Pilipane Pilipanec5gy3dhua0-11

Pilipane Manual Food Processor User Manual

Brand: Pilipane

Model: Pilipanec5gy3dhua0-11

1. Introduction

Thank you for choosing the Pilipane Manual Food Processor. This versatile kitchen tool is designed to simplify your food preparation by efficiently chopping, mincing, and mixing various ingredients. Its hand-operated design ensures quiet operation and no electricity dependency, making it a convenient addition to any kitchen.

This manual provides essential information on how to safely set up, operate, clean, and maintain your food processor to ensure optimal performance and longevity.

2. Safety Instructions

Please read all safety instructions carefully before using the appliance to prevent injury or damage.

- **Sharp Blades:** The stainless steel blades are extremely sharp. Always handle them with extreme caution, especially during assembly, disassembly, and cleaning. Keep fingers away from the blades.
- **Child Safety:** Keep the appliance out of reach of children. This is not a toy.
- **Food Grade Material:** The food processor is made from BPA-free, food-grade plastic, ensuring it is safe for your health.
- **Detachable Cutter:** The cutter is detachable. Exercise caution and ensure proper assembly to prevent accidents.
- **Stable Surface:** Always operate the food processor on a stable, flat, and non-slip surface.
- **Do Not Overfill:** Do not overfill the bowl. Refer to the maximum fill line if present, or fill to a level that allows the blades to rotate freely.
- **Product Variation:** Please note that due to manufacturing updates, the new and old types of this product may be sent randomly. This does not affect the core functionality or safety.

3. Product Components

Your Pilipane Manual Food Processor typically includes the following parts:

- Grinder Body (Transparent Bowl)
- Blade Column (with sharp stainless steel blades)
- Lid (with mechanism for handle attachment)
- Handle (either a pull-cord handle or a crank handle)
- Handle Core (for pull-cord type)
- Shredder Blades (3 additional mixing/shredding blades)
- Small Box & Small Box Lid (optional, for storing accessories or processed food)

4. Setup and Assembly

Follow these steps to assemble your food processor before use:

1. Place the Grinder Body (transparent bowl) on a stable, flat surface.
2. Carefully place the Blade Column onto the central pin inside the Grinder Body. Ensure it sits securely.
3. Add your desired ingredients into the Grinder Body. Do not exceed the maximum fill line.
4. Place the Lid onto the Grinder Body, aligning the tabs on the lid with the grooves on the bowl. Twist or press down firmly until the lid is securely locked in place.
5. Attach the Handle to the designated slot on the Lid. For pull-cord models, ensure the handle core is properly

inserted. For crank handle models, ensure the handle is firmly attached to the rotating mechanism.

5. Operating Instructions

Your manual food processor is designed for efficient chopping, mincing, and mixing.

5.1 Chopping and Mincing

1. Prepare ingredients by cutting them into smaller, manageable pieces (e.g., 1-2 inch chunks for vegetables) to ensure even chopping and prevent jamming.
2. Place the prepared ingredients into the Grinder Body with the blade column assembled.
3. Securely close the Lid.
4. **For Pull-Cord Models:** Hold the lid firmly with one hand and pull the handle horizontally with the other hand. The more times you pull, the finer the chop.
5. **For Crank Handle Models:** Hold the lid firmly with one hand and rotate the crank handle clockwise. Continue rotating until desired consistency is achieved.
6. Periodically check the consistency of the food. If needed, gently shake the bowl to redistribute ingredients.

5.2 Mixing

For mixing tasks, you may use the additional shredder/mixing blades if provided. These are ideal for blending sauces, purees, or light batters.

1. Replace the standard chopping blade with the mixing blades if applicable.
2. Add your ingredients to the Grinder Body.
3. Secure the Lid and operate the handle as described in Section 5.1 until ingredients are well combined.

Figure 5.2: The food processor is suitable for a variety of ingredients including vegetables, meat, and nuts.

6. Cleaning and Maintenance

Proper cleaning and maintenance will extend the life of your food processor.

1. **Disassembly:** After use, carefully disassemble all parts: remove the handle, unlock and remove the lid, then carefully lift out the blade column.
2. **Rinsing:** Rinse all components under running water immediately after use. Most parts can be cleaned thoroughly in about 15 seconds.
3. **Dishwasher Safe:** The blades and the Grinder Body (bowl) are dishwasher safe (top rack recommended). The lid and handle mechanism should be hand-washed to protect internal components.
4. **Drying:** Ensure all parts are completely dry before reassembling or storing to prevent rust on blades and maintain hygiene.
5. **Storage:** Store the food processor in a clean, dry place, preferably assembled to keep all parts together.

7. Troubleshooting

If you encounter any issues with your food processor, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Food not chopping effectively	Ingredients are too large or too much food in the bowl. Blades are dull.	Cut ingredients into smaller pieces. Do not overfill. Ensure blades are clean and sharp.
Lid does not close securely	Lid is not aligned correctly with the bowl. Food is obstructing the lid.	Ensure tabs on the lid align with grooves on the bowl. Check for food pieces preventing closure.
Handle is difficult to operate	Mechanism is jammed by food. Handle is not properly attached.	Clear any food obstructions. Reattach the handle firmly.
Unpleasant odor during use	Food residue from previous use.	Thoroughly clean all components, especially the lid and blade assembly.

8. Specifications

Key specifications for the Pilipane Manual Food Processor:

Feature	Detail
Brand	Pilipane
Model Number	Pilipanec5gy3dhua0-11
Material	Plastic, Stainless Steel
Item Weight	Approx. 740 g
Recommended Uses	Mixing, Chopping
Dishwasher Safe Parts	Yes (Blades and Bowl)
