Operating Instructions

Encourage your child to explore and interact with the various tools and features of the workbench:

- **Electric Drill:** Insert 2 AA batteries (not included) into the electric drill. Use the upper button for reverse extraction and the down button to rotate in. The drill comes with different heads to practice screwing and unscrewing the included nuts and bolts.
- **Miter Saw:** Press the saw to make the gears spin, simulating a real cutting action. Use with the included wooden pieces.
- **Hand Tools:** Utilize the hammer to tap in the plastic nails, and the wrenches and pliers to

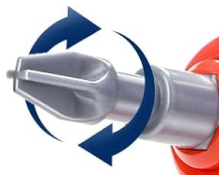

manipulate the nuts and bolts. The screwdriver can be used for manual screwing.

- **Workbench Surface:** The tabletop features various holes and pegs for attaching and manipulating components, fostering creativity and problem-solving.
- **Construction Vest:** The included vest allows children to fully immerse themselves in the role of a construction worker.

Maintenance

To ensure the longevity and hygiene of your Deejoy Kids Workbench:

- **Cleaning:** Wipe down all plastic surfaces with a damp cloth and mild soap as needed. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, disassemble the workbench back into its compact toolbox form. This helps save space and keeps all pieces organized. Refer to the storage manual for detailed instructions on how to pack all components efficiently.
- **Battery Care:** Remove batteries from the electric drill if the toy will not be used for an extended period to prevent leakage.

Troubleshooting

If you encounter any issues with your Deejoy Kids Workbench:

- **Electric Drill Not Working:** Ensure fresh AA batteries are correctly installed. Check that the drill bit is securely attached.
- **Loose Parts:** Re-tighten any plastic screws or re-attach components as per the assembly instructions.
- **Missing Pieces:** Refer to the
