## SETUP AND ASSEMBLY

---

Follow these steps to assemble your Disney Platinum Marie 3D Crystal Puzzle. Patience and careful observation are key to a successful build.

1. **Unpack and Sort Pieces:** Carefully remove all pieces from the packaging. Lay them out on a clean, flat surface. It is often helpful to sort pieces by shape or by how they appear to connect.
2. **Identify Core Pieces:** Begin by identifying the central or base pieces that form the core structure of the figure. These are typically larger or have distinct connection points.
3. **Assemble Layer by Layer:** Most 3D crystal puzzles are built in layers. Connect pieces one by one, ensuring they interlock securely. Refer to the included diagram or online step-by-step solutions if you encounter difficulty.
4. **Secure Connections:** Some puzzles include a central rod or key piece to secure the entire structure. Insert this piece once the main body is complete, if applicable.
5. **Add Finishing Touches:** Attach any smaller, external pieces like ears, tails, or decorative elements last.

This video from University Games demonstrates the general process of assembling Original 3D Crystal Puzzles, showing how pieces fit together to form various figures.

## OPERATING (SOLVING THE PUZZLE)

The primary operation of this product is its assembly. The challenge lies in correctly identifying and interlocking the translucent pieces to form the complete figure. Each piece is uniquely shaped and designed to fit only in its correct position.

### Tips for Solving

- **Start with a Strategy:** Some prefer to build from the bottom up, while others look for distinct features to start with.

- **Examine Piece Shapes:** Pay close attention to the curves, notches, and protrusions of each piece.
- **Use the Guide:** If you get stuck, refer to the included instructions or visit the Bepuzzled website for step-by-step solutions.

## MAINTENANCE

To ensure the longevity and appearance of your 3D Crystal Puzzle, follow these simple maintenance guidelines:

- **Cleaning:** Gently wipe the assembled puzzle with a soft, damp cloth to remove dust. Avoid abrasive cleaners or harsh chemicals, as these can scratch or damage the plastic.
- **Storage:** Store the puzzle away from direct sunlight and extreme temperatures to prevent discoloration or warping of the plastic pieces.
- **Handling:** Handle the assembled puzzle with care, as it is composed of interlocking pieces that can separate if dropped or subjected to strong impact.

## TROUBLESHOOTING

### Common Issues and Solutions

| Issue                             | Solution                                                                                                                        |
|-----------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Pieces do not fit together        | Ensure the pieces are correctly oriented. Each piece has a specific fit. Refer to the instruction diagrams or online solutions. |
| Puzzle is unstable after assembly | Verify all pieces are fully interlocked. Ensure the central securing rod (if included) is properly inserted.                    |
| Missing pieces                    | Carefully check your work area. If a piece is genuinely missing, contact Bepuzzled customer support for assistance.             |

## SPECIFICATIONS

- **Brand:** Bepuzzled
- **Model Number:** 31156
- **Product Style:** 3D Crystal Puzzle
- **Character:** Disney Platinum Marie
- **Number of Pieces:** 45
- **Material:** Hard Plastic
- **Recommended Age:** 12 years and up
