Jgstkcity JGS-01-BK

Jgstkcity Desk Clamp Power Strip USB C

MODEL: JGS-01-BK

Brand: Jgstkcity

Introduction

Thank you for choosing the Jgstkcity Desk Clamp Power Strip USB C. This versatile power solution is designed to enhance your workspace by providing convenient access to power outlets and fast-charging USB ports directly on your desk. With its robust clamping mechanism and comprehensive safety features, it ensures a tidy, efficient, and secure power supply for all your devices.

Safety Information

Your safety is paramount. Please read and understand all safety instructions before using this product.

- **ETL Listed:** This product is ETL certified, ensuring it meets recognized safety standards.
- **Surge Protection:** Equipped with 1200 Joules of surge protection to safeguard your electronics from power spikes.
- **Fireproof Material:** Constructed from fireproof plastic material for added safety.
- **Indoor Use Only:** This device is intended for indoor use in dry locations only.
- **Avoid Overloading:** Do not exceed the maximum electrical rating of 125V, 12A, 1500W.
- **Proper Grounding:** Ensure the power strip is plugged into a properly grounded 3-prong outlet.

Setup Instructions

Follow these steps to securely install your Jgstkcity Desk Clamp Power Strip:

1. **Unpack:** Carefully remove the power strip and its components from the packaging.
2. **Identify Mounting Location:** Choose a suitable edge on your desk or tabletop. The clamp is designed to fit desktops with a maximum thickness of 1.96 inches (approximately 5 cm). Ensure there is a distance of 0.4"-0.5" from the wall if mounting to the back edge.
3. **Attach Clamp:** Position the power strip on the desired edge. Use the adjustable screw clamp to secure the unit firmly to the desk. Turn the knob clockwise until the clamp is tight and the power strip is stable.

4. **Connect to Power:** Plug the 6-foot flat plug power cord into a standard 3-prong wall outlet. The flat plug design helps save space and allows furniture to be placed closer to the wall.

Operating Instructions

The Jgstkcity Desk Clamp Power Strip provides multiple charging options for your devices:

- **AC Outlets:** Utilize the 5 standard AC outlets for powering laptops, monitors, and other electronic devices. The outlets are widely spaced to accommodate larger power adapters without blocking adjacent ports.

- **USB-C Ports:** The power strip features 4 PD 20W USB-C ports. Each USB-C port can deliver up to 20W max, with a total combined output of 40W for all USB ports. These are ideal for fast-charging compatible smartphones, tablets, and other USB-C devices.
- **USB-A Ports:** Two QC3.0 USB-A ports are available, each providing up to 3A max output for charging a variety of USB-A compatible devices.

Maintenance

To ensure optimal performance and longevity of your power strip:

- **Cleaning:** Disconnect the power strip from the wall outlet before cleaning. Use a dry, soft cloth to wipe the surface. Do not use liquid cleaners or aerosol sprays.

- **Inspection:** Periodically inspect the power cord and the unit for any signs of damage, such as frayed wires or cracks. If damage is found, discontinue use immediately and contact customer support.
- **Ventilation:** Ensure the power strip is not covered or placed in an area with poor ventilation, as this can lead to overheating.

Troubleshooting

If you encounter any issues with your Jgstkcity Desk Clamp Power Strip, refer to the following common solutions:

- **No Power to Outlets/USB Ports:**
  - Check if the power strip is securely plugged into a working wall outlet.
  - Verify that the wall outlet itself is functional by plugging in another device.
  - Ensure the power strip's circuit breaker (if present) has not tripped. Reset if necessary.
- **USB Ports Turn Off Unexpectedly:**
  - Some devices or power strips may have power-saving features that temporarily cut power to USB ports when no active charging is detected or after a period of inactivity. Try unplugging and re-plugging the USB device to re-initiate charging.
  - Ensure the total power draw from all USB ports does not exceed the 40W total output limit.
- **Slow Charging from USB Ports:**
  - Confirm that your device and charging cable support fast charging protocols (PD for USB-C, QC3.0 for USB-A).
  - The 40W total output for USB-C ports is shared. If multiple high-power devices are connected, the charging speed for individual devices may be reduced.

Specifications

Feature	Detail
Brand	Jgstkcity
Model Number	JGS-01-BK
Color	Black
Total Power Outlets	5
Total USB Ports	6 (4 USB-C PD, 2 USB-A QC3.0)
USB-C Output	PD 20W Max per port (40W Total)
USB-A Output	QC3.0 3A Max per port
Voltage	125 Volts
Maximum Current	12 Amps
Surge Protection Rating	1200 Joules
Power Plug Type	Type B - 3 pin (North American)
Cord Length	6 Feet

Max Installation Thickness	1.96 inches
Enclosure Material	Acrylonitrile Butadiene Styrene
Certifications	ETL Listed

Warranty and Support

This Jgstkcity product comes with a**1-year manufacturer's warranty** from the date of purchase. This warranty covers defects in materials and workmanship under normal use.
