

DREAMIZER 4PCS 4.5" -Wide Body Kit

DREAMIZER 4PCS 4.5" Universal Car Fender Flares Instruction Manual

Model: 4PCS 4.5" -Wide Body Kit

1. INTRODUCTION

This manual provides instructions for the installation and care of your DREAMIZER 4PCS 4.5" Universal Car Fender Flares. These fender flares are designed to enhance the appearance of your vehicle and provide additional wheel coverage. They are made from durable polypropylene material and are suitable for a wide range of cars, SUVs, and sedans.

2. PRODUCT FEATURES

- **Distinctive Look:** Provides a unique and powerful aesthetic to your vehicle.
- **Paintable Surface:** Can be painted or wrapped to match your vehicle's color.
- **Flexible & Wear-resistant:** Constructed from tough, abrasion-resistant polypropylene with an adjustable radian for a custom fit.
- **Universal Application:** Designed to fit most cars, SUVs, and sedans. Please verify dimensions before purchase.

PAINTABLE SURFACE

You can paint the color or stick the film on the surface of fender flare for matching with the vehicle's color.

The fender flares feature a paintable surface, allowing for customization to match your vehicle's color scheme.

Item Weight	6.09 pounds
Package Dimensions	32.5 x 20.25 x 4.5 inches
Fit Type	Universal Fit

PRODUCT DIMENSION

Detailed product dimensions for accurate fitment assessment.

5. INSTALLATION GUIDE

Important: Installation of these fender flares requires drilling holes into the vehicle's wheel frames. Professional installation is highly recommended to ensure proper fitment and avoid damage to your vehicle.

1. Preparation:

- Clean the area around the wheel arches thoroughly.
- Test fit each fender flare to its intended position on the vehicle. Ensure the curve and size are appropriate for your wheel well.
- Mark the drilling points on the vehicle's wheel frame using the pre-drilled holes on the fender

flares as a guide.

2. Drilling:

- Carefully drill pilot holes at the marked positions on the vehicle's wheel frame. Use appropriate drill bits for your vehicle's material.
- Ensure all burrs are removed after drilling.

3. Attachment:

- Align the fender flare with the drilled holes.
- Secure the fender flare using the provided mounting hardware (screws, rivets, or clips, depending on the kit). Do not overtighten.
- Repeat for all four fender flares.

4. Final Check:

- Verify that all flares are securely attached and do not interfere with wheel movement or steering.
- Check for any gaps or misalignments.

WIDE BODY WHEEL COMPARISON

Matching: ★★★★★☆

Old Style

The old wheel eyebrows are poorly matched to the original car and more complicated and difficult to install.

Matching: ★★★★★★

Upgrade Style

The new wheel eyebrows are suitable for most models, with high matching with the original car, simple and convenient.

Visual comparison of a vehicle with and without the upgraded fender flares, highlighting the improved fit and appearance.

6. OPERATING CONSIDERATIONS

Once installed, the fender flares require no special operation. They are designed to be a permanent aesthetic and functional addition to your vehicle, providing increased wheel coverage and a wider stance appearance.

7. MAINTENANCE

- **Cleaning:** Clean the fender flares regularly with standard car wash soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the polypropylene material or any custom paint/wrap.
- **Inspection:** Periodically check the mounting hardware for tightness. Vibrations from driving can sometimes loosen fasteners.
- **Damage:** In case of damage, the polypropylene material can often be repaired or repainted. Consult a professional for significant damage.

8. TROUBLESHOOTING

- **Flares do not fit correctly:**
 - Ensure you have the correct size for your vehicle. Measure your wheel wells and compare with the product dimensions provided in Section 4.
 - Universal fit products may require minor adjustments or professional installation for optimal alignment.
- **Flares feel loose after installation:**
 - Re-check all mounting hardware to ensure they are securely fastened.
 - If using self-tapping screws, ensure they have properly engaged the vehicle's frame.

- **Paint/Wrap peeling:**

- Ensure proper surface preparation (cleaning, sanding, priming) was done before painting or wrapping.
- Use high-quality automotive paints or wraps designed for flexible plastic surfaces.
