# Lenovo 100 Wireless Keyboard and Mouse Combo User Manual

Model: GX31K80998 | Brand: Lenovo

## INTRODUCTION

The Lenovo 100 USB-A Wireless Combo Keyboard & Mouse offers a seamless and convenient solution for your computing needs. Designed for ergonomic comfort and durability, this combo simplifies your workspace by eliminating cable clutter. It features a spill-resistant keyboard and a precise ambidextrous mouse, ensuring reliable performance for everyday tasks.

## SETUP GUIDE

### Unboxing and Initial Setup

- Inspect Contents:** Ensure all components are present: Lenovo 100 Wireless Keyboard, Lenovo 100 Wireless Mouse, USB Nano Receiver, and 1 AAA battery (included).
- Install Batteries:** Open the battery compartment on the underside of the mouse and keyboard. Insert the included AAA battery into the mouse, ensuring correct polarity. The keyboard requires 1 AA battery (included).

3. **Connect USB Nano Receiver:** Locate an available USB-A port on your computer. Insert the USB Nano Receiver firmly into the port.
4. **Power On:** Turn on the mouse using the power switch located on its underside. The keyboard does not have a separate power switch and will activate upon battery insertion and receiver connection.
5. **Automatic Pairing:** The keyboard and mouse should automatically pair with the receiver. If connection issues occur, ensure the receiver is properly inserted and batteries are correctly installed.

## OPERATING INSTRUCTIONS

---

### Keyboard Features

- **Island Key Design:** The keyboard features an island key design, providing comfortable and tactile typing experience.
- **3-Zone Layout:** A full-size 3-zone layout includes a dedicated numeric keypad for enhanced productivity.
- **Quiet Keys:** Enjoy a quiet typing experience, ideal for shared workspaces or late-night use.

### Mouse Features

- **Ambidextrous Design:** The contoured mouse is designed for comfortable use by both left and right-handed users.
- **1000 DPI Resolution:** Experience precise and effortless navigation with the 1000 DPI optical sensor.

- **Spill-Resistant Design:** The keyboard features a spill-resistant design with a convenient drain hole. In case of minor spills, gently wipe the surface and allow it to dry completely before continued use.
- **Cleaning:** Use a soft, dry cloth to clean the surfaces of the keyboard and mouse. For stubborn dirt, a slightly damp cloth with mild soap can be used, ensuring no liquid enters the internal components.
- **Battery Replacement:** Replace batteries when performance degrades. Refer to the 'Setup Guide' for battery type and installation.

# Waterproof Exterior

Spill resistant design with drain hole

## TROUBLESHOOTING

---

- **No Connection/Lag:**

- Ensure the USB Nano Receiver is securely plugged into a working USB port.
- Check and replace batteries in both the keyboard and mouse if necessary.
- Move the keyboard and mouse closer to the USB receiver to reduce interference.
- Try plugging the USB receiver into a different USB port on your computer.

- **Keys Not Responding:**

- Verify battery levels.
- Clean around the affected keys to ensure no debris is obstructing them.

- **Mouse Cursor Jumps/Is Erratic:**

- Ensure the mouse sensor is clean and free of dust or debris.
- Use the mouse on a clean, non-reflective surface.

## PRODUCT SPECIFICATIONS

---
