JODSONE 32COLORS-SUN1G+165B-KIT

JODSONE 36-Piece Gel Nail Polish Kit with UV Light and Nail Drill

Model: 32COLORS-SUN1G+165B-KIT
User Instruction Manual

1. INTRODUCTION

This manual provides detailed instructions for the JODSONE 36-Piece Gel Nail Polish Kit. This comprehensive kit includes a UV/LED nail lamp, an electric nail drill, 32 gel nail polishes, and various nail tools, designed for at-home nail care and art. Please read this manual thoroughly before use to ensure proper operation and safety.

2. WHAT'S INCLUDED

The JODSONE 36-Piece Gel Nail Polish Kit includes the following components:

- 1 x 25000 RPM Electric Nail Drill
- 32 x Gel Nail Polishes (various colors)
- 4 x Base/Top Coats (1 matte top coat, 1 base coat, 1 gloss top coat, 1 glitter top coat)
- 5 x Nail Stickers (2 gold, 3 French nail stickers)
- 1 x UV/LED Nail Lamp
- Additional Nail Tools (e.g., nail files, buffers, cuticle pushers, nail clippers)

3. SAFETY INFORMATION

Please observe the following safety precautions:

- Use only the official/genuine power cord and plug specifically designed for this brand to ensure proper function and safety.
- Avoid direct eye exposure to the UV/LED light from the nail lamp.
- Keep all products out of reach of children.
- Store gel polishes in a cool, dry place away from direct sunlight.
- Discontinue use if irritation or allergic reaction occurs. Consult a medical professional if symptoms persist.
- Ensure proper ventilation when using nail products.

4. SETUP

4.1 Nail Lamp Setup

1. Unpack the UV/LED nail lamp and its power adapter.
2. Connect the power adapter to the nail lamp.
3. Plug the power adapter into a suitable electrical outlet. The lamp is now ready for use.

4.2 Electric Nail Drill Setup

1. Unpack the electric nail drill and its USB cable.
2. Insert the desired nail drill bit into the drill head.
3. Connect the USB cable to the nail drill and then to a USB power source (e.g., a wall adapter, power bank, or computer USB port).

5. OPERATING INSTRUCTIONS

5.1 Nail Preparation

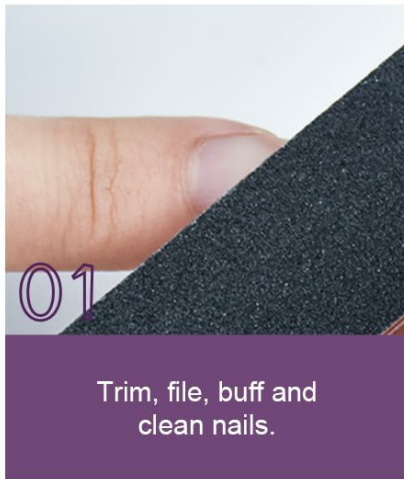

1. **Trim and File:** Trim your nails to the desired length and shape them with a nail file.

2. **Buff:** Gently buff the surface of your nails with a nail buffer to remove shine and create a rough surface for better gel adhesion.
3. **Clean:** Use the nail drill or a cuticle pusher to clean and push back cuticles. Ensure nails are free of dust and oils.

5.2 Gel Nail Polish Application

Follow these steps for optimal gel polish application and longevity:

1. **Apply Base Coat:** Apply a thin, even layer of JODSONE Base Coat to each nail.
2. **Cure Base Coat:** Place nails under the UV/LED lamp and cure for 60-90 seconds (refer to lamp settings).
3. **Apply Color Gel:** Apply a thin, even layer of your chosen JODSONE Color Gel. Avoid applying too thickly.
4. **Cure Color Gel:** Place nails under the UV/LED lamp and cure for 60-90 seconds.
5. **Repeat Color Gel:** For richer color and opacity, apply a second thin layer of color gel and cure again for 60-90 seconds.
6. **Apply Top Coat:** Apply a thin, even layer of JODSONE Gloss Top Coat (or Matte/Glitter Top Coat for desired finish).
7. **Cure Top Coat:** Place nails under the UV/LED lamp and cure for 60-90 seconds.
8. **Finish:** If there is a sticky residue, wipe nails with an alcohol wipe.

5.3 Nail Lamp Operation

The JODSONE nail lamp features multiple curing modes and an auto-sensor for convenience:

- **Timer Settings:** The lamp offers 5S, 30S, and 60S curing modes. Select the appropriate time based on the gel polish thickness and type.
- **LED Display:** The integrated LED screen displays the remaining curing time.
- **Auto-Sensor:** The lamp is equipped with an auto-sensor. Placing your hand inside the lamp will automatically activate the light, and removing your hand will turn it off.
- **LED Beads:** The lamp contains 30 small LED beads for quick and even curing of gel nail polish in all directions.

6. MAINTENANCE

6.1 Cleaning the Nail Lamp

Wipe the exterior of the nail lamp with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners. Ensure the lamp is unplugged before cleaning.

6.2 Cleaning Nail Drill Bits

After each use, remove the drill bit and clean it with a small brush to remove any nail dust. For thorough cleaning, bits can

be disinfected with an appropriate solution.

6.3 Storing Gel Polishes

Keep gel polish bottles tightly sealed and store them upright in a cool, dark place away from direct sunlight and the UV/LED lamp. Exposure to light can cause premature curing.

7. TROUBLESHOOTING

7.1 Nail Lamp Not Turning On

- **Check Power Connection:** Ensure the power adapter is securely connected to both the lamp and the electrical outlet.
- **Verify Outlet:** Test the outlet with another device to confirm it is functional.
- **Press Power Button:** Ensure the power button on the lamp is pressed, or that your hand is fully inserted to activate the auto-sensor.

7.2 Gel Polish Not Curing Properly (Sticky or Soft)

- **Thin Layers:** Apply gel polish in very thin layers. Thick layers may not cure completely.
- **Curing Time:** Ensure adequate curing time (60-90 seconds per layer). Increase time if necessary.
- **Lamp Position:** Ensure all nails are fully exposed to the UV/LED light during curing.
- **Product Compatibility:** This lamp is designed for gel nail polish. Ensure you are not using regular nail polish.

7.3 Gel Polish Peeling or Chipping Quickly

- **Proper Nail Preparation:** Ensure nails are properly buffed and free of oils before applying base coat.
- **Cap the Free Edge:** Apply each coat (base, color, top) to the free edge of the nail to seal it and prevent lifting.
- **Avoid Skin Contact:** Keep gel polish off the cuticles and skin. Gel on skin can cause lifting.
- **Full Cure:** Ensure each layer is fully cured before applying the next.

7.4 Electric Nail Drill Not Functioning

- **Check USB Connection:** Ensure the USB cable is securely connected to both the drill and the power source.
- **Verify Power Source:** Confirm the USB power source is providing power.
- **Bit Insertion:** Ensure the drill bit is correctly and securely inserted.

8. SPECIFICATIONS

Feature	Detail
Product Dimensions	8.27 x 5.91 x 6.5 inches
Item Weight	0.85 kg (1.87 pounds)
Model Number	32COLORS-SUN1G+165B-KIT

Feature	Detail
Manufacturer	JODSONE
