Step 3: Construct the Main Bed Frame

Connect the side rails to the assembled headboard and footboard. Install the central support beams and legs. Ensure all bolts are tightened to create a stable structure.

Step 4: Install Bed Slats

Place the metal bed slats onto the frame. These slats provide direct support for your mattress, eliminating the need for a box spring.

Step 5: Install USB Charging Ports

Locate the designated slot on the headboard for the USB charging port unit. Insert the unit and secure it with the provided screws. Route the power cable neatly.
