### 3. OPERATING INSTRUCTIONS

#### 3.1 Digital Thermometer with Flexible Tip

This thermometer provides accurate temperature measurements in approximately 30 seconds. It is suitable for oral, axillary (underarm), or rectal use.

1. Press the ON/OFF button to activate the thermometer.
2. Place the flexible tip in the desired measurement area (oral, axillary, or rectal).
3. Wait for approximately 30 seconds until the reading stabilizes and a beep sounds.
4. Read the temperature displayed on the screen.
5. Press the ON/OFF button again to turn off the thermometer, or it will automatically shut off after a period of inactivity.

### 3.2 Natural Wool Brush and Comb

These tools are designed for gentle grooming of your baby's hair and scalp.

- **Natural Wool Brush:** Features soft bristles ideal for delicate baby hair and stimulating the scalp.
- **Comb:** Designed with an ergonomic shape and rounded tips to prevent scratching the scalp. It is particularly useful for gently removing cradle cap after applying oil.

### 3.3 Baby Nail Scissors, Nail Clippers, and Nail Files

These tools are designed for safe and gentle nail care for infants.

- **Baby Nail Scissors:** Feature rounded tips for safety and are made from hypoallergenic, nickel-free material. Use with caution to trim nails straight across.
- **Baby Nail Clippers:** Made from hypoallergenic material. Ensure a firm grip and carefully trim nails to avoid cutting the skin.
- **Nail Files (4 pieces):** Use these cardboard files to gently smooth any sharp edges after trimming, preventing scratches.

### 3.4 Nasal Aspirator with Silicone Tip

This aspirator helps clear your baby's nasal passages gently and effectively.

1. Gently squeeze the bulb of the aspirator to expel air.
2. Carefully insert the soft silicone tip into one of your baby's nostrils.
3. Slowly release the bulb to create suction, drawing mucus into the aspirator.
4. Remove the aspirator and squeeze the bulb to expel the collected mucus into a tissue.
5. Repeat for the other nostril if necessary.

## 4. MAINTENANCE

Proper cleaning and maintenance will ensure the longevity and hygiene of your Nuvita Baby Care Beauty Set.

### General Cleaning Instructions:

- **Thermometer:** Wipe the tip with an alcohol swab or a soft cloth dampened with mild soap and water. Do not immerse the entire thermometer in water.
- **Brush and Comb:** Wash with mild soap and warm water. Rinse thoroughly and allow to air dry completely.
- **Nail Scissors, Clippers, and Files:** Clean with a damp cloth after each use. Ensure they are dry before storing to prevent rust (for metal parts). The cardboard files are disposable and should be replaced when worn.
- **Nasal Aspirator:** Disassemble the aspirator (if possible) and wash all parts with warm soapy water. Rinse thoroughly to remove all soap residue and allow to air dry completely before reassembling.
- **Travel Case:** Wipe the eco-leather exterior with a damp cloth. Do not machine wash.

Always store all components in the provided travel case in a clean, dry place when not in use.

## 5. TROUBLESHOOTING

This section addresses common issues you might encounter with the Nuvita 1147 Beauty Set.

| Problem | Possible Cause | Solution |
|---------|----------------|----------|
|         |                |          |

| Problem                                 | Possible Cause  | Solution  |
|---|---|---|
| Digital thermometer not turning on.     | Battery is low or depleted.                             | Replace the battery (refer to thermometer's specific instructions for battery type and replacement).                    |
| Inaccurate thermometer readings.        | Improper placement or insufficient measurement time.    | Ensure the tip is correctly placed and allow the full 30 seconds for measurement. Avoid movement during measurement.    |
| Nasal aspirator not creating suction.   | Tip not sealed against nostril or aspirator is clogged. | Ensure a tight seal around the nostril. Disassemble and clean the aspirator thoroughly as per maintenance instructions. |
| Brush bristles or comb teeth are dirty. | Accumulation of hair, skin flakes, or product residue.  | Clean the brush and comb with mild soap and water, then rinse and air dry.  |
