

Xiaomi Xiaomi Grooming Kit Pro

Xiaomi Grooming Kit Pro User Manual

Model: Xiaomi Grooming Kit Pro
Brand: Xiaomi

PRODUCT OVERVIEW

The Xiaomi Grooming Kit Pro is a high-quality, all-in-one multi-grooming solution designed for precise and versatile hair trimming. It includes various heads and combs to meet diverse grooming needs, from beard and mustache styling to body and nose/ear hair trimming. Its robust design, long battery life, and waterproof features ensure a convenient and efficient grooming experience.

SETUP

Unboxing and Initial Inspection

Upon opening the package, ensure all components are present and undamaged. The kit typically includes:

- Trimmer unit
- Shaver head
- Body grooming blade
- Precision nose & ear hair trimming head

- Beard comb × 2 (short and long)
- Cleaning brush
- Type-C charging cable
- Storage case
- Travel pouch
- User manual (this document)

Image: All components of the Xiaomi Grooming Kit Pro organized within its dedicated travel case, highlighting the convenience for storage and transport.

Initial Charging

Before first use, fully charge the trimmer. Connect the Type-C charging cable to the trimmer and a suitable power source. The LED display will indicate the battery status. A full charge takes approximately 2 hours and provides up to 90 minutes of run time.

Image: The Xiaomi Grooming Kit Pro highlighting key features such as Type-C charging, 90 minutes of run time, IPX7 waterproof rating, 40 length settings, and an LED display.

Attaching and Detaching Heads/Combs

To attach a grooming head, align it with the main unit and gently push until it clicks into place. To detach, firmly pull the head away from the unit. For the beard combs, slide them onto the U-shaped grooming blade until they securely fit. Ensure the head is properly attached before use to prevent injury.

40 Length Settings | 0.5mm Trimming Precision

Image: A close-up view of the Xiaomi Grooming Kit Pro, illustrating the precision wheel for length settings and the two included beard combs (0.5-10mm and 10.5-20mm) for versatile trimming.

OPERATING INSTRUCTIONS

Powering On/Off

Press the power button once to turn the trimmer on. Press it again to turn it off. The LED display will illuminate when the device is active.

LED Display

Image: A hand holding the Xiaomi Grooming Kit Pro, with the LED display clearly showing '100%' battery charge, indicating the device is ready for use.

Adjusting Length Settings

The precision wheel allows for 40 length settings with 0.5mm precision. Rotate the wheel to select your desired trimming length. This feature provides flexibility for various beard styles and hair lengths.

90mins Full Charge Runtime

Image: A man using the Xiaomi Grooming Kit Pro to trim his beard, emphasizing the product's 40 length settings and 0.5mm trimming precision for customized styling.

Using Different Heads

- **Shaver Trimmer:** For general beard and hair trimming.
- **Professional Styling Trimmer:** For precise lines and detailed styling.
- **Body Hair Trimmer:** Designed for safe and efficient body hair removal.
- **Nose & Ear Hair Trimmer:** For gentle and effective removal of unwanted nose and ear hair.
- **Design Trimmer:** For intricate designs and sharp edges.

Image: The Xiaomi Grooming Kit Pro with the nose and ear hair trimmer attachment in place, alongside other interchangeable blades, demonstrating its multi-functional capability.

Travel Lock

To prevent accidental activation during travel or storage, the trimmer features a travel lock. Long press the power button for 3 seconds to activate or deactivate the lock. The LED display will show a lock icon when activated.

Video: This video demonstrates the various features of the Xiaomi Grooming Kit Pro, including its 40 length settings, self-sharpening stainless steel blades, 90-minute runtime, IPX7 waterproof design, and the convenient travel lock function. It shows the trimmer in action for beard and hair styling, highlighting its precision and ease of cleaning.

MAINTENANCE

Cleaning

The Xiaomi Grooming Kit Pro is IPX7 rated, meaning it is fully water-washable. For best results, detach the blade head and rinse it under running water after each use. The included cleaning brush can be used to remove any trapped hairs from the blades and inside the unit.

IPX7 Rating - Fully Washable Body

Image: The Xiaomi Grooming Kit Pro being held under running water in a sink, demonstrating its IPX7 waterproof rating and ease of cleaning by rinsing the entire body.

Drying and Storage

After cleaning, allow the trimmer and its attachments to air dry completely before reassembling or storing. For optimal performance and longevity, store the grooming kit in its provided storage case or travel pouch in a dry, cool place.

Self-Sharpening Blades

The trimmer features self-sharpening stainless steel blades, designed to maintain their sharpness over time with regular use. This reduces the need for frequent blade replacement.

Video: This video highlights the key features of the Xiaomi Grooming Kit Pro, including its 0.5mm precision, 40 length settings, Type-C charging, IPX7 waterproof design, LED display, 90-minute cordless runtime, and travel lock. It demonstrates the product's versatility and ease of use for various grooming needs.

TROUBLESHOOTING

If you encounter issues with your Xiaomi Grooming Kit Pro, please refer to the following common troubleshooting steps:

- **Trimmer not turning on:** Ensure the battery is charged. If the battery is low, connect the Type-C charging cable and allow it to charge for at least 15 minutes before attempting to power on. Check if the travel lock is activated (long press the power button for 3 seconds to deactivate).
- **Poor trimming performance:** Ensure the blade head is clean and free of hair debris. Rinse the head under running water and use the cleaning brush. Verify that the correct comb attachment is securely fitted for your desired length. The self-sharpening blades should maintain performance, but excessive build-up can hinder cutting.
- **Trimmer not charging:** Check the Type-C cable for any damage. Ensure the charging port on the trimmer is clean and free of debris. Try using a different USB power adapter or port.
- **Unusual noise or vibration:** Detach the blade head and check for any foreign objects or damage. Clean the area thoroughly. If the issue persists, discontinue use and contact customer support.

SPECIFICATIONS

Feature	Detail
Brand	Xiaomi
Model Name	Grooming Kit Pro
Item Model Number	Xiaomi Grooming Kit Pro
Battery Type	1 Lithium Ion battery (included)
Charging Time	2 Hours
Run Time	Up to 90 minutes
