SEMKY SQ952

SEMKY Turtle Building Blocks Set with LED Lights Instruction Manual

Model: SQ952

Introduction

This manual provides comprehensive instructions for assembling, operating, and maintaining your SEMKY Turtle Building Blocks Set with LED Lights. This creative sea animal model consists of 753 pieces and features an integrated LED lighting system to enhance its display. Please read this manual thoroughly before beginning assembly to ensure a smooth and enjoyable building experience.

Safety Information

- **Small Parts Warning:** This set contains small parts and is not suitable for children under 3 years of age due to choking hazards.
- **Recommended Age:** This product is recommended for ages 8 years and up. Adult supervision is advised for younger builders.
- **Electrical Components:** The LED lighting system contains small electrical components. Do not attempt to modify or disassemble the LED unit. Keep away from water.
- **Battery Safety:** If the LED system requires batteries (not explicitly stated but implied by "Light Up" feature), ensure they are inserted correctly and dispose of used batteries responsibly. Do not mix old and new batteries.
- **Handling:** Handle all building blocks and components with care to prevent damage.

Package Contents

Please verify that all components are present before starting assembly:

- 753 Building Blocks (sorted into numbered bags)
- LED Lighting Kit
- Instruction Guide

If any pieces are missing, please refer to the "Warranty and Support" section for assistance.

Setup Instructions

1. **Unpack Components:** Carefully open the packaging and lay out the numbered bags of building blocks and the instruction

guide. It is recommended to keep the blocks in their numbered bags until needed for each step to prevent loss and confusion.

2. **Follow Instruction Guide:** Refer to the included Instruction Guide for step-by-step assembly of the turtle and aquarium model. The guide provides detailed diagrams for each stage of construction.
3. **Integrate LED Lights:** The LED lighting kit is designed to be integrated during the building process. Follow the specific instructions within the main guide for placing the LED components. Ensure all wires are routed neatly and securely to avoid damage during assembly.
4. **Final Assembly Check:** Once all blocks are assembled according to the guide, double-check all connections to ensure stability and proper placement of the LED components.

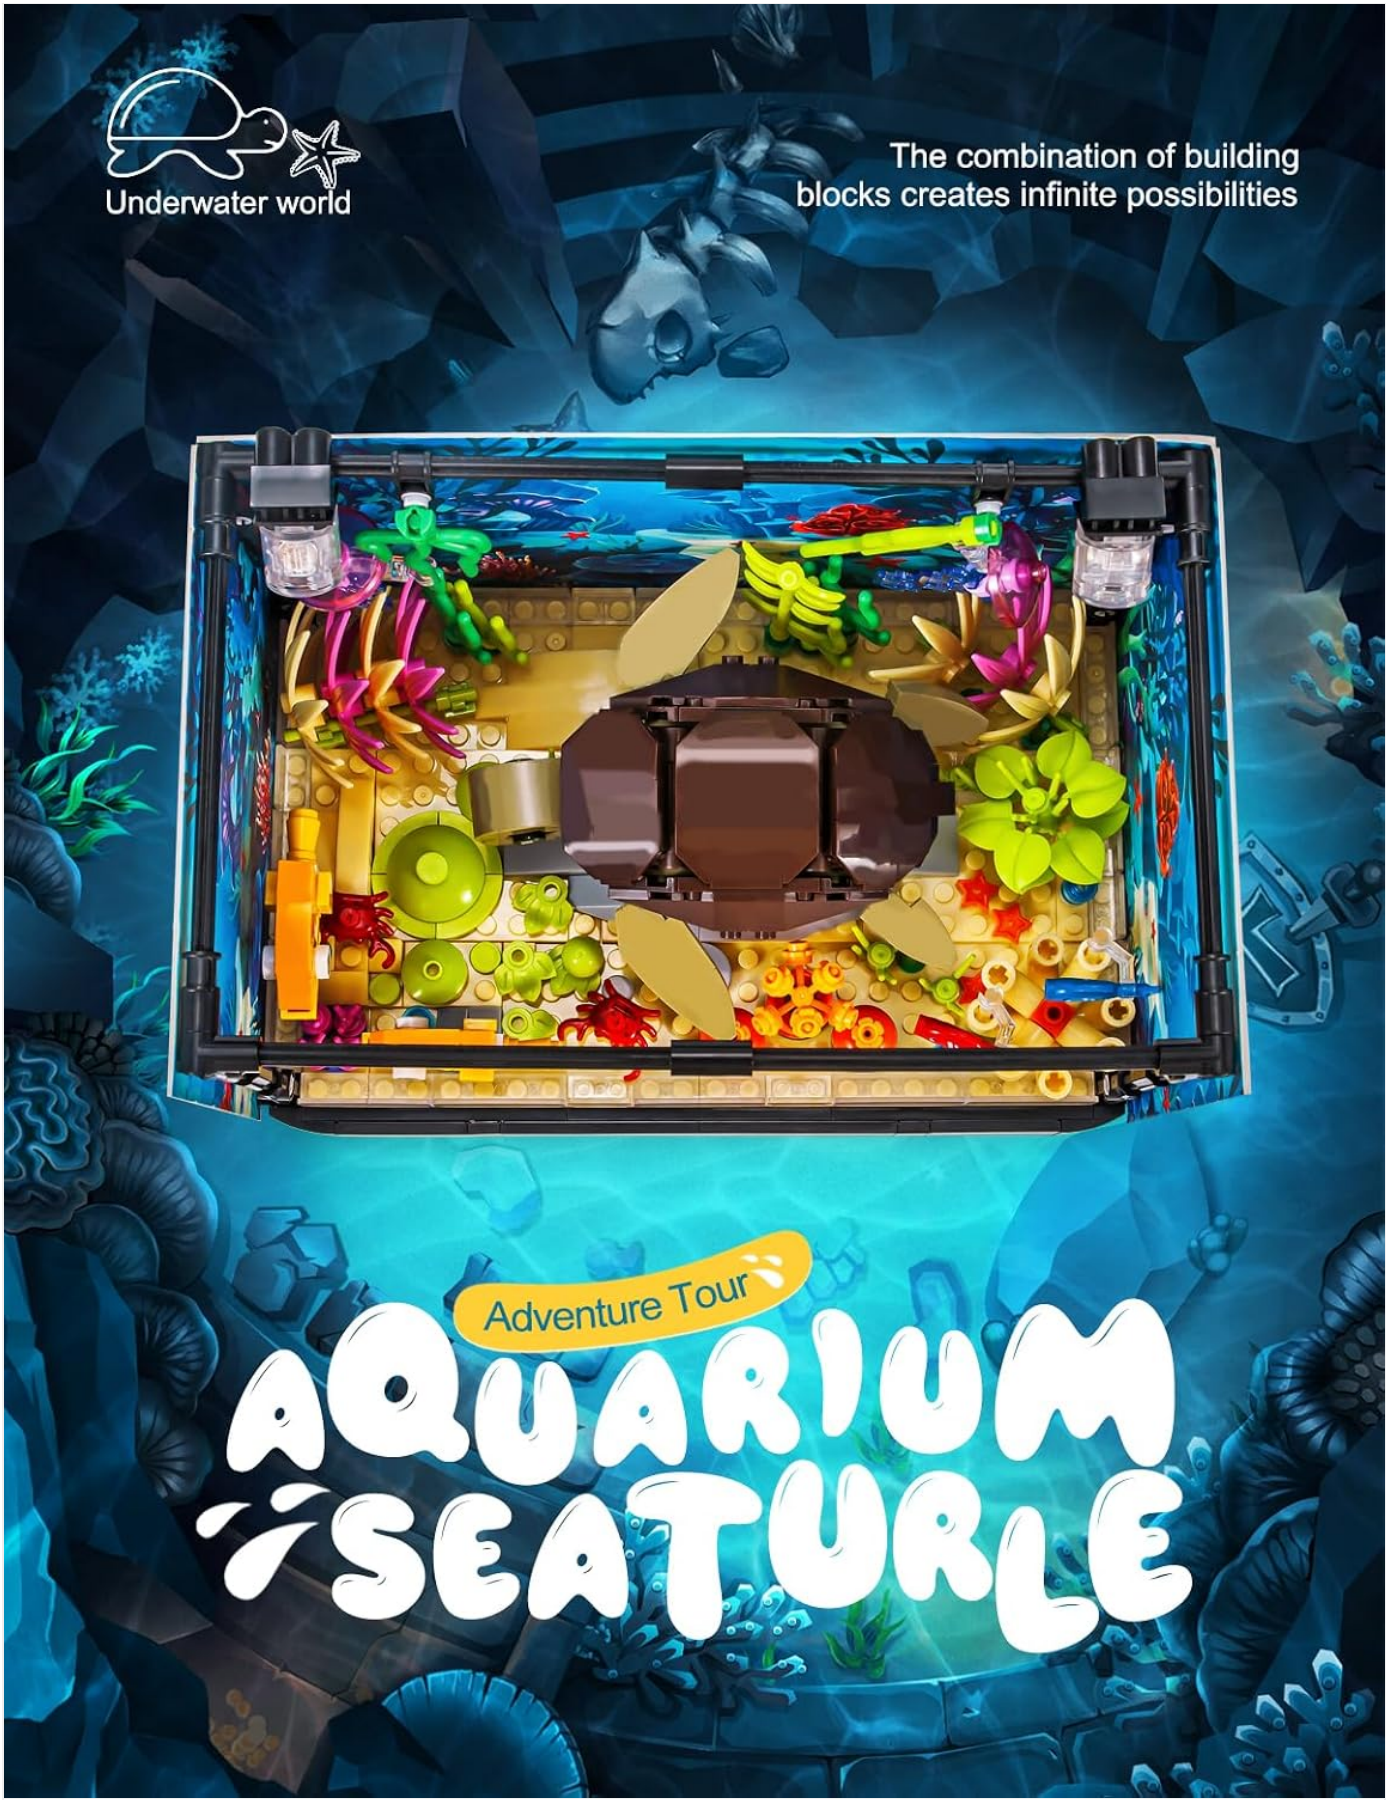

Figure 2: Overhead view of the assembled set, illustrating the layout of the internal components and decorative elements.

Operating Instructions

- **Activating LED Lights:** The LED lights are activated by a rotational mechanism. Locate the designated rotating part (often a knob or a specific block) on the model. Rotate this component to turn the lights on or off.

- **Manipulating the Turtle:** The turtle model within the aquarium can be manipulated. Locate the mechanism designed for this purpose (often a turning knob or lever) and operate it to adjust the turtle's position or movement.

Figure 3: Illustration demonstrating the rotational mechanism used to activate the LED lights within the model.

Figure 4: Visual guide on how to manipulate the turtle figure within the assembled building block set.

Maintenance

- **Cleaning:** To clean the building blocks, gently wipe them with a dry, soft cloth. For stubborn dust, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive materials.
- **Storage:** Store the assembled model in a cool, dry place away from direct sunlight to prevent discoloration or material degradation.
- **Disassembly:** If disassembling the model, do so carefully to avoid damaging the blocks or the integrated LED wiring. Keep all pieces organized for potential reassembly.

Troubleshooting

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Missing pieces	Packaging error or accidental loss during unpacking/assembly.	Carefully check all packaging materials. If pieces are genuinely missing, contact customer support as detailed in the "Warranty and Support" section.
LED lights not working	Incorrect battery installation (if applicable), loose connection, or faulty LED unit.	Ensure batteries are correctly inserted with proper polarity (if applicable). Check all LED wire connections for secure fit. Verify the rotational activation mechanism is fully engaged. If issues persist, contact customer support.
Blocks do not fit together	Incorrect block orientation, deformed piece, or attempting to connect incompatible blocks.	Review the instruction guide to ensure correct block orientation. Some pieces may require firm but gentle pressure. If a piece appears deformed, contact customer support for a replacement.

Specifications

Feature	Detail
Brand	SEMKY
Model Name	Building blocks (SQ952)
Number of Pieces	753
Material	Plastic
Color	Turtle (Multi-color for marine environment)
Item Dimensions (L x W x H)	9.4 x 5 x 6 inches (23.6 x 12.7 x 15.2 cm)
Item Weight	1.52 pounds (0.69 Kilograms)
Special Feature	Light Up (Integrated LED system)
Recommended Age	8 years and up
