Walker's XCEL 500BT

Walker's XCEL 500BT Digital Electronic Muff and Hearing Protection Case User Manual

Introduction

This manual provides detailed instructions for the proper use and maintenance of your Walker's XCEL 500BT Digital Electronic Muffs and the accompanying Hearing Protection Case. Please read this manual thoroughly before operating the device to ensure optimal performance and safety.

Product Overview

XCEL 500BT Digital Electronic Muffs

The Walker's XCEL 500BT muffs are designed to provide advanced hearing protection with enhanced sound clarity and Bluetooth connectivity. Key features include:

- Advanced Digital Circuitry
- Bluetooth Connectivity
- Variable Dynamic Sound Suppression
- Hi-gain Omnidirectional Microphones
- Four Listening Modes: Universal, Speech Clarity, High Frequency, Power Boost
- Automatic Shut-off
- Ergonomic Headband Design with Integrated Controls
- Low Battery Warning
- Powered by 2 AAA Batteries (included)

Setup

Battery Installation

1. Locate the battery compartment on the XCEL 500BT muffs.
2. Open the compartment cover.
3. Insert 2 AAA batteries, ensuring correct polarity (+/-).
4. Close the battery compartment cover securely.

Fitting the Muffs

- Adjust the headband to comfortably fit over your head.
- Ensure the ear cups fully cover your ears, creating a seal to maximize hearing protection.

Operating Instructions

Power On/Off

Press and hold the power button on the control panel to turn the muffs on or off. A voice prompt will confirm the action.

Adjusting Volume

Use the volume up (+) and volume down (-) buttons on the control panel to adjust the ambient sound amplification level.

Selecting Listening Modes

The XCEL 500BT offers four distinct listening modes. Press the mode button to cycle through them. Voice prompts will announce the current mode:

- **Universal:** Standard sound amplification.
- **Speech Clarity:** Enhances vocal frequencies for improved communication in noisy environments.
- **High Frequency:** Optimized for detecting high-pitched sounds, such as steel target impacts at long distances.
- **Power Boost:** Provides maximum amplification across the sound spectrum.

Bluetooth Pairing

1. Ensure the muffs are powered on.
2. Activate Bluetooth on your mobile device.
3. Search for "XCEL 500BT" in your device's Bluetooth settings.
4. Select the device to pair. A voice prompt will confirm successful pairing.
5. Once paired, you can receive calls and notifications through the muffs.

Automatic Shut-off

The muffs feature a programmable auto shut-off function to conserve battery life. Refer to the full product manual for details on adjusting this setting.

Maintenance

Cleaning

- Wipe the muffs and case with a soft, damp cloth.
- Do not use abrasive cleaners or immerse in water.
- Ensure ear cups are free of debris for optimal performance.

Storage

- Store the muffs in the provided hardshell case when not in use to protect them from damage and environmental factors.
- Remove batteries if storing for extended periods to prevent leakage.

Troubleshooting

Problem	Possible Cause	Solution
No power	Dead or incorrectly installed batteries	Replace batteries or ensure correct polarity.
No sound amplification	Volume too low; Muffs not powered on	Increase volume; Power on the muffs.
Bluetooth not connecting	Muffs not in pairing mode; Device Bluetooth off; Interference	Ensure muffs are on; Check device Bluetooth settings; Move closer to device.
Constant hiss during Bluetooth audio	Potential Bluetooth audio characteristic; Amplification settings	Try adjusting amplification settings or turning off ambient amplification if only using Bluetooth audio.

Specifications

- **Product Dimensions:** 16.2 x 12.3 x 8.7 inches
- **Weight:** 2.2 Pounds
- **Power Source:** 2 AAA Batteries (included)
- **Connectivity:** Bluetooth
- **Manufacturer:** Walker's

Hearing Protection Case Compatibility

The case is designed to fit most Walker's muffs, including Razor and XCEL series, and other brands of similar sizes.

- **Max Compatible Dimensions:** 9.9" (L) x 10.2" (W) x 4.9" (H)
