ASHATA 753 2.4G Portable Mouse User Manual

Model: ASHATAexhz3ko6ma-14

1. PRODUCT OVERVIEW

The ASHATA 753 2.4G Portable Mouse is a compact, ultra-thin, and silent optical mouse designed for use with PCs, desktops, and laptops. It features adjustable DPI settings for precise cursor control and utilizes 2.4G frequency hopping technology for stable wireless connectivity.

Top-down view of the ASHATA 753 Portable Mouse, showcasing its sleek black design with a subtle green accent on the side. The scroll wheel and DPI button are visible.

The ASHATA 753 Portable Mouse positioned on a dark desk, alongside a smartphone and a pair of glasses, illustrating its compact size in a typical workspace setting.

Key Features:

- **2.4G Frequency Hopping Technology:** Provides strong anti-interference capabilities for reliable wireless connection.
- **Adjustable DPI:** Three levels of adjustable resolution, up to 1600 DPI, for precise cursor positioning.
- **Silent Micro-motion Design:** Left and right buttons are designed for quiet operation, reducing noise in quiet environments.
- **Ergonomic Shape:** Designed for comfortable grip during extended use.
- **Plug and Play:** Easy to set up and use without requiring additional driver installation.
- **Built-in Memory:** High-return chips and built-in memory ensure faster data connection without code matching.

2. PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x ASHATA 753 Portable Mouse
- 1 x USB Receiver

3. SETUP GUIDE

Follow these steps to set up your ASHATA 753 Portable Mouse:

3.1. Installing Batteries

1. Locate the battery compartment on the underside of the mouse.
2. Slide the battery cover open in the direction indicated by the "OPEN" arrow.
3. Insert two AAA batteries (not included) into the compartment, ensuring correct polarity (+/-).
4. Close the battery cover securely.

The underside of the ASHATA 753 Portable Mouse, displaying the battery compartment cover with the "OPEN" indicator and the power switch.

3.2. Connecting the USB Receiver

1. Remove the USB receiver from its storage slot, typically located inside the battery compartment or near it.
2. Plug the USB receiver into an available USB port on your computer (PC, desktop, or laptop).
3. The computer should automatically detect and install the necessary drivers. This is a plug-and-play device, so no manual driver installation is required.

3.3. Powering On the Mouse

1. Locate the ON/OFF switch on the underside of the mouse.
2. Slide the switch to the "ON" position.
3. The mouse is now ready for use.

4. OPERATING INSTRUCTIONS

4.1. Basic Functions

- **Left Click:** Primary action, selection, opening items.
- **Right Click:** Opens context menus.
- **Scroll Wheel:** Scrolls content up or down.
- **Middle Click (Scroll Wheel Press):** Opens links in new tabs or enables auto-scrolling in some applications.

4.2. Adjusting DPI Sensitivity

The ASHATA 753 mouse features an adjustable DPI button to change cursor sensitivity. This allows you to switch between different speeds for various tasks, such as precise editing or fast browsing.

1. Locate the DPI button, typically positioned behind the scroll wheel.
2. Press the DPI button to cycle through the available DPI settings (e.g., 800, 1200, 1600 DPI).
3. Observe the cursor speed on your screen to select the desired sensitivity.

5. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your mouse.

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the mouse. For stubborn dirt, slightly dampen the cloth with

water or a mild cleaning solution. Avoid harsh chemicals or abrasive materials.

- **Sensor Cleaning:** Occasionally, gently clean the optical sensor on the underside of the mouse with a cotton swab to ensure accurate tracking.
- **Battery Replacement:** Replace batteries when the mouse performance degrades or it stops responding. Always use fresh AAA batteries.
- **Storage:** When not in use for extended periods, turn off the mouse to conserve battery life. Store the USB receiver inside the mouse's designated slot to prevent loss.

6. TROUBLESHOOTING

If you encounter issues with your ASHATA 753 Portable Mouse, refer to the following common solutions:

Problem	Possible Cause	Solution
Mouse not responding	Batteries are low or dead.	Replace batteries.
	Mouse is turned off.	Turn on the mouse using the ON/OFF switch.
	USB receiver is not properly connected.	Ensure USB receiver is firmly plugged into a working USB port. Try a different USB port.
	Interference from other wireless devices.	Move the mouse closer to the receiver or away from other wireless devices.
Cursor movement is erratic or jumpy	Dirty optical sensor.	Clean the optical sensor on the underside of the mouse.
	Mouse used on an unsuitable surface.	Use the mouse on a clean, non-reflective, opaque surface or a mouse pad.
DPI button not changing sensitivity	Software conflict or temporary glitch.	Restart your computer.
		Ensure the mouse is properly connected and powered on.

7. SPECIFICATIONS
