Marsail MSTZESD8N / MS-TZESD7

Marsail Standing Desk User Manual

Model: MSTZESD8N / MS-TZESD7
Brand: Marsail

INTRODUCTION

This manual provides essential information for the assembly, operation, maintenance, and troubleshooting of your Marsail Electric Standing Desk. Please read these instructions carefully before use to ensure proper function and longevity of your product.

The Marsail Standing Desk features a 55"x24" adjustable height desktop, designed for home and office environments. It includes a storage bag, headphone hook, and a control panel with 4 memory presets for convenient height adjustments. The desk promotes better posture and reduces health risks associated with prolonged sitting by allowing seamless transitions between sitting and standing positions.

SETUP AND ASSEMBLY

The Marsail Standing Desk requires assembly. All necessary tools are included with the product. It is recommended that one person performs the assembly.

Included Components:

- Desktop Surface
- Leg Frames (2)
- Control Panel
- Motor and Drive Rod
- Headphone Hook
- Storage Bag
- Instruction Manual
- Assembly Hardware (screws, bolts, etc.)
- Assembly Tools (Drill, Screw Driver)

Assembly Steps:

1. **Unpack Components:** Carefully remove all parts from the packaging and verify against the included parts list.
2. **Attach Leg Frames:** Secure the leg frames to the desktop using the provided hardware. Ensure all connections are tight and stable.
3. **Install Motor and Control Panel:** Mount the electric motor and control panel according to the diagrams in the separate assembly guide. Connect all cables securely.
4. **Attach Accessories:** Install the headphone hook and storage bag to the designated locations on the desk frame.
5. **Cable Management:** Utilize the integrated cable management features to organize power cords and other cables for a tidy workspace.
6. **Initial Power-Up:** Connect the desk to a power outlet. The control panel should illuminate.

OPERATING INSTRUCTIONS

Your Marsail Standing Desk features an intuitive control panel for effortless height adjustment and memory presets.

Height Adjustment:

- Use the **Up (▲)** and **Down (▼)** buttons on the control panel to manually adjust the desk height. The desk has an adjustable height range of 27.5" to 46.7".
- The motor operates quietly (below 50 dB) and smoothly at approximately 2 inches per second.

Memory Presets:

The desk offers 4 customizable memory presets to save your preferred sitting and standing heights.

1. **Set a Preset:** Adjust the desk to your desired height using the Up/Down buttons. Press the 'M' button (if available, or hold a number button) followed by one of the number buttons (1, 2, 3, or 4) to save the current height. The display will confirm the setting.
2. **Recall a Preset:** Simply press the corresponding number button (1, 2, 3, or 4) to automatically move the desk to your saved height.

4 Custom Height Settings

MAINTENANCE

To ensure the longevity and optimal performance of your Marsail Standing Desk, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the desktop and frame with a damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Regular Checks:** Periodically check all screws and bolts to ensure they remain tight. Retighten if necessary.
- **Cable Management:** Ensure cables are neatly organized and not pinched or strained, which could affect desk operation or cause damage.

TROUBLESHOOTING

If you encounter any issues with your Marsail Standing Desk, please refer to the following common troubleshooting steps:

- Desk Not Moving:**
 - Check if the power cord is securely plugged into both the desk and the wall outlet.
 - Ensure there are no obstructions preventing the desk from moving up or down.
 - Perform a reset (refer to your specific assembly guide for reset instructions, often involves holding down certain buttons).
- Error Code E07:**
 - If the control panel displays an 'E07' error, this typically indicates a motor or sensor issue. Try performing a full reset of the desk. Unplug the desk for 30 seconds, then plug it back in and attempt to recalibrate or reset the system as per the detailed assembly guide.
- Unstable Desk:**
 - Verify that all assembly screws and bolts are tightened.
 - Ensure the desk is placed on a level surface. Adjust the leveling feet if necessary.
- Anti-Collision Feature:** The desk is equipped with an anti-collision function. If the desk encounters an obstacle during adjustment, it will stop and reverse slightly. Remove any obstructions and try again.
