7. TROUBLESHOOTING

If you encounter issues with your Edifier TO-U6+ earbuds, refer to the following common solutions:

- **No Sound:** Ensure earbuds are charged, properly paired, and volume is adjusted on both the

earbuds and your device.

- **Pairing Issues:** Turn off Bluetooth on your device, place earbuds back in the case, close and reopen the lid, then try pairing again. Clear previous Bluetooth connections on your device if necessary.
- **One Earbud Not Working:** Place both earbuds back in the case, close the lid, wait a few seconds, then take them out again. This often re-syncs them.
- **Charging Problems:** Check the charging cable and power source. Ensure charging contacts on earbuds and case are clean and free of debris.
- **Poor Call Quality:** Ensure earbuds are properly seated in your ears. Check for strong Bluetooth signal.

If problems persist, consult the Edifier support website or contact customer service.
