Sttoraboks Garage Tool Storage Rack User Manual

Model: 34inch 2 panels+6 hooks

PRODUCT OVERVIEW

The Sttoraboks Garage Tool Storage Rack is a heavy-duty, wall-mounted organizer designed to efficiently store various tools and equipment, helping to declutter your garage, workshop, or shed. Constructed from high-strength, powder-coated alloy steel, this system is built for durability and can support significant weight.

The system includes two slot boards and six double hooks, providing ample storage. Its design allows for convenient access to tools, with hooks positioned to accommodate various items. The modular nature of the system means it can be expanded to meet evolving storage needs.

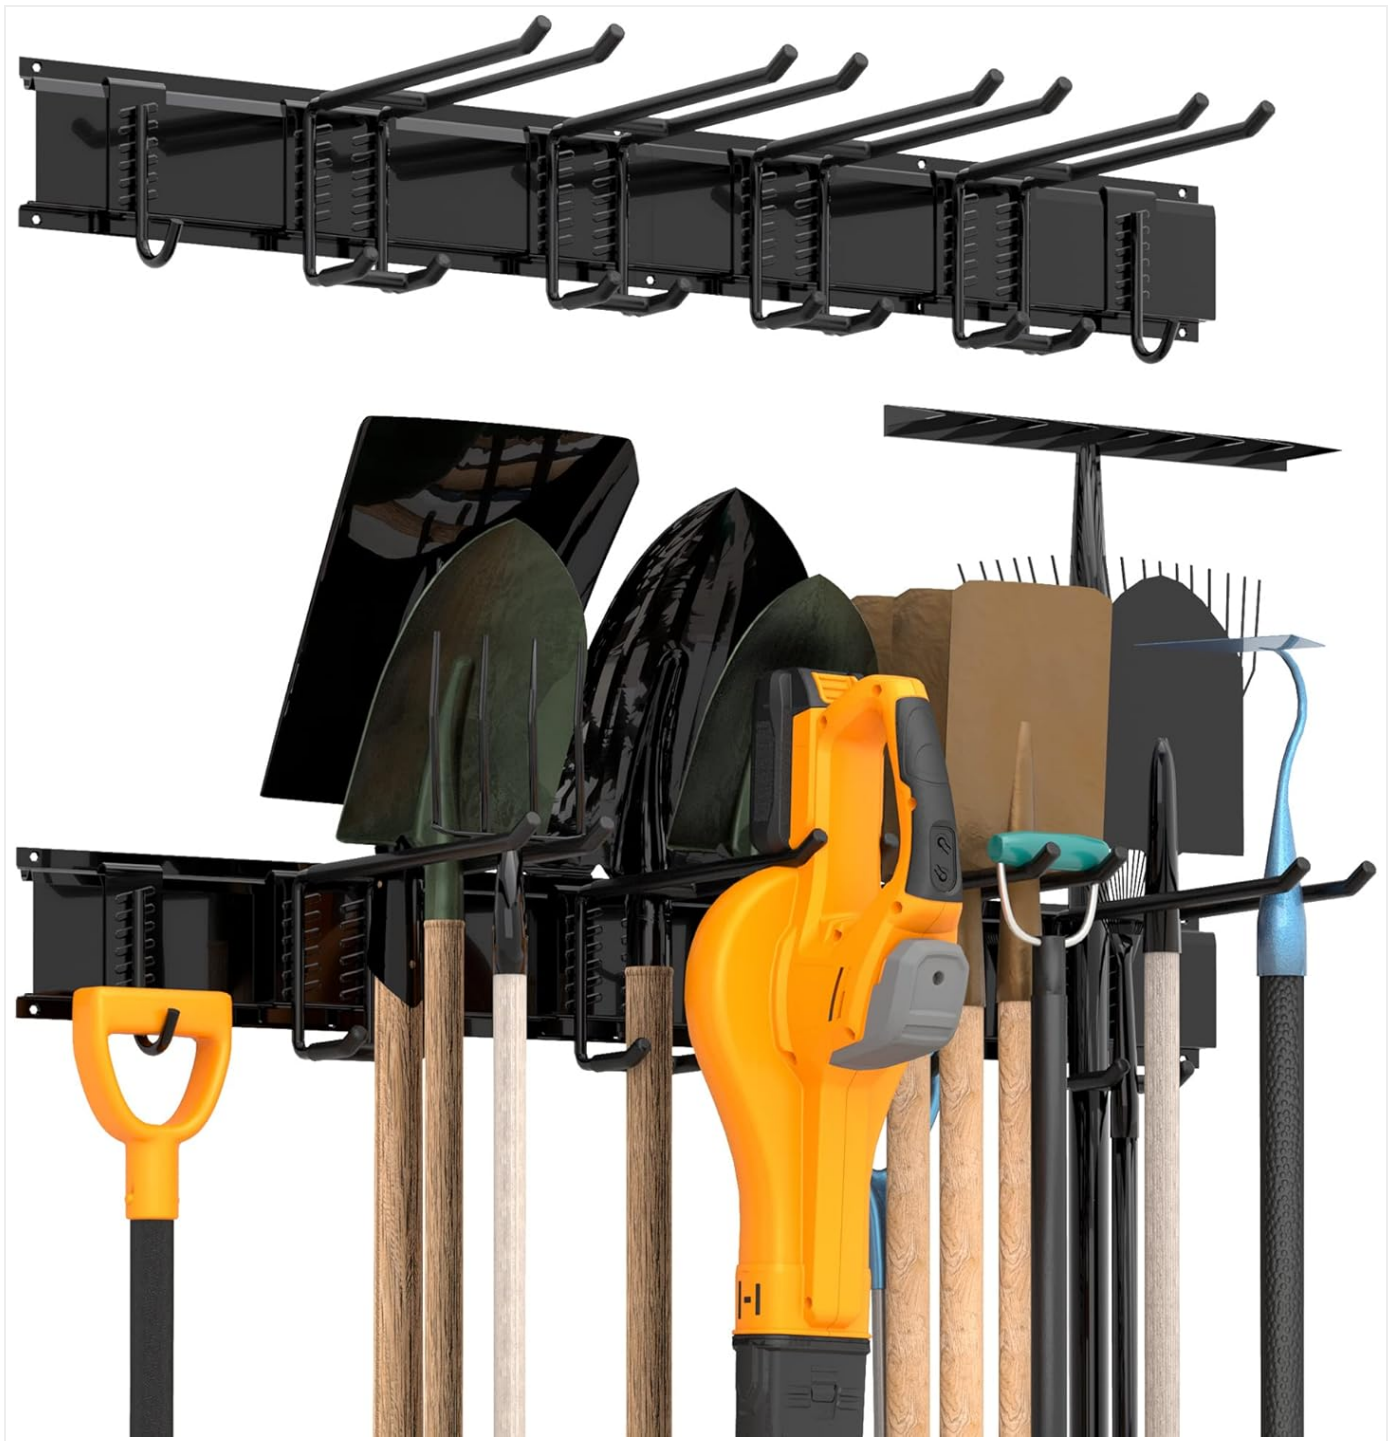

Figure 1: Overview of the Sttoraboks Garage Tool Storage Rack with various garden and garage tools neatly organized.

SETUP AND INSTALLATION

The Sttoraboks Garage Tool Storage Rack is designed for straightforward installation across various wall types. It includes all necessary hardware for mounting on plasterboard, cement brick walls, and wooden boards.

Package Contents:

- 2 x Slot Boards (17 inches each, 16 inches between outermost holes)
- 6 x Double Hooks (rubber-coated, removable)
- Mounting Hardware (self-tapping screws, expansion tubes, wall anchors)

Installation Steps:

1. **Prepare the Wall:** Identify the desired location for the rack. For optimal stability, especially with heavy loads, it is recommended to mount the rack directly into wall studs. The 16-inch distance between the outermost holes on the

slot boards is specifically designed to align with standard 2"x4" stud spacing in American homes.

2. **Marking:** Use a level to mark the position of the rail on the wall, ensuring it is perfectly horizontal. Mark the drilling points for the screws.
3. **Drilling:** Drill pilot holes at the marked points. Use appropriate drill bits and hardware (self-tapping screws for wood, expansion tubes for brick, wall anchors for gypsum board) based on your wall type.
4. **Mounting the Boards:** Securely attach the slot boards to the wall using the provided screws and anchors. Ensure the boards are firmly fixed and level.
5. **Attaching Hooks:** Snap the rubber-coated double hooks into the slots on the mounted boards. The hooks are designed to be easily removable, allowing you to customize their spacing and arrangement as needed.

Figure 2: Detailed dimensions of the slot boards and hooks, along with the types of hardware provided for different wall surfaces.

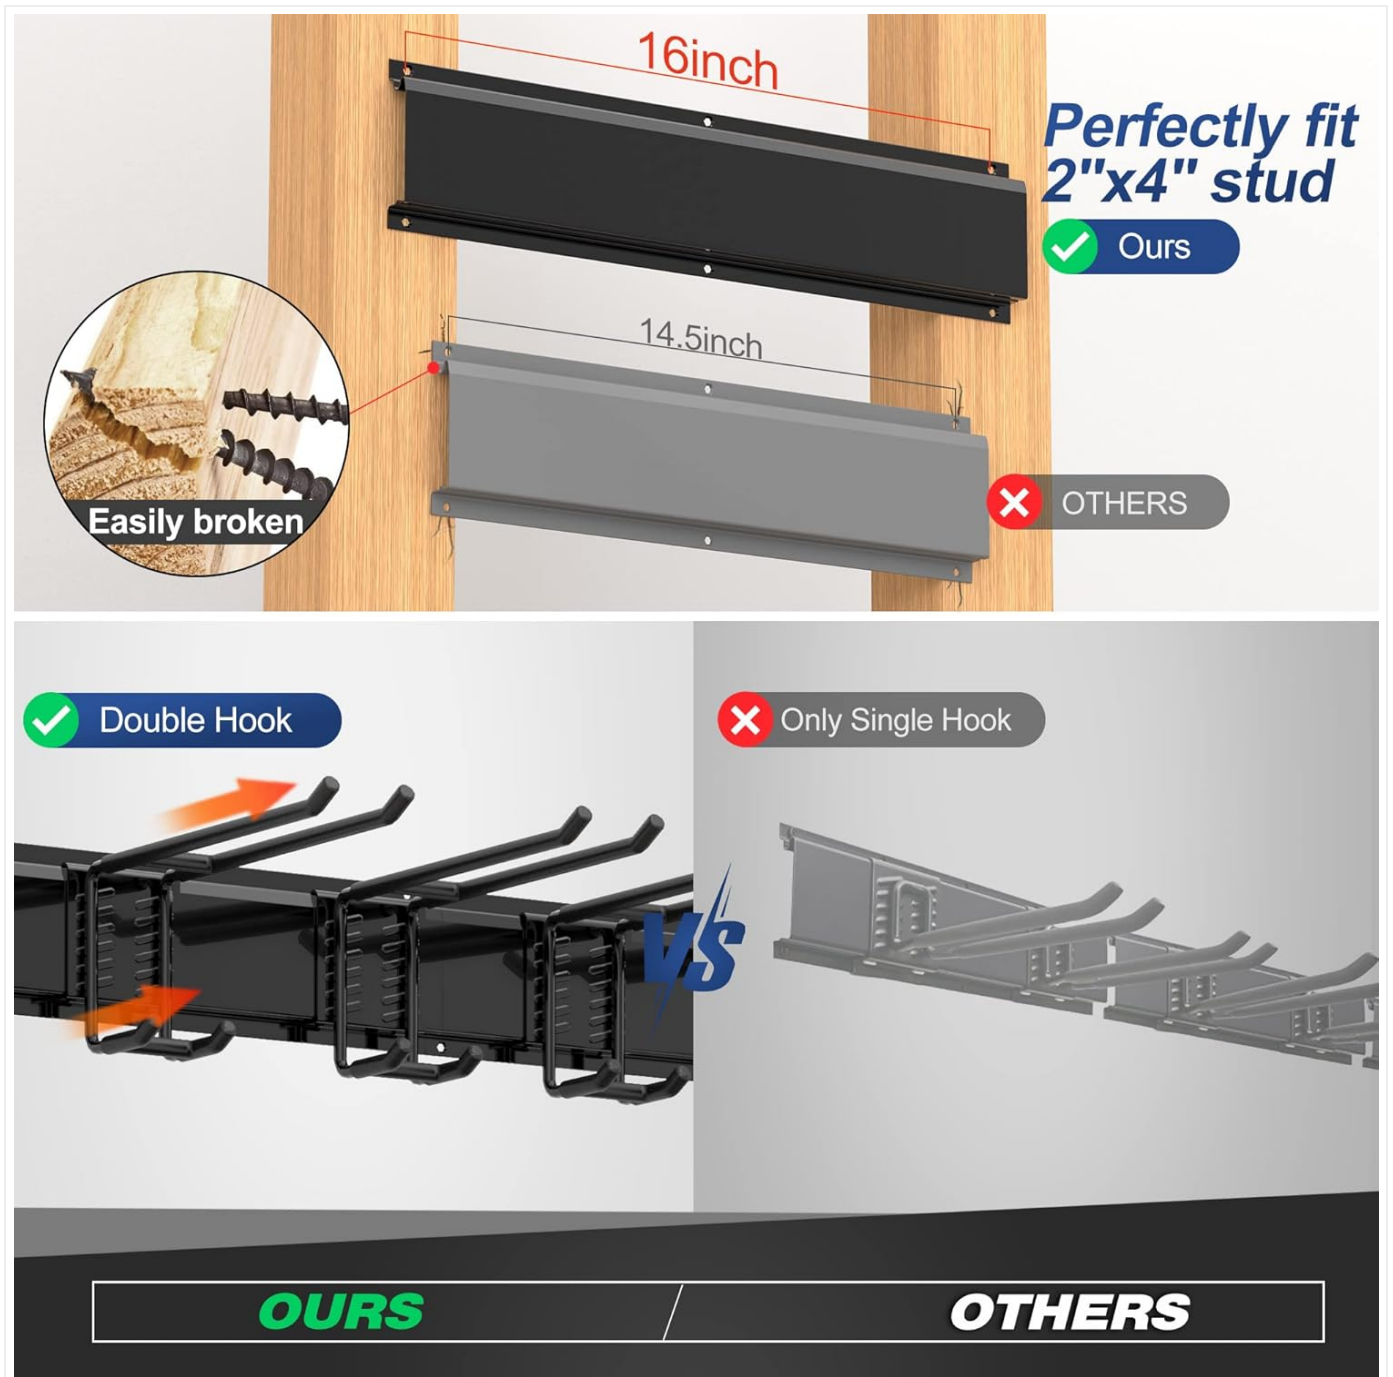

Figure 3: Illustration demonstrating the perfect fit for 2"x4" studs and the advantage of the double hook design for enhanced stability.

Figure 4: Visual guide for the initial installation steps, including marking the height, positioning the board, and using a level to ensure accurate hole placement.

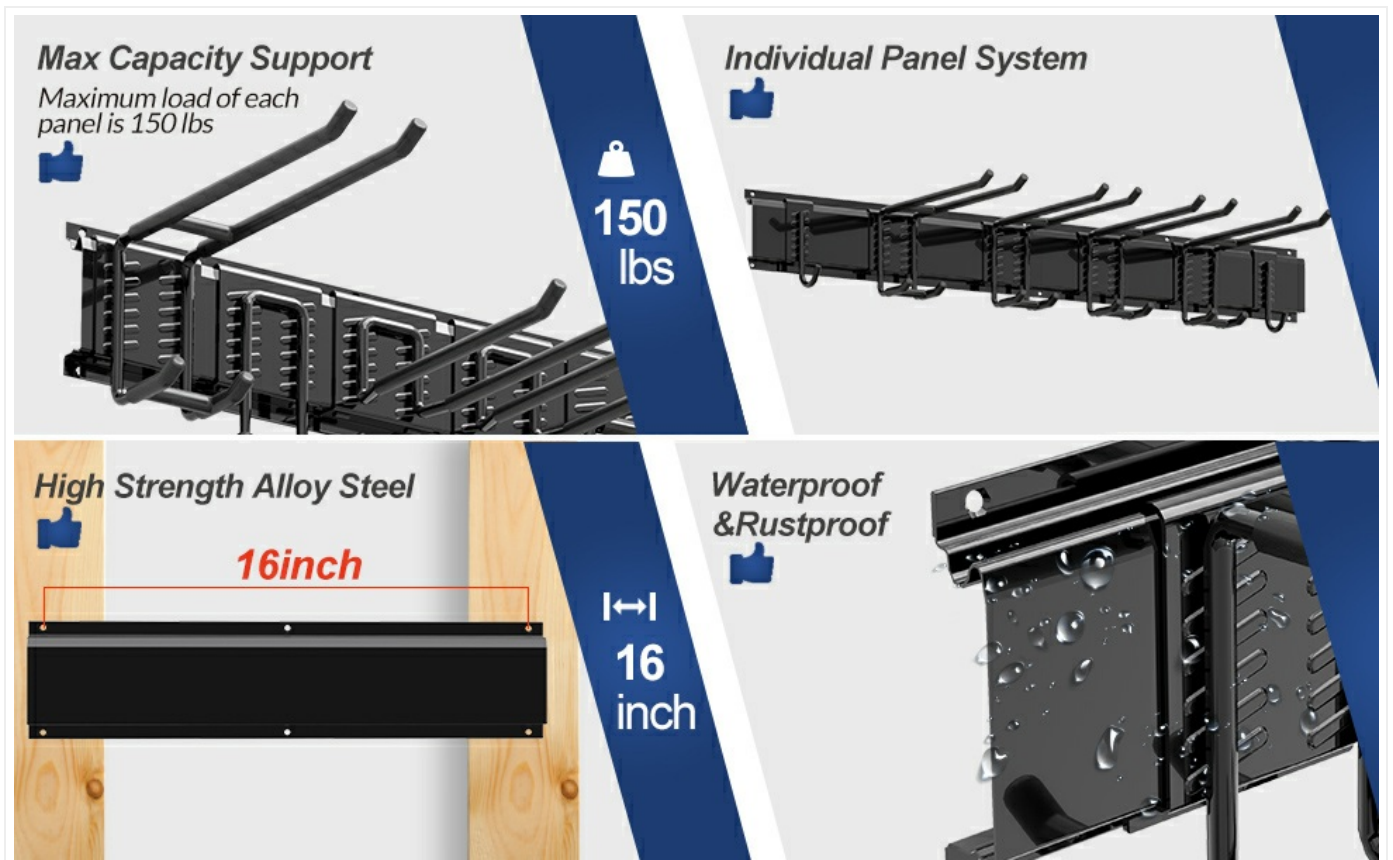

Figure 5: Visual guide for the final installation steps, including drilling the screws, snapping the hooks into place, and adjusting their positions on the rail.

OPERATING INSTRUCTIONS

Once installed, the Sttoraboks Garage Tool Storage Rack provides a flexible and accessible storage solution. The rubber-

coated hooks are designed to protect your tools from slipping and damage while ensuring a secure hold.

Customizing Hook Placement:

The hooks are removable and can be easily repositioned along the steel rails. This allows you to customize the spacing between attachments to perfectly fit tools of various sizes and shapes, from long-handled garden tools to power tools and sports equipment.

Storing Tools:

Simply hang your tools and equipment onto the hooks. The design ensures that items are easily accessible, eliminating the need to search through cluttered storage areas. The system is expandable, allowing you to add more hooks or additional storage components as your collection grows.

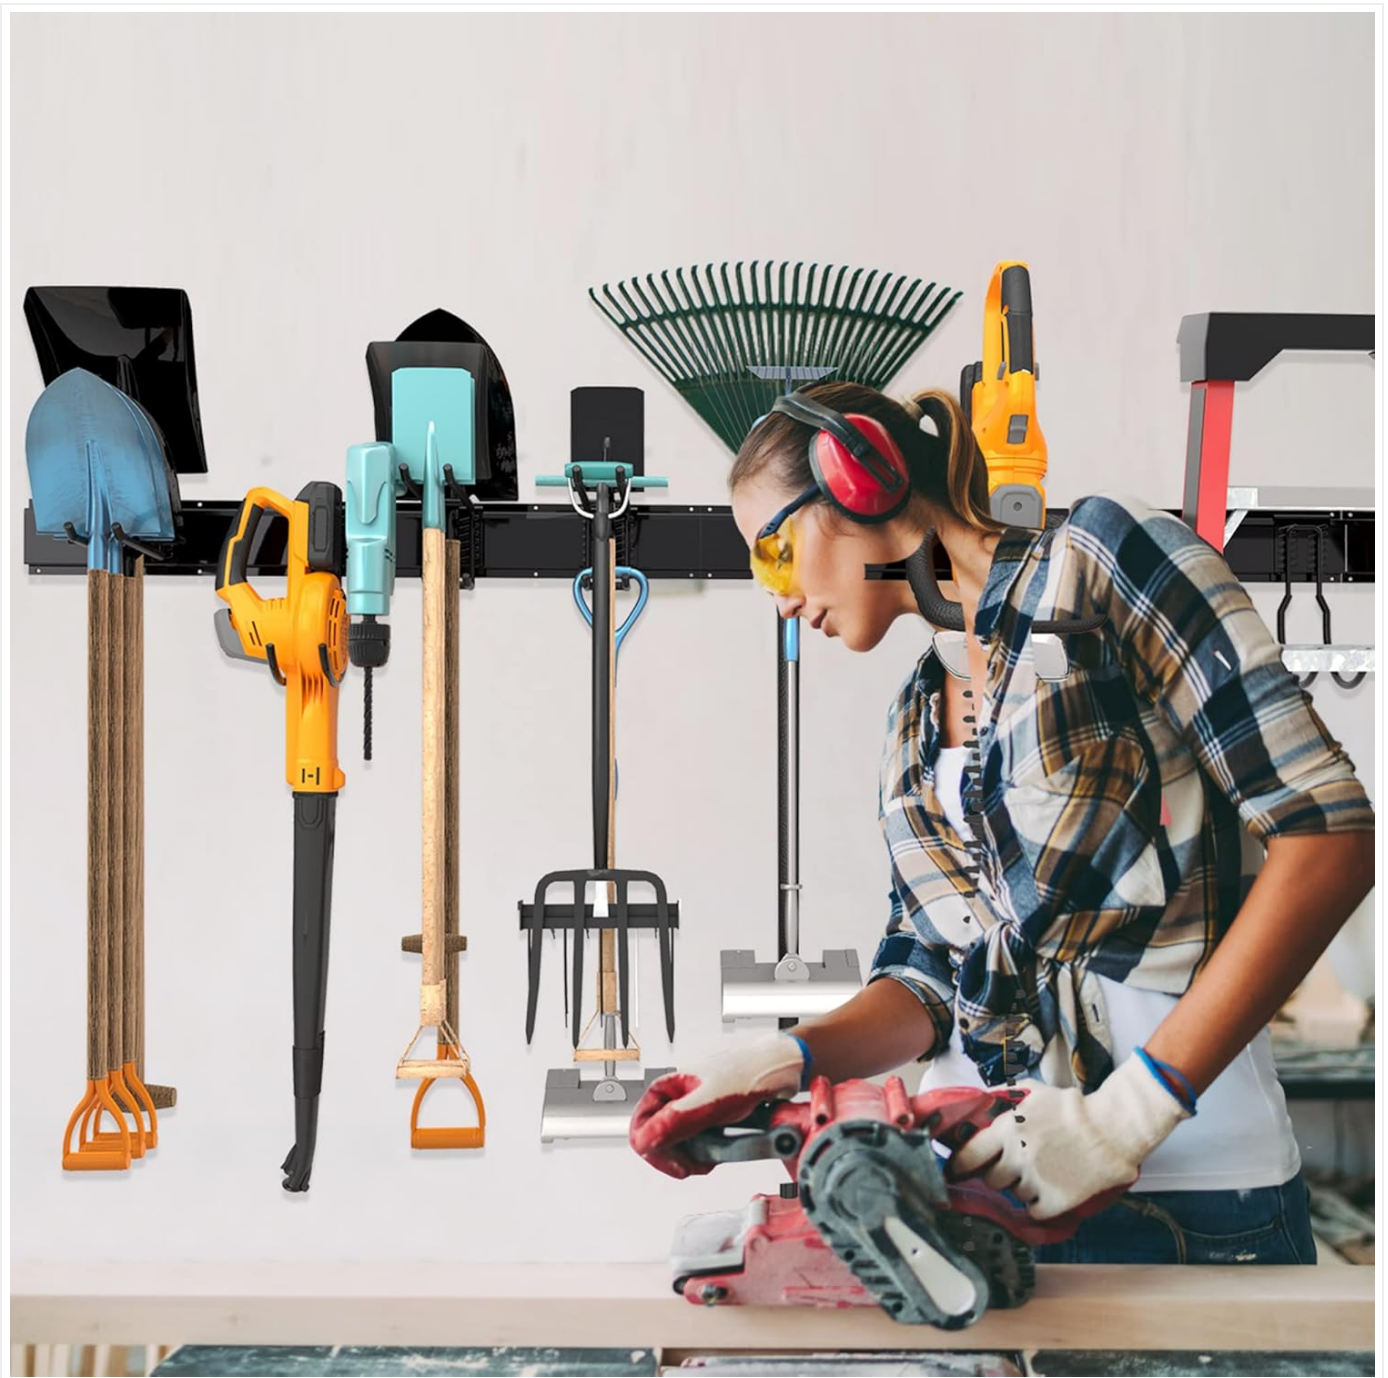

Figure 7: A user demonstrating the ease of organizing various tools on the wall-mounted rack, highlighting its practical application.

MAINTENANCE

The Sttoraboks Garage Tool Storage Rack is designed for durability and minimal maintenance. Its powder-coated finish resists rusting, chipping, and cracking, ensuring long-lasting performance.

Cleaning:

To maintain the appearance and integrity of the rack, simply wipe it down with a damp cloth as needed. Avoid using abrasive cleaners or harsh chemicals that could damage the finish.

Inspection:

Periodically check all mounting screws and connections to ensure they remain tight and secure. If any looseness is detected, tighten the screws immediately to maintain stability and safety.

TROUBLESHOOTING

This section addresses common issues you might encounter with your Sttoraboks Garage Tool Storage Rack. If you experience a problem not listed here, please contact customer support.

Problem	Possible Cause	Solution
Rack feels unstable or wobbly.	Loose mounting screws; not mounted into studs (if applicable); incorrect wall anchors used.	Ensure all screws are tightened. If possible, remount into wall studs. Verify correct wall anchors were used for your wall type.
Hooks slide or do not stay in place.	Hooks not fully snapped into the rail; excessive weight on a single hook.	Ensure hooks are fully engaged in the rail's slot. Distribute weight evenly across multiple hooks or the entire rack.
Tools slip off hooks.	Tools are not balanced; hooks are not rubber-coated (unlikely for this product); excessive vibration.	Ensure tools are balanced when hung. The hooks are rubber-coated to prevent slipping; if this is not effective, ensure the tool's handle is compatible.

SPECIFICATIONS

Feature	Detail
Brand	Sttoraboks
Model	34inch 2 panels+6 hooks
Material	Alloy Steel
Color	Black
Special Feature	Rust Resistant
Product Dimensions (D x W x H)	10"D x 34"W x 5.9"H
Shelf Type	Hanging Shelf
Number of Shelves/Panels	2
Room Type	Garage
Mounting Type	Wall Mount
Included Components	2 Slot Boards, 6 Hooks
Maximum Load Capacity	Up to 300 lbs (150 lbs per panel)
Assembly Required	No (assembly of components, but not complex build)

WARRANTY AND CUSTOMER SUPPORT

Sttoraboks is committed to customer satisfaction. While a specific warranty period is not detailed, the product is backed by a satisfaction guarantee.

Satisfaction Guarantee:

If you are not satisfied with your wall mount tool organizer, please contact Sttoraboks customer service via email for a refund, no questions asked. This commitment ensures that you can purchase with confidence.
