BLANCO 526375

BLANCO Linus Low-Arc Pull-Out Dual Spray Kitchen Faucet User Manual

Model: 526375

Brand: BLANCO

PRODUCT OVERVIEW

The BLANCO Linus Low-Arc Pull-Out Dual Spray Kitchen Faucet is designed for modern kitchens, offering both aesthetic appeal and practical functionality. Its sleek, low-profile design features a fully insulated pull-out handspray with dual spray function, making daily kitchen tasks more efficient. Constructed from solid brass, this faucet is built for durability and resistance against rust and corrosion. The premium finishes are designed to resist tarnishing, ensuring long-lasting beauty. With a 1.5 GPM flow rate, it also contributes to water savings.

SETUP AND INSTALLATION

This section provides general guidelines for the installation of your BLANCO Linus kitchen faucet. For detailed, step-by-step instructions, please refer to the installation guide included in your product packaging. Professional installation is recommended.

Pre-Installation Checklist:

- Ensure you have all components included in the faucet packaging.
- Verify that your sink or countertop has a 1-3/8 inch diameter drilled faucet hole.
- Gather necessary tools (e.g., adjustable wrench, screwdriver, plumber's putty or silicone sealant).

- Turn off the main water supply before beginning installation.

Installation Steps Overview:

1. Secure the faucet body to the sink or countertop using the provided mounting hardware.
2. Connect the 3/8-inch compression nuts and color-coded hot/cold supply lines to your water supply valves. Ensure connections are tight to prevent leaks.
3. Attach the pull-out spray hose to the faucet's main body connection point.
4. Install the hose weight onto the pull-out spray hose to ensure proper retraction.
5. Test for leaks by slowly turning on the water supply and checking all connections.

OPERATING INSTRUCTIONS

The BLANCO Linus faucet is designed for ease of use and efficiency in your kitchen.

Water Flow and Temperature Control:

- The single lever handle controls both water flow and temperature.
- Lift the handle to increase water flow.
- Move the handle left for hot water and right for cold water.

Pull-Out Handspray and Dual Function:

- Gently pull the handspray from the faucet spout to extend it for greater reach.
- The handspray features a dual spray function. Press the button on the spray head to switch between a steady stream and a powerful spray.
- The insulated design ensures comfortable handling even with hot water.
- After use, the handspray retracts smoothly back into the spout.

Water-Saving Feature:

This faucet has a 1.5 GPM (Gallons Per Minute) flow rate, which is designed to increase water savings by 30% compared to standard kitchen faucets, contributing to environmental conservation and lower utility bills.

MAINTENANCE AND CARE

Proper maintenance will ensure the longevity and pristine appearance of your BLANCO Linus faucet.

Cleaning Instructions:

- To clean the faucet, use a soft cloth and mild soap or a non-abrasive liquid cleaner.
- Rinse thoroughly with clean water and dry with a soft cloth to prevent water spots.
- Avoid using abrasive cleaners, scouring pads, or harsh chemicals (e.g., ammonia, bleach, acid-based cleaners) as these can damage the finish.
- The premium finishes are designed to resist tarnishing and corrosion, but gentle care is still recommended.

General Care:

- Regularly check for any signs of leaks around the base of the faucet and connections.

- If water flow diminishes, check the aerator for mineral buildup and clean it as needed. The aerator can typically be unscrewed from the end of the spout.
- The solid brass construction ensures high durability and long-lasting performance against rust and corrosion.

TROUBLESHOOTING

This section addresses common issues you might encounter with your kitchen faucet. If the problem persists, please contact customer support.

Problem	Possible Cause	Solution
Low Water Pressure	Clogged aerator; partially closed shut-off valve; kinked supply line.	Clean or replace aerator; ensure shut-off valves are fully open; straighten supply lines.
Faucet Leaks	Loose connections; worn O-rings or seals; damaged cartridge.	Tighten connections; replace O-rings/seals; replace cartridge (consult professional).
Difficulty Switching Spray Modes	Mineral buildup in spray head.	Remove and clean spray head, soak in vinegar solution if necessary.
Handspray Does Not Retract Fully	Hose weight is dislodged or obstructed; hose is kinked.	Check and reposition hose weight; ensure hose is free of kinks or obstructions under the sink.

SPECIFICATIONS
