PETLIBRO PLAF103

PETLIBRO Automatic Cat Feeder Instruction Manual

Brand: PETLIBRO
Model: PLAF103 (3L-with WiFi)

1. PRODUCT OVERVIEW

The PETLIBRO Automatic Cat Feeder is designed to provide convenient and reliable feeding for your pets. With smart app control, customizable feeding schedules, and features to maintain food freshness, it ensures your pet receives timely and appropriate meals. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting.

2. SETUP GUIDE

2.1 Unpacking and Assembly

Carefully unpack all components from the box. Ensure you have the main feeder unit, stainless steel bowl, food tray, power adapter, and desiccant bag.

Figure 2: Detachable components of the PETLIBRO feeder for easy assembly and cleaning.

1. Install the food tray securely onto the base of the feeder.

2. Place the stainless steel bowl into the food tray.

3. Open the top lid of the food tank. Insert the desiccant bag into its designated compartment on the underside of the lid to maintain food freshness.

4. Add dry kibble (recommended diameter 2-15mm) into the food tank.

5. Securely fasten the top lid by twisting it clockwise until it locks into place.

6. Plug the power adapter into the feeder's power port and then into a wall outlet.

2.2 App Download and Connection

The PETLIBRO feeder is controlled via a mobile application. Download the "PETLIBRO" app from your device's app store.

Video 1: PETLIBRO Assembly and Setting for 5G WiFi Feeder PLAF103-3L. This video demonstrates the physical assembly and initial setup steps for the feeder, including connecting to the app.

1. Open the PETLIBRO app and follow the on-screen instructions to create an account or log in.

2. Tap the "+" icon to add a new device. Select the Granary Feeder model.

3. Ensure your phone's Bluetooth is enabled for initial pairing.

4. Follow the app's prompts to connect the feeder to your home's 5GHz or 2.4GHz WiFi network.

Figure 3: The feeder supports both 2.4GHz and 5GHz Wi-Fi networks for stable connection.
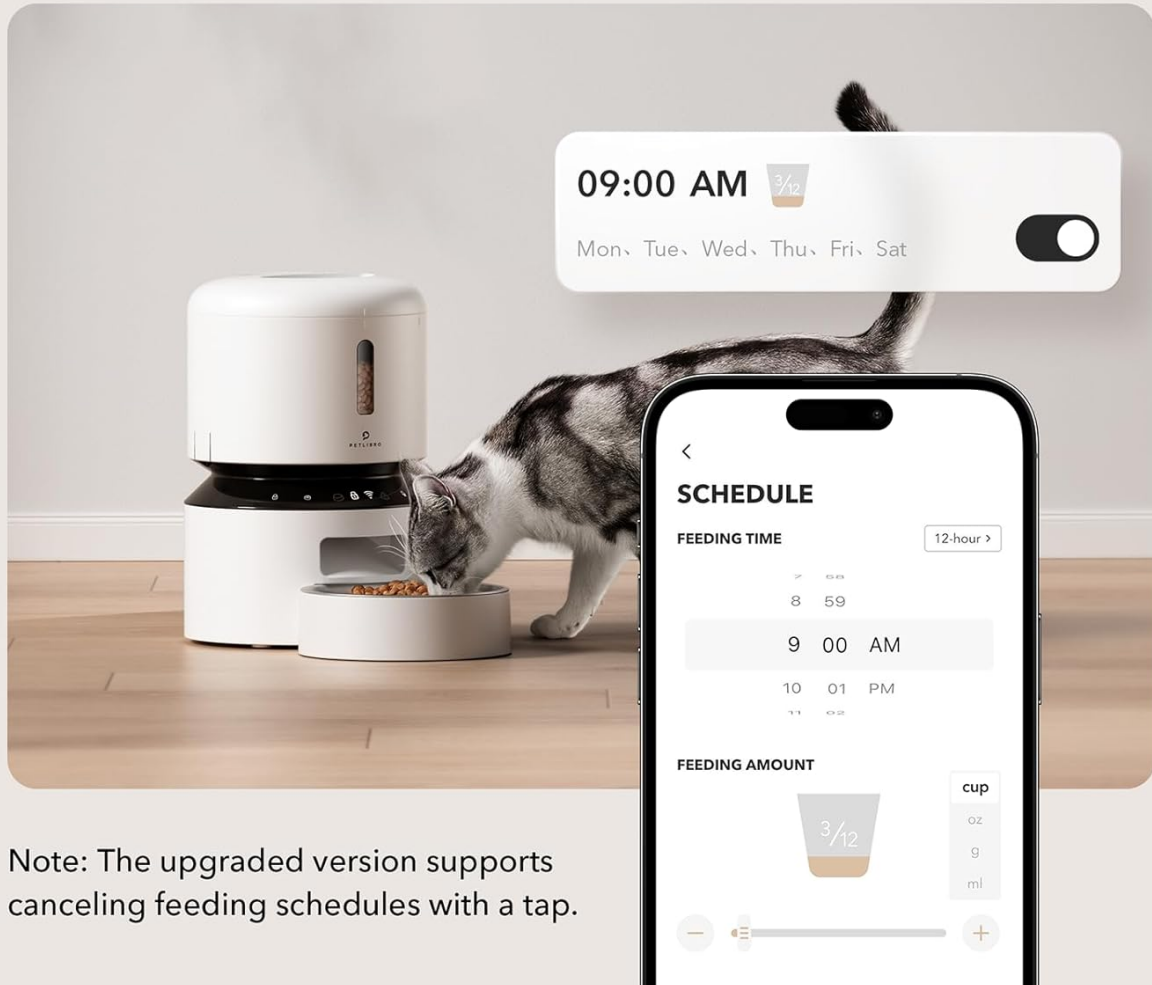

3. OPERATING INSTRUCTIONS

3.1 Setting Up Feeding Schedules

The app allows for precise control over your pet's feeding times and portion sizes.

Figure 4: The PETLIBRO app provides an intuitive interface for customizing feeding schedules.

1. From the app's home screen, navigate to the "Schedule" section.

2. Tap "Add a Feeding Plan" to create a new schedule.

3. Set the desired feeding time (up to 10 meals per day).

4. Adjust the feeding amount (1-48 portions per meal, where 1 portion is approximately 1/12 cup).

5. Select the days of the week for the schedule to repeat.

6. Save the feeding plan.

3.2 Personalized Meal Call

Record a voice message to play at each feeding time, making mealtime more engaging for your pet.

Video 2: PETLIBRO Automatic Pet Feeder for 5G WiFi Control-PLAF103. This video highlights the app control features, including setting up meal calls and adjusting volume.

1. In the app, go to the "Meal Call" section.

2. Tap "Add" to record a new message (up to 10 seconds).

3. You can record up to 10 customized meal calls.

4. Adjust the playback volume and the number of times the message plays.

5. Apply the recording to your desired feeding schedules.

3.3 Manual Feeding

You can manually dispense food at any time outside of scheduled feedings.

- On the feeder's control panel, press and hold the unlock button until the buttons are unlocked.

- Press the manual feed button to dispense one portion of food.

- Alternatively, use the "Feed Now" option in the app to dispense food remotely.

---

4. MAINTENANCE

4.1 Cleaning

Regular cleaning ensures hygienic feeding and optimal performance.

- The stainless steel bowl and food tray are detachable and can be hand washed. Ensure they are completely dry before reassembly.

- The feeder base is NOT washable. Wipe it clean with a damp cloth.

- Periodically clean the food outlet and rotor area to prevent food buildup.

4.2 Desiccant Bag Replacement

The built-in desiccant bag helps keep food fresh and crunchy. It is recommended to replace it every two weeks.

Figure 5: Quadruple sealing features, including the desiccant bag, ensure food freshness.

5. TROUBLESHOOTING

The feeder provides smart notifications and indicators to help you identify and resolve common issues.

- **Low Food Storage Level:** Your phone will receive notifications and the machine's indicator will light up red when the food tank is nearly empty. Refill the food tank promptly.

- **Food Jammed:** If the food outlet is blocked or the rotor is stuck, the app will notify you and the indicator will light up. Clear any obstructions from the food outlet and ensure the rotor can move freely.

- **Low Battery:** If using battery backup, the app and indicator will alert you when the battery is low. Replace the D-cell batteries as needed.

- **Infrared Sensor:** The built-in infrared sensor continuously checks the food outlet and stops dispensing if it detects a blockage, preventing overfilling or spills.
