Setup Guide

1. Initial Charging

Before first use, it is recommended to fully charge the mouse. Connect the USB-A to Type-C cable to the charging dock and then to a USB port on your computer or a USB power adapter. Place the mouse onto the charging dock. The strong magnetic design will ensure a secure connection. The RGB lighting on the dock will indicate charging status.

2. Connecting the Mouse

The DAREU Sakura Pink mouse supports dual-mode connectivity: 2.4G wireless via USB receiver or wired via Type-C cable.

2.1. 2.4G Wireless Connection

1. Locate the USB receiver. It may be stored in a compartment on the underside of the mouse or within the charging dock.
2. Plug the USB receiver into an available USB port on your computer.
3. Ensure the mouse is powered on. The mouse should automatically connect to the receiver.

2.2. Wired Connection

Connect the USB-A to Type-C cable directly from your computer's USB port to the Type-C port on the front of the mouse. The mouse will function as a wired mouse and charge simultaneously.

Operating Instructions

1. Mouse Buttons and Functions

The DAREU Sakura Pink mouse features 7 programmable buttons for versatile control:

- **Left Click:** Standard primary click.
- **Right Click:** Standard secondary click.
- **Scroll Wheel:** Scrolls up/down, and acts as a middle click button.
- **DPI Button:** Cycles through DPI settings (located behind the scroll wheel).
- **Side Buttons (2):** Typically used for 'Forward' and 'Backward' navigation in browsers or can be programmed.
- **Bottom Button:** (Specific function may vary, often for power or profile switching).

2. Adjusting DPI (Sensitivity)

Press the DPI button located behind the scroll wheel to cycle through different sensitivity levels. The mouse features a 12,000 DPI sensor with multiple adjustable steps (e.g., 400, 800, 1600, 3200, 12000 DPI) to suit various tasks and gaming preferences.

3. RGB Lighting Control

The mouse features customizable RGB lighting. Specific lighting patterns and colors can be adjusted using the DAREU software. The charging dock also features RGB lighting.

4. Software Customization

For advanced customization, including button remapping, macro creation, and detailed RGB lighting effects, download the official DAREU software from the DAREU website. The software allows you to fine-tune the mouse to your specific needs.

Maintenance

1. Cleaning

To maintain optimal performance and appearance, regularly clean your mouse and charging dock. Use a soft, dry, lint-free cloth. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid using harsh chemicals, abrasive materials, or excessive moisture.

2. Battery Care

The mouse is equipped with a built-in 930mAh lithium battery. To prolong battery life:

- Avoid completely draining the battery frequently.
- Charge the mouse regularly using the provided charging dock or USB-C cable.
- Store the mouse in a cool, dry place if not used for extended periods.

A full charge can provide up to 10 days of continuous use in 2.4G wireless mode.

Troubleshooting

Problem	Possible Cause	Solution
Mouse not responding (Wireless)	Low battery; USB receiver not connected; Mouse not paired.	Charge the mouse. Ensure USB receiver is securely plugged in. Re-pair the mouse if necessary (refer to software instructions).
Mouse not responding (Wired)	Cable not connected properly; Faulty USB port.	Ensure Type-C cable is securely connected to both mouse and computer. Try a different USB port.
DPI adjustment not working	DPI button malfunction; Software conflict.	Ensure the DPI button is not physically stuck. Check DAREU software for any conflicting settings or updates.

Problem	Possible Cause	Solution
RGB lighting not working/incorrect	Software settings; Power issue.	Check RGB settings in the DAREU software. Ensure mouse has sufficient power.
Magnetic connection to dock is weak	Debris on contacts; Misalignment.	Clean the charging contacts on both the mouse and the dock with a dry cloth. Ensure proper alignment when placing the mouse on the dock.
