DAREU LM109D - 2.4GHz / BT

DAREU Ergonomic Vertical Wireless Mouse

Model: LM109D - 2.4GHz / BT

Instruction Manual

INTRODUCTION

Thank you for choosing the DAREU Ergonomic Vertical Wireless Mouse. This manual provides detailed instructions on how to set up, operate, and maintain your new mouse, ensuring optimal performance and comfort. This mouse is designed to reduce wrist strain and promote a more natural hand position during extended use.

SETUP

1. Battery Installation

The DAREU Ergonomic Vertical Wireless Mouse requires one (1) AA battery (not included). Follow these steps to install the battery:

1. Locate the battery compartment cover on the underside of the mouse.
2. Gently slide or lift the cover to open the compartment.
3. Insert one AA battery, ensuring the positive (+) and negative (-) terminals align correctly with the markings inside the compartment.
4. Replace the battery compartment cover until it clicks securely into place.

5. Locate the power switch on the underside of the mouse and slide it to the 'ON' position.

Measure Your Hand Size

A (Hand Length)

B (Palm width)

M	17-19cm/6.7-7.5in	8-10cm/3.2-3.9in
L	19cm/7.5in	10cm/3.9in

2. Connection Methods

Your DAREU mouse supports two connection methods: 2.4GHz wireless via USB receiver and Bluetooth 4.0. You can easily switch between these modes.

2.1. 2.4GHz Wireless Connection

1. Locate the USB receiver stored inside the battery compartment of the mouse.
2. Plug the USB receiver into an available USB-A port on your computer.
3. Ensure the mouse is powered on. The mouse should automatically connect to your computer.

2.2. Bluetooth Connection

1. Ensure the mouse is powered on.
2. Press the mode switch button (often located near the DPI button or on the underside) to switch to Bluetooth mode. The indicator light will change to blue or blink to indicate Bluetooth pairing mode.
3. On your computer or device, navigate to Bluetooth settings.
4. Search for new devices and select "DAREU Vertical Mouse" (or similar name) from the list of available devices.
5. Follow any on-screen prompts to complete the pairing process.

One Mouse for Two Devices

OPERATING INSTRUCTIONS

1. Button Functions

The DAREU Ergonomic Vertical Wireless Mouse features 6 buttons for enhanced productivity:

- **Left Button:** Standard left-click function.
- **Right Button:** Standard right-click function.
- **Scroll Wheel:** Scroll up/down, and middle-click function when pressed.
- **DPI Button:** Adjusts the mouse sensitivity (DPI). Press to cycle through available DPI settings.
- **Forward Button:** Navigates forward in web browsers or file explorers.
- **Backward Button:** Navigates backward in web browsers or file explorers.

Image: A detailed diagram indicating the position and function of each button on the mouse.

2. DPI Adjustment

The DPI (Dots Per Inch) button allows you to change the cursor speed and sensitivity. Press the DPI button to cycle through different sensitivity levels. This feature is useful for tasks requiring varying levels of precision, from general

browsing to detailed graphic design.

Image: Illustration of a hand using the mouse, highlighting the DPI button for sensitivity adjustment.

3. Ergonomic Usage

The mouse's 60° vertical angle is designed to keep your wrist in a natural, handshake-like position, reducing muscle strain and discomfort associated with traditional mice. Adjust your grip to allow your palm to naturally conform to the mouse's curve for optimal comfort.

MAINTENANCE

Cleaning

To ensure the longevity and optimal performance of your mouse, follow these cleaning guidelines:

- Disconnect the mouse from your computer (if wired) or turn it off (if wireless) before cleaning.
- Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution.
- Wipe the surface of the mouse gently. Avoid getting moisture into any openings.
- For optical sensor cleaning, use a dry cotton swab to gently remove any dust or debris.
- Do not use harsh chemicals, abrasive cleaners, or aerosol sprays.

Battery Replacement

When the battery is low, the LED indicator light on the mouse will blink. Replace the AA battery as described in the 'Battery Installation' section under Setup.

TROUBLESHOOTING

If you encounter issues with your DAREU Ergonomic Vertical Wireless Mouse, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Mouse not responding	Low battery Incorrect connection mode USB receiver not plugged in (2.4GHz) Bluetooth not paired or disconnected	Replace battery Ensure mouse is in correct mode (2.4GHz or BT) Plug USB receiver firmly into a working USB port Re-pair Bluetooth connection in device settings
Cursor movement is erratic or jumpy	Dirty optical sensor Unsuitable surface Interference	Clean the optical sensor with a dry cotton swab Use the mouse on a clean, non-reflective surface or a mouse pad Move mouse closer to receiver/device; remove other wireless devices
Buttons not working	Software conflict Hardware issue	Restart your computer Test mouse on another computer to rule out hardware defect
Cannot switch between devices	Incorrect button press	Ensure you are pressing the correct mode switch button. Refer to the button description image.

Hand Size Guide

This vertical mouse is designed for medium to large hand sizes. To determine if this mouse is a good fit for you, measure your hand length (from the base of your palm to the tip of your middle finger) and palm width (across the widest part of your palm, excluding the thumb).

Size	Hand Length (A)	Palm Width (B)
Medium (M)	17-19 cm / 6.7-7.5 inches	8-10 cm / 3.2-3.9 inches
Large (L)	>19 cm / >7.5 inches	>10 cm / >3.9 inches
