3. Setup Instructions

Follow these steps to assemble your race track:

1. **Unpack Components:** Carefully remove all parts from the packaging and verify against the package contents list.
2. **Connect Track Pieces:** Assemble the straight track sections and the vertical loop. Ensure all connectors are securely fastened. The track pieces are designed to interlock.
3. **Attach Loop Supports:** Secure the base supports to the vertical loop section to ensure stability.
4. **Assemble Scoring Basket:** Construct the scoring basket according to the visual guide. Attach it to the end of the track.
5. **Place Score Cards:** Distribute the score cards near the scoring basket for easy access during play.

4. Operating Instructions

The BEFANS B Race Car Set is designed for intuitive play. Follow these steps to start racing:

1. **Prepare the Cars:** Place a pull-back car on the starting line of one of the tracks.
2. **Wind Up the Car:** Gently pull the car backward along the track to wind up its internal mechanism. The further back you pull, the more power the car will have.
3. **Release the Car:** Release the car to send it speeding along the track, through the 360-degree loop, and towards the scoring basket.
4. **Score Points:** If the car successfully lands in the scoring basket, points are awarded based on the

designated score cards.

5. **Two-Player Play:** Two players can race simultaneously on the double tracks for competitive fun.

5. Maintenance

To ensure the longevity and optimal performance of your BEFANS B Race Car Set, follow these maintenance guidelines:

- **Cleaning:** Wipe down track pieces and cars with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Storage:** When not in use, disassemble the track and store all components in a cool, dry place away from direct sunlight. This prevents warping or damage to the plastic.
- **Inspection:** Periodically check track connectors and car mechanisms for any signs of wear or damage. Replace any broken parts to maintain safe operation.

6. Troubleshooting

If you encounter issues with your race track set, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Car does not complete the loop or reach the basket.	Insufficient pull-back force; track not fully connected.	Pull the car back further to generate more speed. Ensure all track pieces are securely interlocked.
Cars get stuck on the track.	Track misalignment; debris on track.	Check all track connections for proper alignment. Clean the track surface of any dust or small objects.
Scoring basket does not register hits.	Car not landing correctly; basket mechanism jammed.	Adjust car launch technique. Inspect the scoring basket for any obstructions.
