1. INTRODUCTION

Thank you for purchasing the COSTWAY Wall-Mounted Medicine Cabinet. This manual provides essential information for the safe assembly, installation, and proper use of your new cabinet. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

This cabinet is designed to provide organized storage with its two mirrored doors, an adjustable interior shelf, and an open lower compartment. Its wall-mounted design helps save space in various rooms such as bathrooms, laundry rooms, living rooms, or kitchens.

2. SAFETY INFORMATION

- Always follow assembly instructions carefully.
- Ensure all hardware is securely tightened before use.
- Do not overload the cabinet. The maximum weight capacity is 33 pounds (15 kg).
- Mount the cabinet to a sturdy wall structure using appropriate hardware for your wall type.
- Keep small parts and packaging materials away from children to prevent choking hazards.
- Use caution when handling glass components (mirrors) to avoid breakage or injury.
- Regularly inspect the cabinet for any loose parts or damage. Tighten or replace as necessary.

3. PARTS LIST

Before assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

4. SETUP & ASSEMBLY

Assembly is required for this product. It is recommended to have two people for easier and safer assembly. Please refer to the included instruction leaflet for detailed step-by-step diagrams.

4.1 Unpacking and Preparation

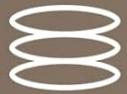

- Open the packaging carefully and remove all components.
- Lay out all parts on a clean, soft surface (e.g., a blanket or cardboard) to prevent scratches.
- Identify all parts against the parts list provided in the separate instruction leaflet.
- Gather necessary tools: Phillips head screwdriver, hammer, drill (for wall mounting).

4.2 Cabinet Assembly

Follow the numbered steps in the separate instruction leaflet to assemble the cabinet frame, attach the backboard, install the doors, and secure the knobs. Pay close attention to the orientation of each piece.

4.3 Wall Mounting

- Choose Location:** Select a suitable wall location, ensuring it is free from electrical wires or plumbing. Consider the cabinet's dimensions (22" W x 5" D x 23" H) and ensure adequate clearance for door opening.
- Marking:** Hold the assembled cabinet against the wall at the desired height. Use a pencil to mark the positions of the mounting holes on the backboard.
- Drilling:** Drill pilot holes at the marked locations. Use a drill bit appropriate for your wall type (e.g., smaller bit for wood studs, larger for drywall anchors).
- Install Anchors (if needed):** If mounting into drywall without studs, insert wall anchors into the pilot holes.
- Secure Cabinet:** Align the cabinet with the drilled holes/anchors and secure it to the wall using the provided mounting screws. Ensure the cabinet is level and firmly attached.

5. OPERATING INSTRUCTIONS

5.1 Using the Mirrored Doors

The cabinet features two doors with integrated mirrors. Gently pull the knobs to open the doors. The magnetic catches will hold the doors securely closed when not in use.

5.2 Adjusting the Interior Shelf

The interior shelf can be adjusted to three different positions to accommodate items of various heights. To adjust:

1. Empty the shelf of all contents.
2. Carefully lift the shelf and remove it from its current position.
3. Reinsert the shelf into the desired set of pre-drilled holes. Ensure it is level and securely seated.

5.3 Using the Open Compartment

The open lower compartment provides easy access storage for frequently used items or decorative pieces.

6. MAINTENANCE

6.1 Cleaning

- For the cabinet surfaces, wipe with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- For the mirrors, use a standard glass cleaner and a lint-free cloth.
- Ensure the cabinet is dry after cleaning to prevent water damage to the engineered wood.

6.2 General Care

- Periodically check all screws and connections to ensure they remain tight.
- Avoid placing excessively hot or cold items directly on the cabinet surface without protection.
- Do not expose the cabinet to excessive moisture or direct sunlight for prolonged periods.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Cabinet feels wobbly after installation.	Mounting screws are not fully tightened or not secured into a stud/proper anchor.	Ensure all mounting screws are tightened. If mounted into drywall, verify anchors are correctly installed and suitable for the weight. Consider relocating to a wall stud for maximum stability.

Problem	Possible Cause	Solution
Doors do not close properly or are misaligned.	Hinges are loose or cabinet frame is not square.	Check and tighten all hinge screws. Ensure the cabinet was assembled squarely. Minor adjustments can sometimes be made by slightly loosening and re-tightening hinge screws.
Adjustable shelf is not stable.	Shelf pins are not fully inserted or shelf is not seated correctly.	Ensure all four shelf pins are fully inserted into the pre-drilled holes and the shelf rests evenly on them.
