a satisfactory solution.
