2. SAFETY INFORMATION

Please read and understand all safety instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- **Assembly Required:** This product requires assembly. Exercise caution during the assembly process to prevent injury.
- **Two-Person Assembly Recommended:** While possible for one person, assembly may be easier and safer with two people.
- **Weight Limit:** Do not exceed the maximum weight capacity of 136 kg (300 lbs).
- **Stable Surface:** Always use the chair on a flat, stable surface.
- **Children and Pets:** Keep children and pets away from the assembly area. Small parts can be a choking hazard.
- **Proper Use:** Do not stand on the chair or use it for purposes other than its intended use as a seating device.

3. SETUP AND ASSEMBLY

Assembly of the GTPLAYER GT002 Gaming Chair typically takes approximately 1 to 2 hours. Follow the steps carefully, referring to the included assembly manual and diagrams. Ensure all parts are present before beginning.

3.1 Package Contents

Verify that all components are included in the package. Refer to the parts list in your physical manual for a complete inventory.

3.2 Assembly Steps

1. **Base Assembly:** Attach the casters to the chair base. Insert the gas lift into the center hole of the base.
2. **Seat Assembly:** Attach the control mechanism to the underside of the seat cushion. Ensure all screws are tightened securely.
3. **Backrest Attachment:** Carefully align the backrest with the seat cushion and secure it using the provided bolts. It is recommended to have a second person assist with this step to prevent stripping bolts.
4. **Armrest Installation:** Attach the armrests to the seat.
5. **Ottoman Installation:** Install the retractable ottoman mechanism to the underside of the seat.
6. **Cushion Placement:** Place the headrest pillow and lumbar support cushion onto the chair.
7. **Final Check:** Once assembled, check all connections and ensure the chair is stable before use.

4. OPERATING INSTRUCTIONS

The GTPLAYER GT002 Gaming Chair offers several adjustable features to customize your seating experience.

4.1 Height Adjustment

To adjust the seat height, locate the lever on the right side beneath the seat. Pull the lever upwards while taking your weight off the seat to raise it. To lower the seat, pull the lever upwards while remaining seated.

4.2 Reclining Function

The chair can recline up to 165 degrees. Use the lever on the right side of the chair to adjust the backrest angle. Pull the lever up to unlock the recline, lean back to your desired angle, and then push the lever down to lock it in place.

4.3 Armrest Adjustment

The armrests are height-adjustable. Press the button on the side of each armrest and move it up or down to your preferred height. Release the button to lock it.

4.4 Ottoman Usage

To use the ottoman, pull it out from beneath the seat. Extend it to your desired length. To retract, push it back under the seat until it is fully stored.

5. MAINTENANCE

Proper maintenance will extend the life and appearance of your GTPLAYER GT002 Gaming Chair.

- **Cleaning:** For general cleaning, wipe the PU leather with a soft, damp cloth. Avoid harsh chemicals or abrasive

cleaners, as these can damage the material.

- **Spills:** Immediately blot any spills with a clean, dry cloth.
- **Fasteners:** Periodically check all screws and bolts to ensure they are tight. Re-tighten if necessary to maintain stability and prevent squeaking.
- **Casters:** Keep the casters free of hair and debris to ensure smooth movement.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause the PU leather to fade or crack.

6. TROUBLESHOOTING

If you encounter any issues with your GTPLAYER GT002 Gaming Chair, refer to the following common troubleshooting tips:

- **Chair Squeaks:** Check and tighten all assembly bolts. A small amount of silicone lubricant can be applied to moving parts if the squeaking persists.
- **Difficulty Adjusting Height:** Ensure the gas lift lever is fully engaged. If the chair does not raise or lower smoothly, the gas lift may need replacement.
- **Chair Wobbles:** Verify that all bolts are securely tightened, especially those connecting the seat to the backrest and the control mechanism to the base. Ensure the chair is on a level surface.
- **Casters Not Rolling Smoothly:** Check casters for trapped debris (hair, lint, etc.) and clean them.
- **Recline Not Holding Position:** Ensure the recline lever is fully pushed down to lock the backrest. If it still slips, the recline mechanism may require inspection.

For issues not covered here, please contact customer support.
