HOLMES HAPF360

Holmes HAPF360 3-in-1 True HEPA Air Filter Instruction Manual

For Holmes HAP360W Air Purifier

INTRODUCTION

This manual provides essential information for the proper installation, operation, and maintenance of your Holmes HAPF360 3-in-1 True HEPA Air Filter. This filter is specifically designed for use with the Holmes HAP360W Air Purifier model.

The Holmes HAPF360 filter features a comprehensive 3-stage filtration system engineered to improve indoor air quality by capturing various airborne particles and odors.

INSTALLATION AND SETUP

The Holmes HAPF360 filter is a replacement component for the Holmes HAP360W Air Purifier. Refer to your air purifier's instruction manual for detailed steps on how to open the unit and access the filter compartment. The general procedure for filter replacement is as follows:

1. Ensure the air purifier is turned off and unplugged from the power outlet.
2. Locate and open the filter cover or base of your HAP360W air purifier.
3. Carefully remove the old filter. Dispose of the used filter according to local regulations.
4. Unpack the new Holmes HAPF360 filter from its protective packaging.
5. Insert the new filter into the air purifier, ensuring it is seated correctly and securely.

6. Close the filter cover or reattach the base of the air purifier.
7. Plug the air purifier back into the power outlet and turn it on. Reset the filter indicator light if your model has this feature.

Compatible with Holmes Air Purifier model HAP360W

OPERATING PRINCIPLES

The Holmes HAPF360 filter utilizes a 3-stage filtration system to effectively clean the air:

- **Stage 1: Prefilter**

This initial layer captures larger particles such as dust, pet hair, and lint. This stage helps to extend the lifespan and efficiency of the subsequent filter stages.

- **Stage 2: True HEPA Filter**

The True HEPA layer is designed to remove up to 99.97% of airborne pollutants and allergens, including dust, smoke, pollen, mold spores, and pet dander. It captures particles as small as 0.3 microns.

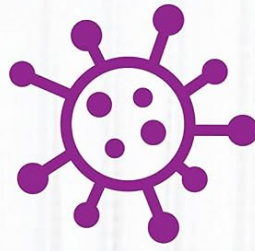

- **Stage 3: Carbon Filter**

The activated carbon layer works to neutralize common household odors originating from cooking, fumes, smoke, pets,

and other sources, providing fresher air.

MAINTENANCE

For optimal performance and to ensure continuous clean air delivery, it is recommended to replace your Holmes HAPF360 3-in-1 True HEPA Air Filter every **12 months**. The actual replacement interval may vary depending on air quality, usage frequency, and environmental factors.

Your Holmes HAP360W Air Purifier may feature a filter replacement indicator light. Consult your air purifier's manual for instructions on how to reset this indicator after installing a new filter.

Do not attempt to wash or clean the filter, as this can damage the filtration media and reduce its effectiveness. Always replace with a genuine Holmes HAPF360 filter.

TROUBLESHOOTING

If you experience any issues after installing a new filter, consider the following:

- **Reduced Airflow:** Ensure the filter is correctly seated within the air purifier and that the filter compartment cover is securely closed.
- **Persistent Odors:** If odors persist shortly after replacement, verify that the new filter was properly installed and that all packaging was removed. If the filter has been in use for an extended period, it may be time for another replacement.
- **Filter Indicator Light Remains On:** Refer to your air purifier's manual for specific instructions on how to manually reset the filter indicator light after replacement.

If problems persist, consult the troubleshooting section of your Holmes HAP360W Air Purifier manual or contact customer support.

SPECIFICATIONS

Feature	Detail
Model Number	HAPF360
Compatibility	Holmes HAP360W Air Purifier
Filtration Type	3-in-1 True HEPA with Carbon Layer
Particle Removal	Up to 99.97% of airborne pollutants and allergens as small as 0.3 microns
