POVISON TS8002ABK300

POVISON 118.11" Mid Century Modern TV Stand Instruction Manual

Model: TS8002ABK300

INTRODUCTION

Thank you for choosing the POVISON 118.11" Mid Century Modern TV Stand. This entertainment center is designed to accommodate TVs up to 100 inches, featuring wood slatted doors and ample storage. This manual provides essential information for the safe and proper use, assembly, and maintenance of your new TV stand.

SAFETY INFORMATION

- **Partial assembly required:** While largely pre-assembled, some components require careful attachment.
- **Handle with caution:** Use caution when handling heavy components to prevent injury.
- **Cable management:** Ensure proper cable management to prevent hazards such as tripping or electrical issues.
- **Load limit:** Do not exceed the load limit of 100 lbs (45 kg) for the top surface of the TV stand. Distribute weight evenly.
- **Stability:** Place the TV stand on a flat, stable surface. Avoid placing it on uneven flooring.
- **Children and pets:** Keep children and pets away from the unit during assembly. Do not allow children to climb on the unit.

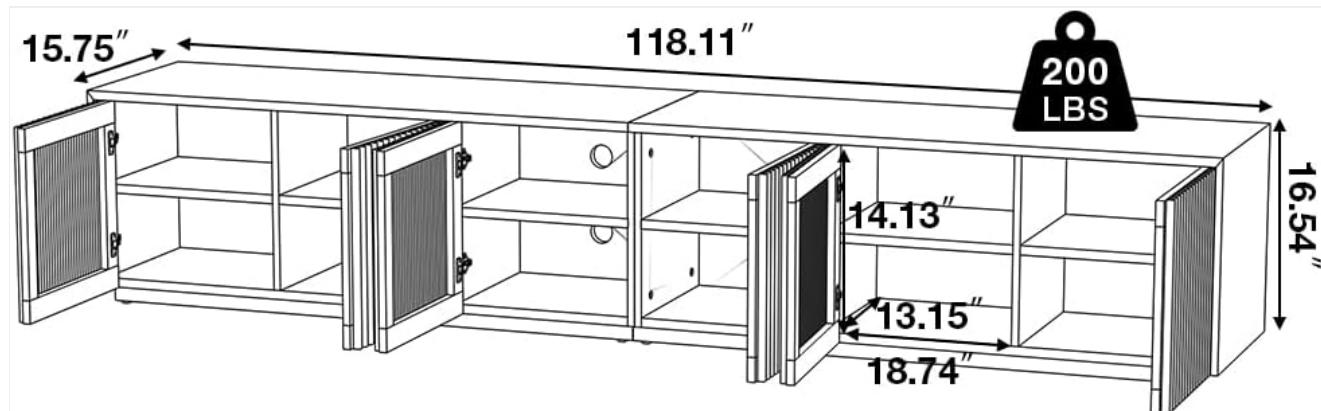

PRODUCT FEATURES

- **Premium & Sturdy Material:** The frame is crafted from multilayer solid ash composite board, while the cabinet's top, slatted doors, and interior shelves are made of solid oak wood. This construction ensures durability and resistance to deformation or cracking over long-term use.
- **Spacious Storage Areas:** Features ample storage space with multiple removable shelves and swing doors, ideal for organizing media devices and entertainment essentials.
- **Cable Management:** Equipped with 4 cord management openings on the back panel to provide a discreet hiding place for cables and wires, maintaining a tidy appearance.
- **Design:** A Mid Century Modern design with wood slatted doors, suitable for various living room and bedroom

aesthetics.

SETUP

The POVISON TV Stand is designed for minimal assembly. Due to its length, the product is shipped in two main packages to reduce the risk of damage during delivery. The primary assembly involves connecting these two pre-assembled cabinet sections.

- 1. Unpack:** Carefully unbox both packages. Ensure all components and hardware are present.
- 2. Position:** Place the two cabinet sections in their desired location, ensuring they are aligned.
- 3. Connect:** Using the provided tools and screws, securely attach the left and right cabinet sections together. One adult can typically complete this step.
- 4. Final Placement:** Once connected, ensure the entire unit is stable and level before placing any items on it.

OPERATING INSTRUCTIONS

This TV stand is designed for convenient and organized storage of your entertainment devices and media.

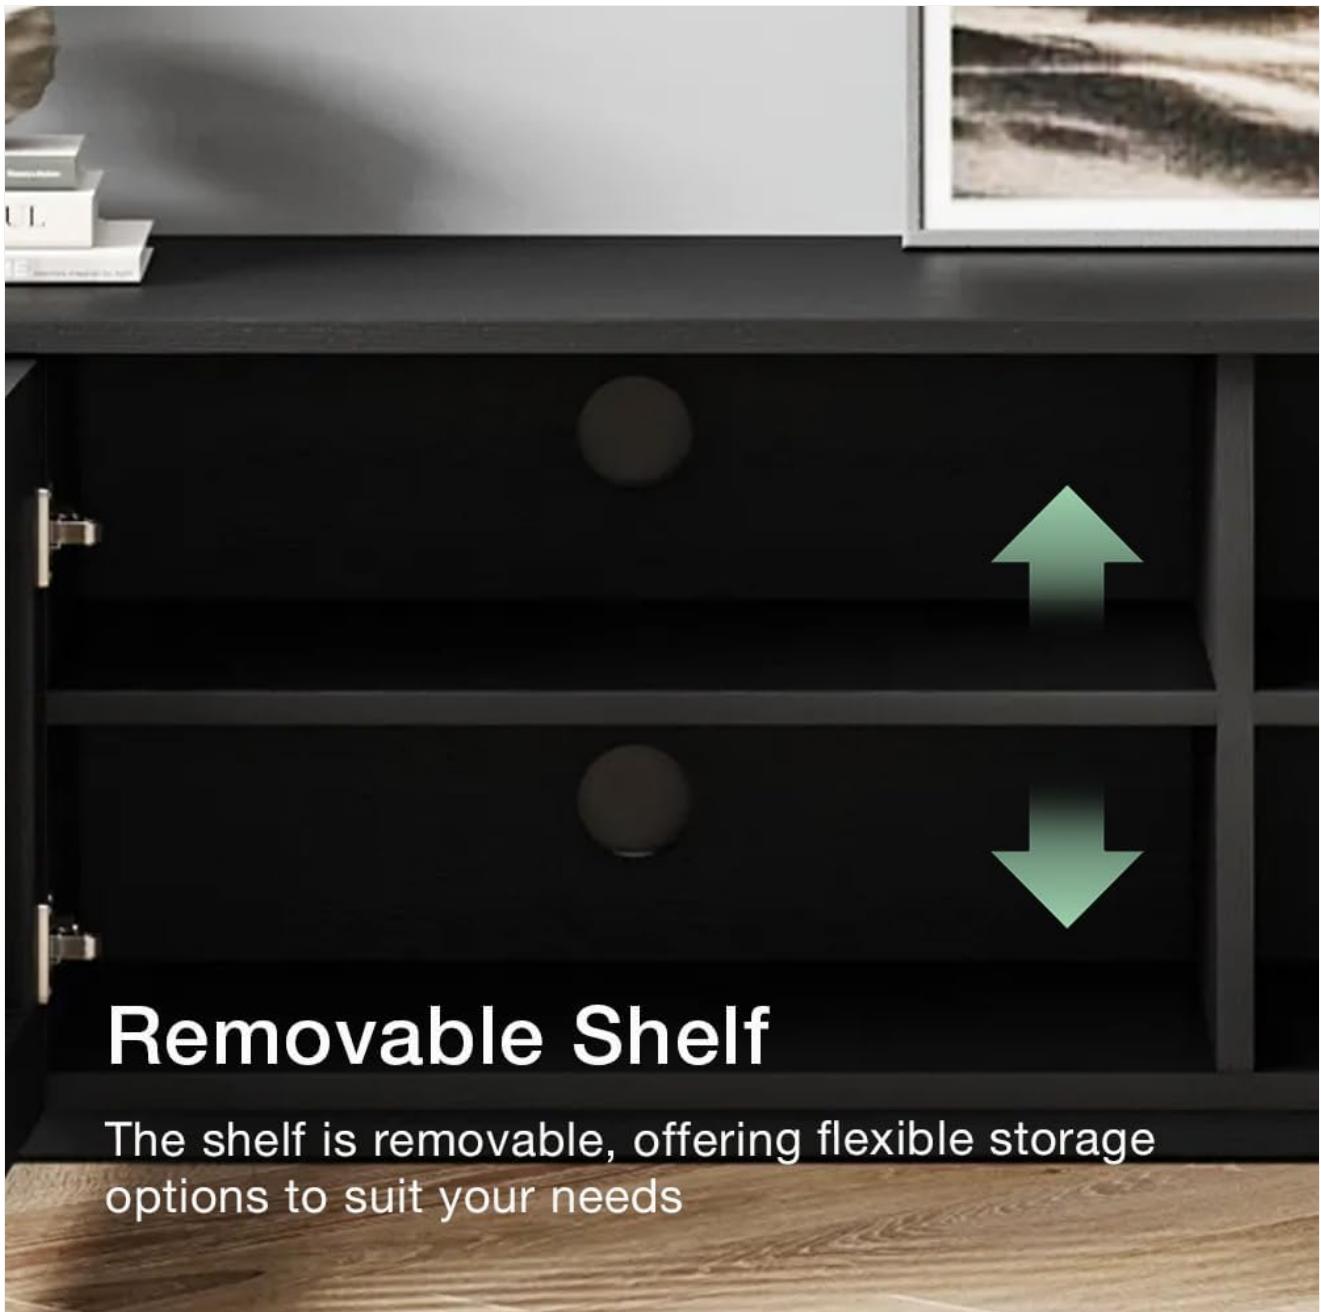

- **Accessing Storage:** The slatted doors open smoothly to reveal spacious compartments. Gently pull the doors to open and push to close.
- **Removable Shelves:** The interior shelves are removable, allowing you to customize the storage space to fit larger items like gaming consoles or audio equipment. To remove a shelf, carefully lift it from its supports.
- **Cable Management:** Utilize the four pre-drilled holes on the back panel for routing cables from your devices to power outlets, keeping them neat and out of sight.
- **Ventilation:** The slatted design of the doors allows for air circulation, which helps prevent electronic devices from overheating when stored inside the compartments. This design also allows remote control signals to pass through.

MAINTENANCE

Proper care will ensure the longevity and appearance of your POVISON TV Stand.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the wood finish.
- **Dusting:** Regularly dust with a dry, soft cloth to prevent buildup.
- **Spills:** Immediately wipe up any spills to prevent staining or water damage.
- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight, which can cause fading or discoloration of the wood.
- **Heat and Moisture:** Keep the unit away from direct heat sources and areas of high humidity. Use coasters under hot or wet items placed on the top surface.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit is wobbly or unstable.	Uneven floor or loose connection screws.	Ensure the unit is on a level surface. Check and tighten all connection screws between the two cabinet sections.
Doors do not close properly.	Misaligned hinges or obstruction.	Check for any objects obstructing the door path. Inspect hinges for proper alignment and adjust if necessary.
Shelves are loose or fall out.	Improperly seated shelf supports or damaged shelf.	Ensure shelf supports are fully inserted into the designated holes. Replace damaged shelves if necessary.
Remote control signal not reaching devices.	Device too far back or signal interference.	Ensure devices are positioned close enough to the slatted doors. The slatted design is intended to allow signals, but extreme angles or distance may affect performance.

WARRANTY AND SUPPORT
