# Bme Georgina Signature King Bed Frame Instruction Manual

Model: ZW1X

## 1. PRODUCT OVERVIEW

The Bme Georgina Signature King Bed Frame is designed with a handcrafted geometric headboard, offering a blend of rustic and modern aesthetics. Constructed from solid acacia wood and supported by matte black metal legs, this bed frame provides robust support for your mattress without the need for a box spring.

### Key Features:

- **Handcrafted Geometric Headboard:** Features a unique 3D geometric pattern, enhancing the wood's natural beauty.
- **Durable Construction:** Made from sustainable solid acacia wood with sturdy metal legs for exceptional stability.
- **High Weight Capacity:** Supports up to 800 pounds, ensuring reliable and stable sleep.
- **Wood Slat Support System:** Provides complete mattress support and breathability, eliminating the need for a box spring.
- **Easy Assembly:** Designed for straightforward setup with all necessary parts and tools included.

## 2. SAFETY INFORMATION

Please read and follow all safety instructions to prevent injury and ensure proper assembly and use of your bed frame.

- **Two-Person Assembly:** It is highly recommended that two people assemble this bed frame together.
- **Use Gloves:** Wear gloves during the assembly process to protect your hands.
- **Drilling Tool:** A drilling tool may assist with the setup, though not strictly required.
- **Weight Limit:** Do not exceed the maximum weight recommendation of 800 pounds.

## 3. PACKAGE CONTENTS

Verify that all components listed below are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

## 4. SETUP AND ASSEMBLY INSTRUCTIONS

Follow these steps carefully for proper assembly. It is recommended to assemble the bed frame in the room where it will be used.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface (e.g., a rug or blanket) to prevent scratches. Identify all parts against the package contents list.
2. **Attach Side Rails to Headboard:** Connect the side rails to the headboard using the provided bolts and Allen wrench. Ensure all connections are secure but do not fully tighten until all major components are in place.
3. **Attach Footboard:** Connect the footboard to the other end of the side rails. Again, secure with bolts and partially tighten.
4. **Install Center Support Legs (if applicable):** If your model includes center support legs, attach them to the designated crossbeams or frame sections.
5. **Insert Slats:** Place the wooden slats across the bed frame. Many models feature Velcro strips or pegs to secure the slats in place. Ensure slats are evenly spaced and firmly seated.
6. **Final Tightening:** Once all components are in place and aligned, fully tighten all bolts. Do not overtighten.
7. **Inspect:** Double-check all connections to ensure the frame is stable and secure before placing a mattress on it.

## 5. OPERATING INSTRUCTIONS

The Bme Georgina Bed Frame is designed for straightforward use once assembled.

- **Mattress Placement:** Place your King-sized mattress directly onto the wooden slats. No box spring is required.
- **Weight Distribution:** Ensure weight is distributed evenly across the bed frame. The frame is designed to support up to 800 pounds.
- **Movement:** When moving the bed frame, lift it rather than dragging it to prevent damage to the legs or frame structure.

## 6. MAINTENANCE

Proper care will extend the life and appearance of your Bme Georgina Bed Frame.

- **Cleaning:** Wipe the wood surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that can damage the finish.
- **Dusting:** Regularly dust the frame with a dry, soft cloth.
- **Tighten Hardware:** Periodically check and tighten all bolts and screws to maintain stability.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause wood to fade or dry out.
- **Humidity Control:** Maintain a consistent humidity level in the room to prevent wood from warping or cracking.

## 7. TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common solutions:

- **Squeaking Noises:** Squeaking often indicates loose connections. Re-tighten all bolts and screws on the frame, especially where the side rails connect to the headboard and footboard, and where the slats rest.
- **Instability/Wobbling:** Ensure all legs are firmly attached and all frame connections are fully tightened. Check that the bed frame is on a level surface.
- **Slats Shifting:** Verify that the slats are correctly positioned and secured by any provided Velcro or pegs. If slats continue to shift, ensure they are evenly distributed and consider adding non-slip pads if necessary.
- **Damaged Parts:** If any part is damaged during assembly or use, discontinue use and contact customer support for replacement parts.
