› Forrovenco 52 Inch Outdoor Ceiling Fan with Light and Remote (Model QX-01-DE) - Instruction Manual

## Forrovenco QX-01-DE

# Forrovenco 52 Inch Outdoor Ceiling Fan with Light and Remote

Model: QX-01-DE

## 1. INTRODUCTION

Thank you for choosing the Forrovenco 52 Inch Outdoor Ceiling Fan. This modern ceiling fan features natural walnut wood blades, a quiet DC motor, integrated lighting, and a multi-functional remote control. Designed for both indoor and covered outdoor spaces, it provides efficient airflow and adjustable lighting to enhance your comfort.

This manual provides detailed instructions for safe installation, operation, and maintenance of your new ceiling fan. Please read it thoroughly before beginning installation or use, and retain it for future reference.

## 2. IMPORTANT SAFETY INFORMATION

To reduce the risk of electric shock, fire, or personal injury, always follow these basic precautions:

- Read all instructions carefully before installing the fan.
- Ensure the power is turned off at the circuit breaker before installation or servicing.
- All wiring must be in accordance with national and local electrical codes. If you are unfamiliar with wiring, consult a qualified electrician.
- The fan must be mounted to a ceiling joist or structure capable of supporting a minimum of 35 lbs (15.9 kg).
- Ensure the fan blades are at least 7 feet (2.1 meters) from the floor and 20 inches (50 cm) from any wall or obstruction.
- Do not operate the fan with damaged blades.
- Do not insert objects into the path of the fan blades.
- This fan is suitable for indoor and covered outdoor use (e.g., patios, porches). It is not designed for

uncovered outdoor areas exposed directly to rain or harsh weather.

### **3. PACKAGE CONTENTS**

Verify that all components are present before beginning installation:

- Fan Motor Assembly
- 3 Walnut Wood Blades
- Light Kit with PC Plastic Lamp Shade
- Remote Control with Wall Mount Cradle
- 3 Downrods (5", 10", 15")
- Mounting Bracket and Hardware
- Instruction Manual

Pure copper DC motor ,  
energy- efficient, quiet, precise, durable.

Artisan-carved solid wood  
fan blades, natural texture,  
stable, durable, eco-friendly,  
renewable.

PC plastic lamp shade, even light,  
UV resistance, heat dissipation,  
and unbreakable.

#### 4. PRODUCT SPECIFICATIONS

Feature	Specification
Brand	Forrovenco
Model Name	QX-15 (Item Model Number: QX-01-DE)
Size	52 Inch

Color	Walnut Wood
Number of Blades	3
Motor Type	Brushless DC Motor
Noise Level	Under 25 Decibels
Air Flow Capacity	5500 Cubic Feet Per Minute (CFM)
Power Source	DC (32 Watts)
Voltage	120 Volts (DC)
Control Method	Remote Control
Light Features	3 Adjustable Color Temperatures (3000K, 4500K, 6000K)
Fan Speeds	6
Timer Settings	1H, 2H, 4H
Downrod Options	5", 10", 15" (included)
Max Ceiling Tilt	12 Degrees
Certifications	ETL, FCC

## 5. SETUP AND INSTALLATION

Professional installation is recommended for safety and optimal performance. Ensure power is disconnected at the circuit breaker before starting.

### 5.1 Choosing a Downrod and Mounting

Your fan comes with three downrod options (5", 10", and 15") to accommodate various ceiling heights. The fan can also be installed on sloped ceilings up to 12 degrees. Select the appropriate downrod for your installation location.

# Dimension

Image: Diagram illustrating the fan's dimensions, three downrod lengths (5", 10", 15"), and compatibility with low, high, and sloped ceilings (up to 12 degrees).

## 5.2 Assembly Steps

1. **Install Hanging Bracket:** Secure the hanging bracket to a ceiling joist or suitable support structure.
2. **Assemble Downrod:** Thread the fan wires through the chosen downrod. Attach the downrod to the fan motor assembly.
3. **Hang Fan:** Carefully lift the fan assembly and hang it from the ceiling bracket, ensuring the downrod ball is properly seated in the bracket.
4. **Wiring:** Connect the fan's electrical wires to your household wiring according to the provided wiring diagram in the detailed manual. Ensure all connections are secure.
5. **Attach Blades:** Securely attach the three walnut wood blades to the motor housing using the provided screws.

6. **Install Light Kit:** Connect the light kit wiring and attach the light kit to the bottom of the fan motor assembly. Secure the PC plastic lamp shade.

For a visual guide on the assembly process, please refer to the following video:

## **6. OPERATING INSTRUCTIONS**

Your Forrovenco ceiling fan is operated using the included multi-functional remote control.

### **6.1 Remote Control Functions**

1. Turn off all loads
2. Fan speed control
3. Led indicator light
4. Turn on/off the light
5. Fan off
6. Fan positive and negative rotation control
7. Natural wind
8. Fan timing control

*Image: Detailed layout of the remote control with numbered buttons for various functions including fan speed, light control, and timer settings.*

- **Power On/Off:** Press the power button to turn the fan on or off.
- **Fan Speed Control:** Select from 6 fan speeds (1-6) to adjust airflow. The DC motor operates quietly, under 25dB.
- **Light On/Off:** Toggle the light on or off.
- **Color Temperature Adjustment:** Cycle through 3 color temperature settings: Warm Light (3000K), Natural Light (4500K), and Cold Light (6000K).
- **Dimming:** Adjust the brightness of the light.
- **Reverse Airflow (Summer/Winter Mode):** Use the reverse button to change the direction of blade rotation. In summer, blades rotate counter-clockwise to create a cooling downdraft. In winter, blades rotate clockwise to create an updraft, circulating warm air.

- **Timer Settings:** Set the fan to turn off automatically after 1, 2, or 4 hours.

Image: Visual representation of the fan's reversible function for summer (downdraft) and winter (updraft) modes, alongside the three adjustable light color temperatures.

## 7. MAINTENANCE

Regular maintenance helps ensure the longevity and optimal performance of your ceiling fan.

- **Cleaning:** Periodically clean the fan blades and motor housing with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Blade Inspection:** Check the fan blades for any cracks or damage. Replace damaged blades immediately.
- **Tighten Screws:** Periodically check and tighten all screws on the fan assembly to ensure secure operation.
- **Light Cover:** The PC plastic lamp shade can be removed for cleaning if necessary. Ensure it is securely reattached before operating the fan.

## 8. TROUBLESHOOTING

If you experience issues with your fan, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Fan does not start	No power to the fan; loose wire connections; remote control battery low.	Check circuit breaker; verify all wire connections are secure; replace remote control batteries.
Light does not work	Light kit wiring issue; remote control battery low.	Check light kit wiring connections; replace remote control batteries.
Fan wobbles	Loose blade screws; unbalanced blades; loose mounting bracket.	Tighten all blade screws; ensure blades are balanced (refer to detailed manual for balancing kit instructions if needed); check mounting bracket for secure installation.

Remote control not working	Battery low or incorrectly installed; remote not paired with fan.	Replace remote batteries, ensuring correct polarity; refer to detailed manual for remote pairing instructions.
