DICTAC 2085

DICTAC Queen Bed Frame (Model 2085) Instruction Manual

Your comprehensive guide to assembly, operation, and maintenance.

1. Product Overview

The DICTAC Queen Bed Frame (Model 2085) is an upholstered platform bed designed for comfort and functionality. It features an adjustable LED headboard, integrated USB and Type-C charging ports, and four spacious storage drawers. This bed frame is engineered for stability and a noise-free experience, eliminating the need for a box spring.

2. Setup and Assembly

Before beginning assembly, ensure all parts are present and undamaged. It is recommended to assemble the bed frame with at least two people. Assembly typically takes 30-45 minutes.

2.1 Important Safety Information

- Do not exceed the maximum weight recommendation of 900 pounds.
- Ensure all connections are secure and tightened to prevent product failure and injury.
- Avoid improper assembly, which can compromise the stability of the bed frame.

2.2 Assembly Instructions

Refer to the detailed assembly video below for a visual, step-by-step guide. All necessary tools and numbered parts are included with your product.

Video: This video provides a step-by-step guide for assembling the DICTAC Queen Bed Frame, including attaching the headboard, side rails, and installing the support slats and storage drawers.

Key assembly steps include:

- Attaching the headboard to the support legs.
- Connecting the side rails and central support beams.
- Installing the wooden slats, ensuring they are securely fastened. The durable wood slat system allows air to flow freely, supporting your mattress without a box spring.
- Assembling and inserting the four storage drawers.

4. Maintenance

Proper maintenance ensures the longevity and optimal performance of your bed frame.

4.1 Cleaning

- For the faux leather upholstery, wipe with a damp cloth for general cleaning.
- For deeper cleaning, use a dry cloth. Avoid harsh chemicals or abrasive cleaners that may damage the material.

4.2 General Care

- Periodically check all bolts and connections to ensure they remain tight. Retighten as necessary.
- Ensure the wooden slats are properly seated to maintain mattress support.
- Keep the area around the storage drawer wheels clear of debris for smooth operation.

5. Troubleshooting

If you encounter any issues with your bed frame, refer to the following common troubleshooting steps:

- **LED Lights not working:** Check if the power adapter is securely plugged into a working outlet and the bed frame. Ensure the remote control has fresh batteries or the mobile app is correctly paired.
- **USB Ports not charging:** Verify the bed frame is connected to a power source. Try a different charging cable or device to rule out cable or device issues.
- **Drawers not sliding smoothly:** Inspect the wheels for any obstructions (e.g., dust, debris) and clean if necessary. Ensure the drawers are properly aligned within their tracks.
- **Bed frame making noise:** Tighten all assembly bolts and screws. Check that all wooden slats are correctly positioned and secured. The noise-free design relies on proper assembly.
- **Mattress sliding:** The bed frame features a 'Card Slot Design' to help prevent mattress movement. Ensure the mattress is properly seated within the frame.

If these steps do not resolve the issue, please contact DICTAC customer support for further assistance.
