Setup and Assembly

Assembly of the SEMKY Micro Mini Blocks Husky Model requires patience and attention to detail due to the small size of

the blocks. Follow the included instruction manual step-by-step for best results.

Before You Begin:

1. **Unpack Components:** Carefully open the package and lay out all bags of blocks. Do not open all bags at once unless instructed, as blocks are often sorted by assembly stage.
2. **Review Instructions:** Familiarize yourself with the instruction manual. Pay attention to the color coding and block shapes depicted.
3. **Prepare Workspace:** Choose a clean, well-lit, and flat surface for assembly. A tray or mat can help contain small parts.

Assembly Steps:

1. **Follow Numbered Steps:** The instruction manual provides detailed, numbered steps. Each step illustrates which blocks to use and where to place them.
2. **Identify Blocks:** Carefully identify the correct block shapes and colors for each step. Micro blocks are very small, so precision is key.
3. **Secure Connections:** Ensure each block is firmly pressed into place to create a stable structure.
4. **Patience is Key:** If a step seems difficult, re-examine the diagram and ensure you have the correct blocks and orientation. Do not force blocks.
5. **Section by Section:** The manual typically breaks down the model into smaller, manageable sections (e.g., head, body, legs). Complete each section before moving to the next.

Operating (Display and Interaction)

Once assembled, the SEMKY Micro Mini Blocks Husky Model is designed for display. While it is a sturdy construction, it is not intended for rough play.

Displaying Your Model:

- Place the model on a stable, flat surface where it will not be easily knocked over.
- Avoid direct sunlight to prevent potential fading of block colors over time.
- Keep away from high-traffic areas where it might be accidentally damaged.

Interaction:

- The model is primarily for static display. Gentle handling is recommended if you need to move it.
- Avoid applying excessive force or pressure to individual parts, as this may cause blocks to detach.

Maintenance

Maintaining your SEMKY Micro Mini Blocks Husky Model is simple and helps preserve its appearance.

Cleaning:

- **Dusting:** Use a soft, dry brush (like a clean paintbrush or makeup brush) or a can of compressed air to gently remove dust from the model's surface.
- **Spot Cleaning:** For stubborn marks, lightly dampen a soft cloth with water (no harsh chemicals) and gently wipe the affected area. Ensure no water seeps into crevices.
- **Avoid Submerging:** Do not submerge the model in water or use abrasive cleaners, as this can damage the plastic and color.

Storage:

- If disassembling for storage, keep all blocks in sealed bags or containers to prevent loss.
- Store in a cool, dry place away from extreme temperatures and direct sunlight.
